

NOTICE

Please note this bid from Kleinfelder for the solicitation DEP2100000002 was received at the Purchasing Division office prior to the established bid-opening date and time on September 10, 2020, but did not load properly at the public bid opening. This response has since been loaded and is now posted.

Frank Whittaker

Assistant Purchasing Director

The following documentation is an electronically-submitted vendor response to an advertised solicitation from the *West Virginia Purchasing Bulletin* within the Vendor Self-Service portal at wvOASIS.gov. As part of the State of West Virginia's procurement process, and to maintain the transparency of the bid-opening process, this documentation submitted online is publicly posted by the West Virginia Purchasing Division at WVPurchasing.gov with any other vendor responses to this solicitation submitted to the Purchasing Division in hard copy format.

12. A. Is your firm's personnel experienced in Abandoned Mine Lands Remediation/Mine Reclamation Engineering?

YES Description and Number of Projects: Kleinfelder's personnel listed in section 13 of this attachment documents previous experience with abandoned mine lands remediation, and mine reclamation engineering for varying regions and types of mining. Specifically, Samantha Pretzel and Nathan DePriest have West Virginia experience for mine site remediation, reclamation and general engineering related to surface and underground coal operations. Kaitlyn Kiehart has an in depth understanding for mine site permitting and inspection experience related to her time as a Mine Inspector out of the Philippi, WV Office for WV Department of Environmental Protection. Total projects related to Kleinfelder's personnel experience is approximately 20 projects. Projects include but are not limited abandoned mine reclamation to facilitate new operations, horizontal drilling program management to confirm abandoned mine works, geotechnical assessment of abandoned mine works for potential subsidence risk, abandoned mine grouting to mitigate subsidence risks, watershed management permitting & site design related to multiple bond forfeiture sites along the Dunkard Creek watershed in Pennsylvania, coal refuse site management and reclamation design, coal mine subsidence investigations and repair plan development, valley fill reclamation design, seep modeling and stability analysis, reclaimed channel design, flood modeling, and contaminant transport modeling.

NO

B. Is your firm experienced in Soil Analysis?

YES Description and Number of Projects: Kleinfelder has considerable depth in regards to geotechnical engineering and soil analysis. Services and capabilities range from general site investigations, earth retention designs, slope stability evaluations, and geohazard evaluation. Kleinfelder currently manages multiple extensive landslide repair programs for large energy clients in the greater West Virginia, Ohio and Pennsylvania area. Total numbers of projects exceed 50 in the last 2-5 years. Scope and responsibilities vary from site investigations that include general geotechnical investigation and soils analysis to geotechnical design generation, construction specifications and plan set compilation. Construction oversight is recommended for any geotechnical design performed by Kleinfelder to ensure that the design is installed correctly, and that any field reports and documentation are complete and help mitigate risk to the client.

NO

C. Is your firm experienced in hydrology and hydraulics?

YES Description and Number of Projects: Kleinfelder has performed extensive stormwater design, floodplain modeling, surface water modeling, groundwater modeling, hydrogeology and structural geologic analysis conducted for surface and underground active and reclaimed mines. Programmatic coverage for some operations has been developed to reduce risk and support permitting needs depending on the Client and their needs. Approximately 25 projects in the last 2-5 years, varying in budget and schedule for national and regional operations in the Eastern United States.

NO

D. Does your firm produce its own Aerial Photography and Develop Contour Mapping?

YES Description and Number of Projects:

NO Kleinfelder sub-contracts aerial photography/LiDAR mapping to develop contour mapping for projects in the state of West Virginia. Contour mapping is generated from the deliverables provided by the sub-contractors listed in section 14.

E. Is your firm experienced in domestic waterline design? (Include any experience your firm has in evaluation of aquifer degradation as a result of mining.)

YES Description and Number of Projects: Kleinfelder staff have worked on multiple domestic waterline design projects, including municipal, private and institutional systems. Projects involved hydraulic analysis, pump sizing calculations, pipeline design and construction oversight for both groundwater and surface water supplies. Staff have been actively involved in 50 projects or more across the eastern United States, a small portion (10 projects) of those were related to the southeastern United States and aquifer degradation because of mining.

NO

F. Is your firm experienced in Acid Mine Drainage Evaluation and Abatement Design?

YES Description and Number of Projects:

NO Personal experience for Kleinfelder personnel included in section 12a and 13 of this attachment, and in Attachment B.

