PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

Attn: Joseph E. Hagar III

RE: CEOI 0310 DNR2100000002 A/E Services – Stonewall Resort Supplemental WWTP System

Dear Mr. Hagar,

Alpha Associates, Incorporated team is pleased to submit our qualifications to provide engineering services for a supplemental treatment system and all related appurtenances at Stonewall Resort State Park, located in Lewis County. Alpha has succeeded in providing planning, permitting, funding, design and construction administration services for numerous wastewater and water systems like this project. We have a strong team for this important project. Alpha's past experience with similar projects, and our existing relationship with the State of West Virginia including the WVDNR make us a perfect teaming partner for you on your completion project.

Since 1969, Alpha has performed numerous designs and evaluations for wastewater systems across the State. We have provided design services for many wastewater systems, including thousands of linear feet of collections lines and pump stations. In addition to our wastewater project experience, we have partnered with numerous Federal, State, and local governments to provide architectural and engineering services of varying types and sizes for projects around West Virginia, including several projects for the WVDNR. In this proposal you will find examples of projects that showcase our experience.

Design Team

Alpha is a West Virginia owned and operated architectural and engineering design firm with locations in Morgantown, and Martinsburg. Our 22-person professional staff includes architects, civil and structural engineers, surveyors, cost estimators, construction representatives, landscape designers, interior designers, and technicians. The personnel that will be dedicated to your project are highly qualified professionals and support staff with the technical expertise to meet and

exceed expectations of this project. This project will be managed from Alpha's Corporate Office located in Morgantown, West Virginia.

Project Understanding

The WVDNR is looking to partner with an engineering firm that can provide engineering design services and other related professional services to design and specify for construction as well as contract administration, for improvements to the Park wastewater treatment and collection systems at Stonewall Resort State Park. These planned improvements include the design and installation of a new supplemental treatment system, the connection of the new system to the existing wastewater treatment system, all permitting, and any other work necessary to effectively remove copper and zinc from the waste stream, and help bring the plant into compliance with the existing NPDES permit.

Summary

The Alpha Team is looking forward to continuing a successful relationship with the WV DNR and the State of West Virginia by providing excellent service at affordable costs. Our dedicated team of professionals will make your project a priority. If you would like to further discuss this upcoming project, please contact me at (304) 296-8216 ext. 102.

Sincerely,

ALPHA ASSOCIATES, INCORPORATED

Richard A. Colebank, PE, PS

ALPHA ASSOCIATES, INC. STATEMENT OF QUALIFICATIONS

Alpha Associates, Incorporated is an Architectural and Engineering design firm that provides services in the areas of Civil Engineering, Structural Engineering, Landscape Design, Architectural Design, Interior Design, Construction Administration, Project Management, and Surveying. Our clients benefit from our unique combination of extensive design and construction experience, advanced technical tools, dedicated principals and highly skilled staff members.

Since 1969, Alpha has provided municipal engineering planning and design services to clients such as the Point Marion Borough, Monongalia County Schools, Corporation of Shepherdstown, Harpers Ferry – Bolivar Public Service District, Warm Springs Public Service District, Morgan County Commission, City of Martinsburg Utility Department, Township of Point Marion, PA and the Corporation of Harpers Ferry. Our work is diverse and also includes clients in commercial, educational and governmental facilities, developers and private organizations. Alpha's engineers have recent, relevant project experience in water and sewer design, and this experience enables your project to be completed on time and within budget.

Alpha's philosophy has always been to provide exemplary services for fair fees. We have always believed that the best way to succeed as a business is to go above and beyond the basic requirements of our contracts and do whatever is necessary to successfully complete the given project. What is best for the client is inevitably best for us too.

Everyone at Alpha, from the President to the administrative staff, all work towards the goal of completing successful projects. Our principals are involved with projects from the earliest stages right through final completion and beyond. They will consistently update you on your project by using effective communication tools to manage the projects and all the involved parties. Our skilled staff of 22 architects, engineers, surveyors and administrative personnel all work diligently towards producing the drawings and specifications that will deliver our clients successful projects, completed on time and within budget.

Alpha has thrived for 50 years because we are a professional organization dedicated to providing superior architectural and engineering design services to our clients. While our staff is large enough to handle any size project, we are also small enough to give each and every one of our projects the individual attention to detail that will make them successful projects for our clients.

THINK ALPHA FIRST.

STAFF PLANNING

TO BE ASSIGNED TO YOUR PROJECT.

All work to be performed for the Stonewall Resort Supplemental WWTP System Project will be managed out of Alpha's Morgantown office. In addition to your dedicated Project Team, Alpha's staff of 22 includes engineers, architects, architectural designers, technicians, and support staff that are available to assist with any potential project need.

SCHEDULE AND BUDGET.

