Submission of any bid, proposal, or other document to the Purchasing Division constitutes your explicit consent to the subsequent public disclosure of the bid, proposal, or document. The Purchasing Division will disclose any document labeled “confidential,” “proprietary,” “trade secret,” “private,” or labeled with any other claim against public disclosure of the documents, to include any “trade secrets” as defined by West Virginia Code § 47-22-1 et seq. All submissions are subject to public disclosure without notice.

22. INTERESTED PARTY DISCLOSURE: West Virginia Code § 6D-1-2 requires that the vendor submit to the Purchasing Division a disclosure of interested parties to the contract for all contracts with an actual or estimated value of at least \$1 Million. 25. WAIVER: The failure of either party to insist upon a strict performance of any of the terms or provision of this Contract, or to exercise any option, right, or remedy herein contained, shall not be construed as a waiver or a relinquishment for the future of such term, provision, option, right, or remedy, but the same shall continue in full force and effect. Any waiver must be expressly stated in writing and signed by the waiving party.

26. SUBSEQUENT FORMS: The terms and conditions contained in this Contract shall supersede any and all subsequent terms and conditions which may appear on any form documents submitted by Vendor to the Agency or Purchasing Division such as price lists, order forms, invoices, sales agreements, or maintenance agreements, and includes internet websites or other electronic documents. 42. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
- c. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a

“substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

44. INTERESTED PARTY SUPPLEMENTAL DISCLOSURE: W. Va. Code § 6D-1-2 requires that for contracts with an actual or estimated value of at least \$1 million, the vendor must submit to the Agency a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-award interested party disclosure, within 30 days following the completion or termination of the contract. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange. A more detailed definition of interested parties can be obtained from the form referenced above.

45. PROHIBITION AGAINST USED OR REFURBISHED: Unless expressly permitted in the solicitation published by the State, Vendor must provide new, unused commodities, and is prohibited from supplying used or refurbished commodities, in fulfilling its responsibilities under this Contract.

DESIGNATED CONTACT: Vendor appoints the individual identified in this Section as the Contract Administrator and the initial point of contact for matters relating to this Contract.

REQUEST FOR QUOTATION
Supplemental Staffing for Microsoft Application Development

SPECIFICATIONS

1. PURPOSE AND SCOPE: The West Virginia Purchasing Division is soliciting bids on behalf of the West Virginia State Treasurer's Office (STO or Agency) to establish a contract for Supplemental Staffing Services for Microsoft Application Development.

1.1 OVERVIEW: The STO has a variety of legacy web and desktop applications that need to be reviewed for compliance with modern software development standards and compliance with modern security standards. Due to the number of developers that have worked in the Agency over the past 10-20 years, these applications may or may not have source code available. In the absence of source code, applications will need to be reviewed from a functionality standpoint and recreated from scratch.

The STO is in the process of implementing a new source code control system utilizing GitHub Enterprise server on premise. The STO does not currently have a code repository solution as the legacy system that was in use had issues that made it unusable. All the source code for STO applications, for which source code is available, is currently stored either on a server or on a developer's workstation or network drive.

It is estimated that this project will take 12-24 months to complete. If additional time/work is required to complete beyond one year, the Agency and Vendor will mutually agree upon a renewal for a three-month cycle but in no case shall the total project exceed 24 months.

It is anticipated that this project will begin no later than July 1, 2020

2. DEFINITIONS: The terms listed below shall have the meanings assigned to them below. Additional definitions can be found in section 2 of the General Terms and Conditions.

- 2.1 "Contract Services"** means the professional application developer supplemental staffing services as more fully described in these specifications.
- 2.2 "Pricing Page"** means the pages, contained wvOASIS or attached hereto as Exhibit A, upon which Vendor should list its proposed price for the Contract Services.
- 2.3 "Solicitation"** means the official notice of an opportunity to supply the State with goods or services that is published by the Purchasing Division.

ADDENDUM # 02
CRFQ STO2000000002
Supplemental Staffing for Microsoft Application Development

Specifications Modifications

The Agency would like to modify Section 1.1 of the Specifications as follows (last paragraph):

- It is anticipated that this project will begin the week of July 6, 2020.

The Agency would like to add clarifying language to Section 5.1 of the Specifications as follows:

Section 5.1 – Add Paragraph: This solicitation is a ‘lowest bid/cost meeting specifications’ acquisition. Vendors should take into account the pool of candidates who meet the qualifications and ability to provide the requested deliverables they will be proposing for the project. The vendor shall then provide an all-inclusive hourly rate for the (pooled) candidates and indicate that hourly rate on the Pricing Page. The hourly rate that is bid shall be firm for the base term of the contract. The Agency would like to have copies of resumes with the bid response to expedite the evaluation and for planned interviews for final project selection after contract award.

The Agency would like to add clarifying language to Section 7 of the Specifications as follows:

Add Paragraph: Vendor may request payment for services every two (2) weeks in lieu of a monthly invoice submission. Payment requests shall include the employee name, date of work, and the number of hours billed. Invoices will be verified by the Agency Project Manager(s) before payment processing can occur.