13. PERSONAL HISTORY STATEMENT OF PRINCIPALS AND ASSOCIATES **RESPONSIBLE FOR AML PROJECT DESIGN** (Furnish complete data but keep to essentials)

NAME & TITLE (Last, First, Middle Int.)	YEARS OF EXPERIENCE		
	YEARS OF AML DESIGN EXPERIENCE:	YEARS OF AML RELATED DESIGN EXPERIENCE:	YEARS OF DOMESTIC WATERLINE DESIGN EXPERIENCE:
Pretzel, Samantha J. Senior Professional & Project Manager	5	14	3

Brief Explanation of Responsibilities
Mining Engineer with 15 years of experience in mining and civil applications, experience varies from initial site assessment/development, environmental permitting for active and abandoned operations, construction management and design related to industrial and water transfer and treatment applications, abandoned mine site reclamation and refuse disposal, transportation, as well as power/energy related to linear projects and facilities design. Responsibilities include Bridgeport, WV office management, Project Manager, Kleinfelder Mining Community of Practice (CoP) Leader and Northeast Energy Civil Lead.

EDUCATION (Degree, Year, Specialization)
BS Mining Engineer, 2006, Surface and Underground Coal Mine Operations & Reclamation
MBA, 2019 Business Administration & Export Management

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS	REGISTRATION (Type, Year, State)
Society of Mining, Metallurgy and Exploration American Society of Civil Engineers National Stone, Sand and Gravel Association	Professional Engineer, 2014, West Virginia Professional Engineer, 2019, Pennsylvania Professional Engineer, 2019, Ohio Other States Available Upon Request

13. PERSONAL HISTORY STATEMENT OF PRINCIPALS AND ASSOCIATES **RESPONSIBLE FOR AML PROJECT DESIGN** (Furnish complete data but keep to essentials)

NAME & TITLE (Last, First, Middle Int.)	YEARS OF EXPERIENCE		
	YEARS OF AML DESIGN EXPERIENCE:	YEARS OF AML RELATED DESIGN EXPERIENCE:	YEARS OF DOMESTIC WATERLINE DESIGN EXPERIENCE:
DePriest, Nathan C. Staff Professional	4	4	1

Brief Explanation of Responsibilities
Civil Engineer with PhD in Hydrology and technical experience in Water Resources. Primarily work on mining and other energy and material resource projects, including sand mines, phosphate mines, rock quarries, solar arrays, pipelines, and well pads. Technical experience includes environmental permitting, hydrologic and hydraulic modeling, surface and grading analysis, stormwater design, stream restoration, site inspections, technical report writing, data management, and map graphics. Research experience includes field data collection of natural landform and hydrologic characteristics, reclaimed landform design, soil sample collection and testing, and surface/groundwater, geotechnical, and contaminant modeling.

EDUCATION (Degree, Year, Specialization)
BS Civil Engineering, West Virginia University, 2011
MS Civil Engineering, West Virginia University, 2012, Geotechnical and Hydrologic Analysis of Surface Mine Reclamation
PhD Civil Engineering, West Virginia University, 2015, Hydrologic and Contaminant Analysis of Surface Mine Reclamation

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS	REGISTRATION (Type, Year, State)
American Society of Civil Engineers	Engineering Intern, 2011, West Virginia

13. PERSONAL HISTORY STATEMENT OF PRINCIPALS AND ASSOCIATES **RESPONSIBLE FOR AML PROJECT DESIGN** (Furnish complete data but keep to essentials)

NAME & TITLE (Last, First, Middle Int.)	YEARS OF EXPERIENCE		
	YEARS OF AML DESIGN EXPERIENCE:	YEARS OF AML RELATED DESIGN EXPERIENCE:	YEARS OF DOMESTIC WATERLINE DESIGN EXPERIENCE:
Mallard, Elliott A Senior Principal Professional	0	25	1

Brief Explanation of Responsibilities
 Geologist with +35-years of "cradle to grave" mining and operations experience, ranging from exploration, mine planning, permitting, mine management, reclamation, to site closure. Manage Mining, Civil Engineering and Water Resources for Kleinfelder's FL Area Operations. Previously was Mining Program Manager for Kleinfelder's East Division. Designed and constructed upland and wetland reclamation sites, including stream restoration. Experience includes mining and mining-related projects in FL, GA, AL, MS, SC, NC, TN, TX, UT, NV, VA, PA, AR, Australia, Mexico, New Zealand, and Botswana. Project experience with numerous mines, including mineral sands, aggregate (limestone and granite), sand and gravel, absorbent clay, frac sand, gypsum, phosphate, coal, and gold.

