RE: EOI – 2021 Design Group A Projects CEOI 0313 DEP2200000002

Dear Mr. Hager:

Dieffenbauch & Hritz is pleased to submit our qualification to perform design services in reference to the EOI – 2021 Design Group A projects. As outlined in our proposal, D&H and its personnel have completed work on several similar projects.

The project will be managed out of our Morgantown, West Virginia office. D&H has several design teams which is more than capable of handling these projects (teams consisting of CAD Professionals, Engineers, West Virginia registered engineers and West Virginia registered surveyors) in our office. D&H has several CAD Professionals and Engineers to help support the project in other offices if needed.

Our experienced team is led by Mr. Herbert L. Parsons, III, PE, PS. Mr. Parsons has more than 20 years of related engineering experience and has managed or supported numerous projects for the WVDEP. Mr. Parsons is a registered Professional Engineer and a registered Professional Surveyor in the State of West Virginia. He will be joined by Mr. Michael D. Hritz, PE also a registered Professional Engineer in the State of West Virginia. Mr. Hritz will serve as a project quality assurance and quality control manager and has managed and supported numerous projects for the WVDEP.

We greatly appreciate this opportunity to provide this proposal and look forward to answering any questions you may have. If you should require any additional information, please contact Mr. Parsons at (304) 985-5555.

Sincerely,

Herbert L. Parsons, III, PE, PS

Project Manager

ADDENDUM ACKNOWLEDGEMENT FORM SOLICITATION NO.: CEOI DEP22*04

Instructions: Please acknowledge receipt of all addenda issued with this solicitation by completing this addendum acknowledgment form. Check the box next to each addendum received and sign below. Failure to acknowledge addenda may result in bid disqualification.

Acknowledgment: I hereby acknowledge receipt of the following addenda and have made the necessary revisions to my proposal, plans and/or specification, etc.

		Tumbers Received: x next to each addendum rece	ived	l)

President/Co-Owner Michael D. Hritz, P.E.

Mr. Hritz has over 28 years of experience in the civil and environmental engineering field. During that time, he has served as co-owner of Dieffenbauch & Hritz, LLC; Regulatory, Construction and Water Resources Manager for Chief Oil & Gas LLC and Manager at Gannett Fleming, Inc. Mr. Hritz has accumulated a broad range of experience in the regulatory, planning, well permitting, location construction, drilling, completing and production phases of the oil & gas industry in the Marcellus Shale. Also through his career he has gained valuable experience with projects in the transportation, environmental compliance, mining, water resources and commercial site development fields in OH, PA, VA, and WV.

Company Role, Quality Assurance Quality Control:

Responsible for overseeing and assuring the quality of all deliverables and management practices of all disciplines. This includes overseeing critical events, attending client or stockholder meetings. As well as participating in kick-off and milestone meetings, preparing quality control plans and assuring project and client performance.

Project Role, Professional Charge: Mr. Hritz is assigned professional charge on many projects for the engineering and survey departments. A critical key to quality control includes redundant professional reviews. D&H has a Client Leader in charge of projects and a designated Professional will provide independent review of each deliverable. This process assures unbiased results and quality deliverables. Professional charge assignments include permitting, engineering and survey deliverables for a variety of projects.

Experience Prior to Dieffenbauch & Hritz, LLC:

Chief Oil & Gas 2009-2012

Title: Regulatory, Construction and Water Resources Manager

Dieffenbauch & Hritz, LLC 2005 - 2009

Title: President/ Co-Owner

Manager, Gannett Fleming, Inc

Title: Project Engineer through Regional Office

1993 - 2005

DETAILS AND ACHIEVEMENTS

Experience

Total: >28 years With D&H: >14 years (Founder 2005)

Education:

B.S., Civil Engineering, The Pennsylvania State University - 1991

Pennsylvania Independent Oil and Gas Association (PIOGA)

Operations Leader Herbert L Parsons III, PE, PLS

Mr. Parsons has accumulated more than 20 years of project management experience in civil engineering and surveying. As a Senior Project Manager, he has developed a broad experience base and extensive project development with public and private sector clients. He has lead teams on complex projects that require coordination of disciplines, technical studies, environmental permitting, and multiple agencies and stakeholders. Specific areas of engineering design and surveying include, renewable energy, conventional energy, road design, utilities, hydrologic and hydraulic studies, commercial and residential site planning, erosion and sediment control plans and permit documents.

Quality Assurance Quality Control:

Mr. Parsons is responsible for overseeing and assuring the quality of all deliverables and management practices of all disciplines. This includes overseeing critical events, establishing program protocol's, attending client or stockholder meetings, participating in kick-off and milestone meetings, preparing project specific quality control plans and project execution plans. In addition Mr. Parsons is the Department Leader for the Survey Department and oversees its day to day operations as well as its overall responsible charge. Finally, Mr. Parsons has a QC role with the engineering department as an independent reviewer and has responsible charge and signature responsibilities for several clients and scopes of work in multiple states.