Alpha Associates, Incorporated has an excellent track record of producing projects on time and within the Owner's budget. Many A/E firms can claim the same successes, but the determining factor is the tools the firms utilize to achieve the budgets, both in regard to funds and time. Alpha utilizes a number of tools, both traditional and modern to exceed our clients' expectations.

A project schedule is a dynamic, ever changing entity. Your project schedule depends on many factors including:

- Preferred construction method
- Changes to project scope
- Unique construction elements

The Alpha Team has an excellent track record of meeting project design deadlines. Alpha recently completed construction on a project in Morgantown that went from design to completion in just over 12 months. This project was completed for a private developer and had a construction cost in excess of \$20 million.

Successful project management depends upon consensus regarding work efforts, milestones and goals. The team has found that the development of detailed work plans, which delineate tasks and deliverables for each project phase, in concert with the client and full project team, is the most effective means of establishing expectations about efforts required by the respective disciplines. In addition to guiding the efforts of the design team, the work plan sets forth specific time frames and decision points for Owner and user reviews, comments and approvals.

Developing an overall project schedule is a critical task that must take into account many factors: building type, owner's desire for occupancy, scope of work and level of documentation, whether contract(s) is bid or negotiated, available fee, and prior experiences on similar projects. Characteristic of the client, its organization, or the involvement of a construction manager and his responsibility for document review must also be considered.

This starts with a kick-off meeting which establishes ground rules, responsibilities, and line of communication. We have found that a team visioning session is a great way to get everyone started off on the right track. Determining a project schedule is a task that must be done with all parties involved in the process. Once the design process begins, a very detailed, realistic project schedule can be developed and communicated to all involved.

In a world where "time is money", the schedule of a project is almost as important as controlling the cost. Alpha also works diligently to control the budget of a project. The best way to control the cost of a project is to avoid the "scope creep" that can occur.

Alpha's in house cost estimators, combined with an excellent relationship with contractors throughout the area, will provide the WVDNR with the most accurate estimates of probable construction cost.

CAPACITY & SOFTWARE.

OUR CAPABILITIES

Alpha Associates, Incorporated is prepared to commit staff resources to the Canaan Valley State Park Wastewater Improvements Project. Alpha has the qualified and experienced personnel, administrative support, along with the production equipment and resources to ensure the successful completion of this project. We are confident in our ability to provide the WVDNR with a committed and dependable design team. Our multidisciplinary design team is prepared to meet and exceed the expectations of the State by committing any resources necessary to meet the project schedule.

USING THE LATEST SOFTWARE

The project team incorporates the latest computer and software capabilities required to complete the working drawings and specifications for this project. Our cost accounting system is top-of-the-line and we have the ability to differentiate fees according to task. We have secure e-mail and internet capability to allow efficient transfer of information between Alpha and the client. We currently have the latest editions of the following software:

- AutoCAD 19
 - REVIT (Editions up to 2020)
 - Civil 3D
 - RISA 3D
 - RISA Floor
 - RISA Foundation
 - MathCAD
 - D4I Phantom 4 RTK Drone
 - Autodesk Suite
 - Enercalc
 - AutoTURN
 - TopCon GR5 GPS System
 - TopCon Total Station with Reflectorless Capabilities
 - Carlson Surveyor & Data Collector

SUMMARY

As Chief Engineer for site development and planning projects, Mr. Branch is a vital part of the design process at Alpha. His involvement spans from strictly civil engineering projects, to the design of large scale educational projects and medical facilities. Mr. Branch acts as peer review for young engineers in the firm on issues ranging from storm water management to site design. Mr. Branch is also involved in commercial and residential development design, roadway and bridge design and utilities layout.

Punch Failures

SUMMARY

Mr. Luttrell has worked with Alpha Associates, Inc. since 1996. He is the chief structural engineer on all projects at Alpha. Before coming to Alpha, Mr. Luttrell's graduate work resulted in several contributions to the cold-formed steel deck industry. His new method of analysis for non-uniform loads on composite concrete and cold formed steel decks has been made a permanent part of the Steel Deck Institute's design manual. Mr. Luttrell also worked on projects that involved pre-stressed timber bridge research with WVU Constructed Facilities Center. Since coming to Alpha, Mr. Luttrell has had significant involvement in the effort to begin utilizing modern composite materials in practical bridge applications.

SUMMARY

Mr. Echard joined Alpha Associates, Inc. in early 2016 with a strong belief that his clients deserve intelligent, performance-based and value-oriented solutions. Drawing on experience working across in the United States, Europe, and the Middle-East, Mr. Echard returned to West Virginia to provide world-class service in a historically underserved region while making positive contributions to the future growth of his home state. Mr. Echard places a large value on the collaborative work process, believing that a building's form and function are derived from many contexts. Mr. Echard's office is located in the corporate office in Morgantown, WV.