Vendor Questions/Agency Responses

1. Due to the current circumstances with COVID-19, is remote onboarding/start possible?

Answer: The expectation is for the supplemental staff to be onsite. However, if future circumstances surrounding the pandemic would force the office to work remotely in general, then that would apply to the supplemental staff as well. We do offer the option of working four ten-hour days, providing three-day weekends for those that don’t reside in the area. The Agency is taking precautions as recommended by the CDC and the WV Dept of Health & Human Resources for staff and visitors to practice social distancing, providing disposable masks (as available) for wearing in common spaces/areas, hand sanitizer, soap and water, etc. and limiting in-person meetings as much as possible.

2. What mode of interview are you planning to conduct?

Answer: Once the contract has been awarded, the Agency will utilize Microsoft Teams or telephone to interview the candidates that have been proposed for the project. The Vendor should keep in mind that this is a lowest price offer meeting specifications type of acquisition and is not a negotiated procurement. This means that the vendor should assess the candidates that will be

proposed for the project, and which are included in the hourly rate proposed on the Pricing Page for any of those candidates submitted for acceptance by the Agency.

3. What is the level of seniority for the advertised position?

Answer: Supplemental staff to the existing Agency development team.

4. Can you please specify the required skills/technologies more deeply?

Answer: Sections 3.1 thru 3.6 of the solicitation provide an appropriate description. Mandatory deliverables are listed in Section 4 to help provide examples of work to be provided.

5. How many people (developers) are on the project?

Answer: To varying degrees, five Agency developers.

6. Is this a new position or do you have an incumbent? In case there is an incumbent, do you intend to renew their services?

7. Is this a new contract? If no please specify the incumbent name

Answer: Yes.

8. Is there any budget allocated for this contract?

Answer: This project is funded.

9. Is there any NTE hourly rate cap for this opportunity?

One individual may be priced at one hourly rate while another may be priced at a different rate. At no time will the agency agree to an hourly rate for an individual that exceeds the rates on the vendor's response/pricing page.

10. Is there any preference given to local vendors?

Answer: Vendor preference does not apply to this acquisition.

11. Please specify the interview mode (skype or telephonic)?

Answer: See the response to question #2 above.

13. How many candidates we can propose in our response

Answer: As many as you like. However, the Agency will only pay for two approved candidates for this project. See also questions/answers #2 and #9 above.

14. Is there any response format required by the agency (e.g. Cover letter, Company experience, references etc.) or we just need to submit candidate resume, pricing, and forms mentioned in the solicitation document?

Answer: The Vendor should provide the forms mentioned in the solicitation along with candidate resumes. Resumes and References would be helpful if provided with the bid response. A cover letter and brief company experience may be provided as an attachment if responding to the solicitation via wvOASIS. The vendor may also provide a response in other ways per the **Instructions to Vendors Submitting Bids** document, Section 6.

15. How many company's references we have to submit with our bid response? If applicable

Answer: The Vendor may submit no more than five (5) references relating to company experience.

16. Do we need to provide candidate references? If yes how many

Answer: Not initially. However, upon notification, the vendor must provide at least three (3) references for the proposed candidates within one business day of the request. Resumes and References would be helpful if provided with the bid response.

17. Please specify the anticipated date of publishing Q&A's and addendums?

Answer: As soon as responses/answers can be gathered from the Agency.

18. From where will we can receive the addendum and Q&A's (Inbox or via the portal)?

Answer: Addenda and final solicitation documents may be found by visiting www.wvOASIS.gov and selecting VSS (Vendor Self Service) to see all open solicitations.

19. Is this a Single Award or Multiple Award?

Answer: This will be a single award contract. The services are for up to two individuals who will provide supplemental staffing needs for a one-time project.

20. How many Developers are you looking for?

Answer: Two.

21. I believe your PDF stated 3 month rolling contracts?

22. Is that the case, or are you open to longer contracts and/or permanent employees?

Answer: This contract is for a one-time unique project. The base terms will be for one-year for up to two (2) individuals. At that time, the Agency will make contact with the Vendor and the internal customer to provide information as needed; i.e. contract/project kick-off meeting (online/telephone), Agency project manager contact information.

26. When is the Pre bid conference scheduled- can we dial into this call

Answer: There was no pre-bid; see the Instructions to Vendors Submitting Bids document.

27. How many total positions are in scope within this Solicitation

Answer: Two.

28. General - Is there an incumbent contractor performing these services? If so, can you please identify the company/contract and the funding history?

Answer: There is no incumbent. This is a new, one-time unique project.

29. Section 3 – Qualifications: Do you prefer a condensed proposal consisting primarily of proposed personnel resumes and pricing? Or, would you prefer a more comprehensive proposal detailing company capabilities, past performances, development methodologies, etc.?

Answer: Condensed will be fine. See also answers to questions 14, 15 and 16 above.

30. Section 6 – Bid Submission: Please confirm that an electronic submission of the proposal is all that is required. (no paper submission)

Answer: If an electronic submission is provided, a duplicate paper submission of the same is not required.