Engineering Manager Roman C. Lawson, P.E., M.S.

Mr. Lawson has over 18 years of experience in the civil and environmental engineering field. During that time, he has served as Engineering Manager for Dieffenbauch & Hritz, managed surface mining operations and construction services for Alpha Natural Resources and performed structural design of highway bridges for the West Virginia Division of Highways. Mr. Lawson has accumulated a broad range of experience in the regulatory, planning, well permitting, location construction, site development and overall management phases of the oil & gas industry in the Marcellus and Utica Shale. Also, through his career he has gained valuable experience with projects in the transportation, environmental compliance, mining, water resources, construction management and commercial site development fields in OH, PA, VA, and WV.

Summary of Projects:

Coalfields Expressway, Hawksnest Section, Buchanan County, VA, VDOT. Engineering/Construction Manager in charge of the design and construction of the 2-mile, four lane, "Hawksnest" section of the Coalfields Expressway in Buchanan County, VA.

Coalfields Expressway Feasibility Study, Southwest Virginia, VDOT. Engineering/Construction Manager in charge for the preparation of a Feasibility Study for a 30-mile section of the 50-mile CFX corridor which included a detailed analysis of coal reserves located along the corridor.

Coalfields Expressway, Southwest Virginia, VDOT. Engineering/Construction Manager in charge of the Preliminary Design for the Pound Connector and Doe Branch sections of the 50-mile corridor, which included a detailed coal reserve analysis and material handling plan.

Coalfields Expressway, Southwest Virginia, VDOT. Engineering/Construction Manager in charge of the Preliminary Design for the 2-mile Kiwanis Park section of the 50-mile corridor, which included a detailed coal reserve analysis and material handling plan.

Breaks Regional Airport, Buchanan County, VA, Buchanan County Industrial Development Authority. Engineering/Construction Manager of a multiphased Post Mining Land Use feasibility study for the development of an approximately 500 acre airport and relocation/widening of 5-miles of roadway.

Environmental Services Leader Vincent J. Attardi, M.S.

Mr. Attardi has over 40 years of experience conducting environmental and ecological investigations throughout the eastern United States. During the course of his career, he has held positions in the government, academic, and private sectors and has founded three ecological consulting firms. He is an aquatic ecologist by training and a leading expert in project permitting under Sections 404 and 401 of the Clean Water Act (CWA). He is proficient in wetland and stream services (delineation, mitigation, restoration, permitting), endangered species habitat assessments, botanical surveys, soil assessments, aerial photo interpretation, NEPA documents, natural resource management plans, and other natural resource investigations.

Project Role, Environmental Coordinator:

In his current position, Mr. Attardi is responsible for the development and management of program and personnel that comprises the entirety of Environmental Services offered to our clients and in support of our Engineering and Construction Service Sectors. Key roles include development and implementation of the quality assurance program, development of standard operating procedures, scheduling, technical expertise, technical mentoring, personnel management, budgeting, project management, and business development.

Summary of Projects:

Mr. Attardi has overseen the environmental investigation and permitting of approximately 150 projects during his time at Dieffenbauch & Hritz. These investigations were primarily conducted in support of oil and gas projects.

Experience prior to Dieffenbauch & Hritz LLC:

Principal, Wetland Services; Copperhead Environmental Consulting, Inc. [2013 – 2014]

Construction Services Manager Robyn E. Smith

Mr. Smith has over 35 years of experience in the civil, mining, and construction management fields. Mr. Smith has accumulated a broad range of experience in the regulatory, planning, location construction, drilling, geotechnical and construction management phases of the oil & gas industry in the Utica and Marcellus Shale. Also throughout his career he has gained valuable experience with projects in the transportation, environmental compliance, mining, water resources, geotechnical and commercial site development fields in KY, OH, PA, VA, and WV.

Project Role, Construction Services Manager:

Responsible for managing the design, permitting, construction management and certification activities associated with client's projects. Projects may include but are not limited to: oil & gas well pads, fresh and reuse water impoundments. Primary role includes; managing company operations, management of oil & gas development planning and regulatory reporting, management of construction services including construction compliance and inspection, construction management, construction sequencing and optimization, contractor management, project development and management and project completion, and planning, design, permitting, and construction phase services for water resources, environmental, mining, transportation, geotechnical and commercial site development projects.

Summary of Projects:

Oil & Gas Well Pad Projects: [2015 – present]

Over the past 5 years, Mr. Smith has managed hundreds of design, permitting, construction management, and certification for natural gas well sites, above ground storage facilities, centralized impoundments, pipelines, and metering facilities for various natural gas companies at locations throughout PA, OH and WV.