CITY OF SHEPHERDSTOWN

Shepherdstown, WV; 1999

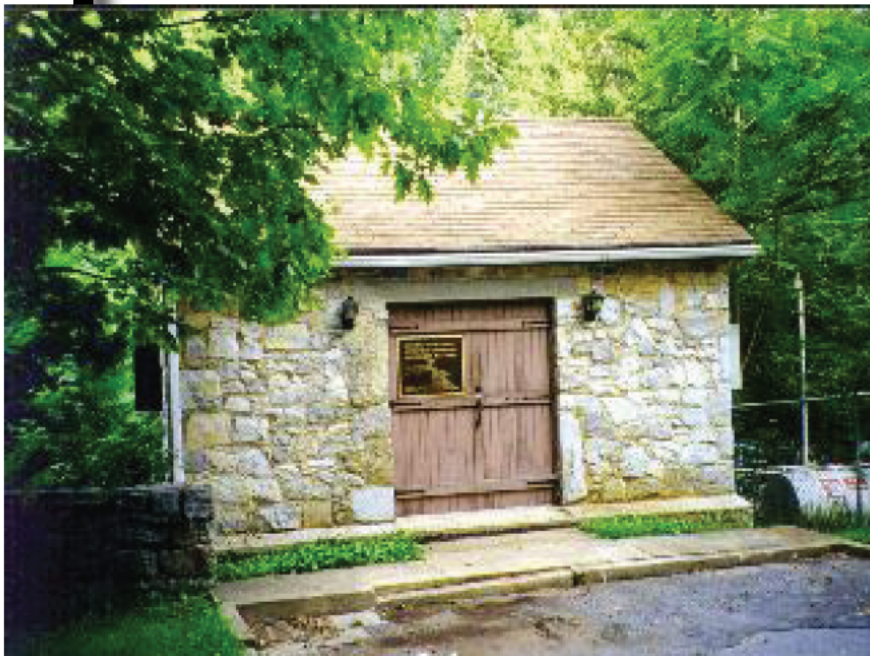

This project involved the renovation of the main pump station, which included pumps, motors, valves, and piping master meter replacement and electronic control system. It also involved the construction of a new interceptor sewer, the majority of which runs through the campus of Shepherd College. The project was divided into several contracts, with all contracts now completed. The construction cost for the entire project was approximately \$220,000. The contracts required the pumping of the entire flow in the existing interceptor while the pump station was renovated.

STONEWALL JACKSON RESORT

Roanoke, WV; On-Going

Alpha Associates, Incorporated is currently working on the completion of a variety of projects for Stonewall Jackson Resort in Roanoke, WV. During the summer of 2013, Alpha completed the design of infrastructure for 25 cottages at the Resort. Work for the infrastructure included all earthwork, roadways, and utilities. The grading and roads were completed during the fall of 2012 by the Army National Guard as well as some other miscellaneous off-site grading activities that the Resort requested Alpha's services in completing with the National Guard.

