A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open hearth, basic oxygen, electric furnace, Bessemer or other steel making process. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
- c. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

**43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL:** In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a

“substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

**44. INTERESTED PARTY SUPPLEMENTAL DISCLOSURE:** W. Va. Code § 6D-1-2 requires that for contracts with an actual or estimated value of at least \$1 million, the vendor must submit to the Agency a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-award interested party disclosure, within 30 days following the completion or termination of the contract. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange. A more detailed definition of interested parties can be obtained from the form referenced above.

**45. PROHIBITION AGAINST USED OR REFURBISHED:** Unless expressly permitted in the solicitation published by the State, Vendor must provide new, unused commodities, and is prohibited from supplying used or refurbished commodities, in fulfilling its responsibilities under this Contract.

**DESIGNATED CONTACT:** Vendor appoints the individual identified in this Section as the Contract Administrator and the initial point of contact for matters relating to this Contract.

ADDENDUM #1  
CRFQ 0803 DOTZ100000064  
AGRICULTURAL AND CONSTRUCTION TIRES

Technical Questions

Q1: Do you have a working sheet that I can use to put in pricing such word or excel?

A1: These may be obtained by contacting [John.W.Esten@wv.gov](mailto:John.W.Esten@wv.gov)

Q2: Do you have any estimates of usage by line item or can you provide one after the contract is awarded? Mostly for forecasting the needs at the districts.

A2: Due to the unpredictability of tire usage throughout the Districts, estimated quantities for all line items will remain at one.

Agency requests that bid date be extended to allow Vendors adequate time to look over updated pricing page.

Line item 1: This item is the same as line item 2. The Yokohama part number is a bias tire 14.00x24 (not radial (R) as in the description. Line item # 42 requests the radial version of that size. Should we be bidding a bias 14.00 X 24 14 ply grader tire (G2)?

Answer: line item 2-part number should read 130185107 and be non radial. Line item 1 and 2 should be bid as bias ply.

Line item 3: Is this tire an R-4 (Backhoe) or R-1 (rear farm) tread design?

Answer: By part number line item 3 is a Y580H L-2 12PR CP for motor grader, front end loader.

Line item 12: These typically are sold in sets – tire, tube, and flap. Do we make a note of that on the bid?

Answer: Price is for tire only

Line item #19: The part # is a heavy-duty tire LS2 for logging applications. What application are they using it for?

Answer: Please bid by part number not by historical application

Line item 20: This part # is a bias tire (not radial R). Size should be 18.4 X 30. Should we bid the equivalent or same as the part #?

Answer: line item 20 should read 18.4 x 30. A radial is not being requested; part number 372626 is to be bid as bias to match part number.

Line Item # 24: This part # and size is discontinued by Firestone. Firestone representative suggested a replacement size of 460/85R30 Performer Evo 007120? Is that admissible?

ADDENDUM #1  
CRFQ 0803 DOT210000064  
AGRICULTURAL AND CONSTRUCTION TIRES

Answer: Will remove line item 24 due to product discontinue

Line item # 35: This is the same size and description as line item 23. This part number is not an I-3, It is an R-4 (industrial rear for a backhoe). Do we bid same thing as line item 23?

Answer: line item 23 is requesting a 14ply construction. Line item 35 by part number 94019595 is requesting a 12ply construction. Will remove I-3 from line item 35

Line item # 36: Same description as line # 15 but different ply rating. Can these be combined to the 12-ply rating? Basically, delete line 15 since the 12-ply can be used for both applications.

Answer: No. leave as written

Line item # 43- same as Line 10

Answer: will remove line item 43