Experience prior to Dieffenbauch & Hritz LLC:

Chief Engineer; Coal River Energy [2011 – 2015]

- January 2015 Present Drilling Services Manager, NGE, LLC
- December 2010 January 2015
 Staff Engineer, NGE, LLC
- March 2010 December 2010
 Engineering Intern, NGE, LLC
- 2004 Present Structural Journeyman, Civil Engineering Squadron West Virginia Air National Guard
- 2009 Resurfacing Inspector Intern, WVDOH

Brandon Wallace

Mr. Wallace has worked on numerous projects over the past 20 years as a drill crew chief, providing drilling services for geotechnical, environmental, and construction projects. He has worked for clients in private industry as well as for state and federal agencies. He has applied intensive and diversified knowledge of geotechnical drilling principles and practices to various assignments and field tasks. He has the knowledge to correspond with team members to make decisions on geotechnical drilling issues and methods encountered in the field. He has provided training, supervision, and guidance to numerous driller assistants in their development to become drillers.

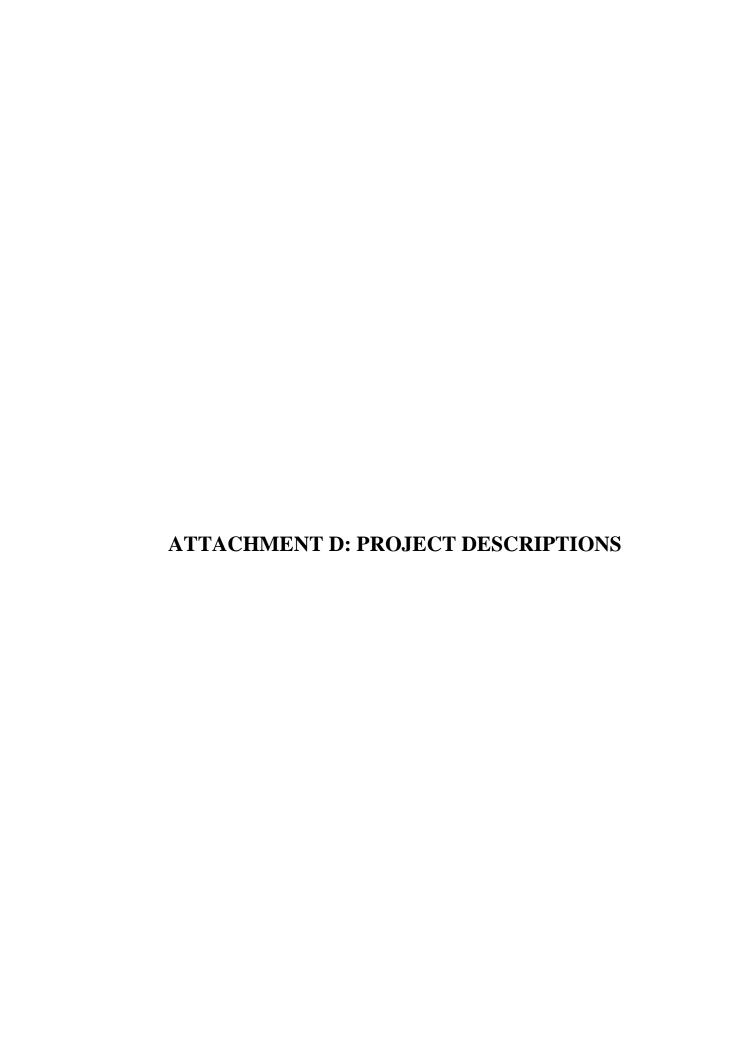

Fields of Competence

- Responsible for performing and documenting drilling project tasks (drilling logs).
- Responsible for loading and mobilizing equipment to the project site.
- Complies with NGE's daily Tailgate Safety Plan, as provided by the Geotechnical Drilling Manager.
- Performs preventative maintenance of drill rigs and associated equipment.
- Remains up to date with current industry and governmental specifications and standards affecting geotechnical drilling.
- Communicates well with on-site engineering consultants in a professional manor.
- Trains and develops junior operators/assistants.

Registration/Certifications

- NHI-SSI-132079 Certified
- Ohio Class A CDL
- Safeland Training PEC 2013
- OSHA 10-Hour Construction Industry Outreach Training, 2012

- August 2014 Present Drill Crew Chief, NGE
- July 2009 August 2014
 Lead Driller, F. Moore Drilling Service
- September 2008 July 2009 Driller, H.C. Nutting Company
- February 2001 September 2008
 Driller, Central Star Drilling

1095 Chaplin Road Suite 200 Morgantown, WV 26501

Project Descriptions for Abandoned Mine Lands Related Projects

Dieffenbauch & Hritz (D&H) has provided engineering and related services to over 100 projects similar to AML projects following the guidelines and standard to the West Virginia Department of Protection. Below is a sampling of projects that have been completed.

