A. COMPANY OVERVIEW

US Ecology has been a leading provider of environmental services and waste disposal solutions since the company was founded in 1952, making it the oldest hazardous and radioactive materials management company in the United States. We address the complex waste management and emergency response needs of our customers; offering treatment, disposal and recycling of hazardous, nonhazardous and radioactive waste, leading emergency response and standby services, and a wide range of complementary field and industrial services. Our focus on safety, environmental compliance and best-in-class customer service enables us to effectively meet the needs of our customers and to build long lasting relationships. For over 65 years, US Ecology has provided its customers with safe and compliant solutions, effectively managing inherent environmental risks with a commitment to quality and continuous improvement throughout our operations.

In November 2019, US Ecology merged with NRC Group, the world's largest commercial Oil Spill Removal Organization (OSRO) and global leader in the provision of single-source comprehensive service with unmatched expertise in environmental, industrial and emergency response solutions. The combination of these two great companies has increased our ability to provide customers with fully integrated environmental management solutions.

US Ecology is now stronger than ever, with a workforce of 3,400 team members operating from 130 locations worldwide and domestic operations supported by our six hazardous and radioactive waste landfills, 26 treatment facilities and over 90 service centers providing nationwide coverage to our customers.

Mission and Values

US Ecology has a strong commitment to safety and compliance which is demonstrated through our Guiding Principles and Core Values:

Mission

To provide safe and compliant solutions to protect human health and the environment.

Vision

To be the premier provider of comprehensive environmental services.

Shared Values

Permission to Play

- Protecting the Environment
- Safety and Compliance
- Doing the Right Thing, the Right Way
- Living the Humble, Hungry, and Smart Virtues

How We Win

- Service Excellence
- Being a Trusted Partner
- Innovative Solutions
- Being "One Team"

C. QUALIFICATIONS

1. US Ecology's disposal facilities have closure and post-closure financial assurance policies as required by permit. The policies for the three facilities that may receive waste from the WVDEP can be found in **Appendix A**.
2. Training, Credentials and Experience

Training

US Ecology is committed to providing a safe work environment and promoting safe practices for all our team members, contractors and the public in the communities where we operate. We expect all team members to be committed to Health and Safety and seek to proactively prevent illnesses, injuries, damage and loss resulting from our operations and actions.

- Provide outstanding safety and health protection to our team members through effective management systems and employee involvement.
- Supply the necessary resources, including professional safety expertise, equipment, and infrastructure to ensure a safe work environment.
- Correct, in a timely manner, all hazards identified through self-inspections, employee reports, accident investigations or other means.
- Proactively identify potential hazards associated with waste and the waste treatment process, prior to acceptance.
- Provide ample supervision, knowledge, direction, instruction and training to ensure the safety of our team members.
- Promote employee participation in creating a safe work environment and reporting unsafe work conditions properly and immediately, as well as set the expectation for team members to stop work when safety may be in question.
- Use the results of inspections and accident investigations to improve the safety management system and make this information available to our team members upon request, and
- Pursue, achieve and maintain safety programs that are consistent with the values of OSHA's Voluntary Protection Program.

The following course list provides an overview of the standard disciplines our team members are trained on. Specific training is based on the team member's position. Certifications can be provided upon request after award of the contract.

Experience

US Ecology responds to environmental concerns with an efficient and professional approach. We are prepared to collect waste from the locations specified and transport and dispose of the waste according to applicable state and federal regulations.

All US Ecology field chemists are fully trained and certified and have the knowledge and experience to complete projects in a safe and cost effective manner. Our chemists will manage your hazardous waste disposal project from start to finish:

- Trained field chemists take a complete inventory of the materials to be discarded
- Chemically compatible materials are collected, identified and packaged together
- Chemicals are profiled, labeled and manifested
- All materials are transported in DOT approved containers and permitted trucks

At the TSDF, the chemicals are handled using the latest and best-demonstrated available technology. These methods include Fuel Blending, Neutralization, Incineration and Landfill.

US Ecology also operates a state-of-the-art de-packing facility for the consolidation of certain flammable solvents. The de-pack booth is in an area permitted for hazardous waste storage. Lab pack quantities of flammable waste are consolidated for fuel blending.

Our services under this contract include, but are not limited to:

- Mobilization and demobilization
- Preparations prior to arrival at the job site
- Transportation of personnel, equipment and supplies to and from the job site
- Set-up and removal of necessary equipment
- Field characterization
- Lab-packing/over-packing
- Transportation of the hazardous waste
- Preparation of the manifest
- Decontamination of equipment
- Cleanup of the job site

The State of West Virginia can expect the highest level of service from US Ecology. We provide staff that is trained in all applicable state, federal and local laws and regulations to perform services lawfully and competently. US Ecology's fleet is fully licensed and insured to meet your waste transportation needs. The team will be fully equipped with all required PPE, supplies, hardware, software and any other necessary items to complete the required services in a timely manner.

PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