EDUCATION (Degree, Year, Specialization)
 BS Geology, 1983, Western Kentucky University, Mineralogy and Hydrogeology
 MS Geology, 1988, University of Florida, Sedimentology, Economic Geology and Hydrogeology

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS Member - Society for Mining Metallurgy and Exploration Associate Member - International Institute of Minerals Appraisers	REGISTRATION (Type, Year, State) Licensed Professional Geologist, 1995, FL
--	--

NAME & TITLE (Last, First, Middle Int.)	YEARS OF EXPERIENCE		
	YEARS OF AML DESIGN EXPERIENCE:	YEARS OF AML RELATED DESIGN EXPERIENCE:	YEARS OF DOMESTIC WATERLINE DESIGN EXPERIENCE:
Burkhart, Brian Principal Professional	0	8	10

Brief Explanation of Responsibilities
 Mr. Burkhart has over 22 years of experience in civil engineering, particularly water resources. Typical projects include stormwater and Best Management Practice design, hydrologic and hydraulic modeling, stream restoration and wetland mitigation plans, water and sewer facility design, and erosion and sediment control planning and design. Mr. Burkhart also has experience in the design and preparation of construction drawings and specifications for stormwater, stream and wetland restoration, site development, water and sewer distribution system design, and various environmental projects, including Low Impact Design. Mr. Burkhart has experience with multiple hydrologic and hydraulic models in addition to some water quality models. His construction experience includes construction drawing and bid document preparation, issuing addendums, conducting formal bidding, contractor selection and award, and construction management and oversight.

EDUCATION (Degree, Year, Specialization)
 BS Environmental Engineering, 1996, North Carolina State University, Water Resources

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS North Carolina Water Resources Association American Ecological Engineering Society	REGISTRATION (Type, Year, State) Professional Engineer (PE)-Civil, 2014, GA, Professional Engineer (PE)-Civil, 2014, FL, Professional Engineer (PE)-Civil, 2001, NC

19. Use this space to provide any additional information or description of resources supporting your firm's qualifications to perform work for the West Virginia Abandoned Mine Lands Program.

Through our diverse history within the mining, environmental remediation, and water sectors, Kleinfelder is bringing the depth and level of engagement of an international firm to the local level. We do this through both the firm and the individuals that have been included in our supporting documentation, as well as the pool of resources company wide that are available to support our proposed team. Kleinfelder is proposing to manage the West Virginia Abandoned Mine Lands Program out of our local Bridgeport, WV office that is centralized to the current Agency locations throughout the state. Under the leadership of Samantha Pretzel, PE (15+ years of industry experience in the Northern WV coal fields), Elliott Mallard, PG (35+ years of mining industry and reclamation experience) and Dr. Nate DePriest (Ph.D. from WVU in Hydrologic and Contaminant Analysis of Surface Mine Reclamation), Kleinfelder has positioned itself to not only meet the needs of the Agency but bring a level of quality and fit for purpose solutions to the projects that is supports.

Kleinfelder has been engaged in the mining and aggregate industry since our founding over 50 years ago. Our involvement has ranged from entitlement services, natural resource investigations, mine planning, civil and geotechnical engineering, water resources (surface and ground), local and state permit assistance, air permitting Title V, construction oversight and materials testing, permit compliance monitoring, mine site remediation, and reclamation/closure. Since then we have grown to be a multi-national provider, with an emphasis on Client and long-term relationships. Our dedication to providing exceptional client service is exemplified by an 85% repeat client factor. To accomplish this requires a strong commitment to quality and safety, maintaining top technical resources, and ensuring efficient and cost-effective solutions. With our ability to be responsive in providing services, and our high level of knowledge and expertise, Kleinfelder brings value to our clients' projects that can be realized in savings of time and capital.

With approximately 1,900 professional resources, our staff spans a broad range of technical disciplines. We are highly integrated as a workforce, and though we are an international firm, our mantra is "One Company". We bring our most qualified specialists to bear when addressing our clients' needs, regardless of their location. Our One Company culture and use of Web-based collaboration tools allow us to seamlessly incorporate expertise from multiple locations, providing our clients with the most appropriately qualified resources for their specific project needs.

20. The foregoing is a statement of facts.