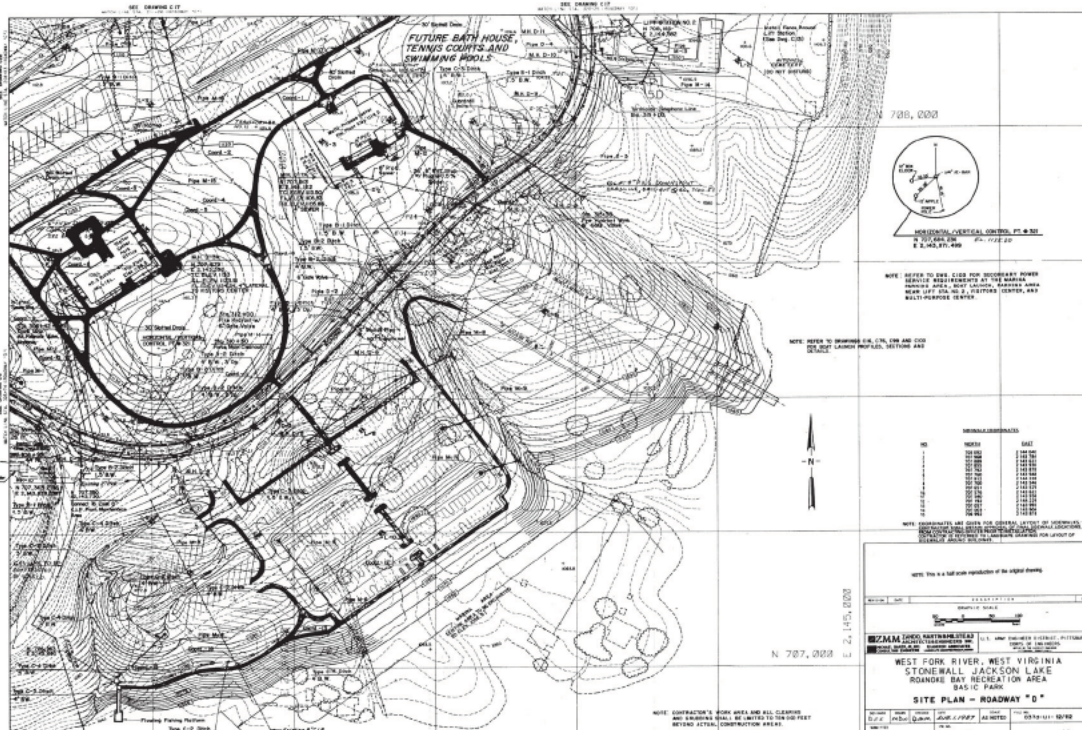

Construction of the utility infrastructure was completed in the spring of 2015 which included water, sanitary, gas, power and communication lines. Alpha is also working on an evaluation and report for the existing water and wastewater treatment systems at the Resort.

HARPERS FERRY BOLIVAR PSD PHASE 2 WATER TREATMENT PLAN AND COLLECTION SYSTEM IMPROVEMENTS

Harpers Ferry, WV; 2012-2020

Alpha Associates, Incorporated provided professional engineering services for multiple wastewater treatment projects for the Harpers Ferry-Bolivar Public Service District. Services included the development of design and construction documents for the two-phase renovation of existing wastewater treatment plant and the replacement of multiple grinder pump stations and their electrical feeds. Work also included the renovation of one major lift station that was completed while maintaining pumping capacity.

Alpha also provided surveying for two projects as well as Operation and Maintenance Manuals.

POINT MARION WATER TREATMENT REPAIRS

Point Marion, PA; On Going

Alpha developed a preliminary design and costs estimate to address a leak in the freshwater basin to obtain grant funding. After initial inspection the decision was made to replace both the freshwater and backwash basin. Additional deficiencies discovered led to the removing excess sludge from the backwater basin and repairs to the Trident Filter systems. Alpha provided all designs and construction administration for the project.

Repairs to the Trident Filter Systems include:

- Removal and disposal of all media
- Cleaning and painting of interior surfaces of the tanks
- Inspection of all components
- Replacement of all filter media with new

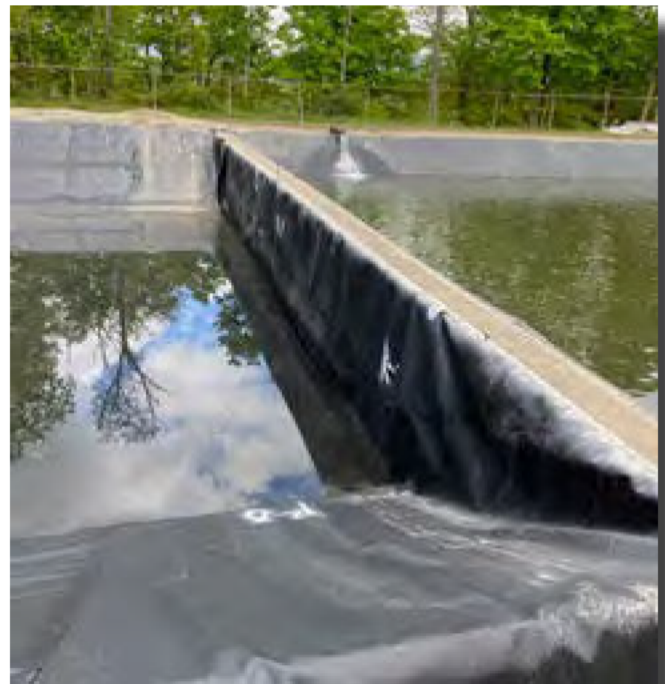

Alpha filed an emergency permit application to accelerate the construction. After construction, Alpha will perform an interior inspection of the tanks to ensure underdrains and nozzles are operating. Alpha will then file a complete permit application to allow future operation of the water treatment plant.

HARPERS FERRY BOLIVAR WASTEWATER

Harpers Ferry, WV; 2010

This project consisted of the planning and design of improvements to the wastewater treatment plant. As with all public works projects, the first step was the preparation of a facilities plan meeting all the requirements of the West Virginia Infrastructure Council. This was followed by a Priority List Application and a Funding Application. This project was funded with a low interest loan from the WVDEP Revolving Loan Fund and went under construction utilizing a 50% federal stimulus program loan waiver.

The improvements to the Wastewater Treatment Plant includes the furnishing and installation of a sludge dewatering system including a belt filter press package with specified controls, pumps, chemical feed equipment, piping and all civil, structural, mechanical, electrical and control work necessary for the complete installation and startup of the system. All of the equipment and appurtenances is housed in a new pre-engineered building. Other related equipment includes a sludge pump, filtrate pumps, lime feed system, and a cake pump system.
