42. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open hearth, basic oxygen, electric furnace, Bessemer or other steel making process. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
- c. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a

“substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

MEMORANDUM FOR: Vendors and Contractors-COVID-19 Precautions

SUBJECT: Wheeling Cooling Tower Replacement-Pre-Bid Meeting
CRFQ-0603-ADJ21*19

The referenced project was advertised by the Purchasing Division and the Pre-Bid Meeting for the solicitation will be held on **August 18, 2020 at 11:00am**. The purpose of this memorandum is to provide logistical details about that meeting for interested contractors and vendors.

In order to protect the vendor/contractor community as well as our own employees, the agency is asking contractors who will be attending the Pre-Bid meeting for this project to follow the instructions in this memo and to observe social distancing to the greatest extent possible. Please contact our Buyer at the Purchasing Division with any questions.

- 1) Vendors and contractors should limit the number of people who attend the meeting to two (2) representatives per vendor. **Per Governor Justice's Executive Order, no one will be allowed entry into the Wheeling Armory without a mask.**
- 2) All vendors will be checked in and signed in at the main gate, further instructions will be provided at that time. Please arrive early and stay in your vehicle until agency personnel can determine the number of vendors/contractors who will attend, so that we can follow the CDC guidance regarding the number of people gathering in one place (currently that number is 10). Depending on the number of vendors that attend, we will split up into smaller groups to insure that all contractors get the same information and that everyone has an opportunity to inspect the project site, take measurements or pictures in order to properly submit a bid on the project.
- 3) Agency personnel will be on-site to provide further details, instructions and to answer any questions regarding the meeting and how it will proceed.

The meeting will be conducted in a manner that minimizes the risk of COVID-19 transmission. For more information, please consult the CDC website at: www.cdc.gov/coronavirus/2019-ncov/community/guidance-business-response.html