Project: EQT Waterline System

Client: EQT Production

Location: Marion & Wetzel Counties, WV

D&H was retained by EQT Production to provide engineering design and permitting and survey services for approximately 87,911 LF of waterlines to supply water for hydraulic fracturing on natural gas well pads. Developed site design included stream and wetland crossings, proposed driveways and waterline road crossing and stormwater discharge. Based upon route development data, survey crews and engineering teams were able to finalize the waterline routes and all necessary permits were obtained for the proposed construction.

Project: RHL89 Well Pad

Client: CNX Gas Company, LLC Location: Greene County, PA

D&H was retained by CNX Gas Company to provide engineering design and permitting, environmental services and survey services for a new Oil and Gas well pad located in Greene County, PA. The project consisted of D&H field staff designing an approximately 203" long graveled access road to the area where a pad will be constructed for the purpose of drilling unconventional gas wells. During the design and investigation process of this project D&H retained NGE, LLC to provide geotechnical work that were needed.

Project: NV13 Well Pad Slip Repair Client: CNX Gas Company, LLC Location: Greene County, PA

D&H was retained by CNX Gas Company to provide engineering design and permitting, environmental services and survey for a slip repair for an existing oil and gas well pad located in Greene County, PA. This project consisted of D&H staff designing the remediation and restoration of a slide area caused by an infiltration berm. Reclaiming the infiltration berm area and re-routing impervious runoff to a new PCSM BMP. A second slip was fix on an existing infiltration basin and converting that infiltration basin to a wet pond. The designed slip repair involved an environmental assessment of the site and survey of the construction stakeout and producing a full as-built of the site once completed. During the slip repair design of this project, D&H retained NGE, LLC to provide a geotechnical assessment.

Project: Hampshire Gas Pipeline Replacement

Client: Hampshire Gas: A Washington Gas Company

Locations: Hampshire County, WV

D&H was retained by Hampshire Gas to provide as-built survey and mapping services for the replacement of approximately 13,600 LF of gas pipeline located in Hampshire County, WV. This project consisted of the D&H field staff to survey the as-built pipeline and recording attribute information. Mapping deliverables consisted of line work generation, full plan set consisting of plan view over profiles and data tables with the attribute information that was collected in the field and amount of cover over pipeline once installed into the ground.

Project: Falcon Land AML

Client: AJ Burk

Location: Nicholas County, WV

D&H was retained by AJ Burk to provide construction and as-built survey and UAV mapping services for an AML project located in Nicholas County, WV. This project consisted of D&H field staff to survey the construction stakeout of modifications of existing ponds, emergency spillways, ditches, manholes, pipes, culverts, sump and construction of a new Limestone Facility. After the site was completed, D&H returned to provide a full site as-built of all work completed and provide an aerial imagery and a finished plan set.

Project: Purdy Run Quarry UAV Mapping

Client: KCS Contracting, LLC Location: Harrison County, WV

KCS Contracting retained D&H to provide UAV mapping services for the Purdy Run Quarry located in Harrison County, WV. This project consisted of D&H field staff to survey aerial targets and perform a UAV flight to capture aerial imagery to show the progression of the active mining at the quarry and to provide volumes of all stockpiles on site. D&H provided contours of one foot interval, plan sets of the mapping, a Google Earth file of the flight and a report that provided volumes of each stockpile in cubic yards.

Project: Mashey Gap Quarry UAV Mapping

Client: J.F. Allen Company Location: Randolph County, WV

J.F. Allen Company retained D&H to provide UAV mapping for the Mashey Gap Quarry located in Randolph County, WV. This project consisted of D&H field staff to survey aerial targets and perform a UAV flight to capture aerial imagery to show the progression of the active mining at the quarry. D&H provided aerial mapping, contours of one foot interval, plan set of the mapping and a Google Earth file of the flight.

Abandoned Mine Lands & Reclamation Projects

NGE has provided drilling and engineering services on over 100 AML related projects, both for the West Virginia Department of Environmental Protection and private engineering firms working for the WVDEP. The following is a sampling of some of the projects NGE has completed in the past five years.

Project: Mountain View Portals

Client: Michael Baker International

Location: Preston County, West Virginia

NGE provided complete drilling services for the client to provide subsurface data necessary for remedial designs. Borings were drilled in a soil borrow area, in a refuse area to determine refuse thickness, and above a series of collapsed mine portals. PVC piezometers were installed in the borings which intercepted mine workings to allow for the monitoring of mine pool levels.

Project: Werth Landslide

Client: E.L. Robinson Engineering
Location: Nicholas County, West Virginia

NGE provided drilling and engineering services for the client to aid in the abatement of landslide caused by long-term soil saturation from abandoned mine drainage.

Project: Ivy Branch AML
Client: Thrasher Engineering

Location: Lincoln County, West Virginia

NGE provided complete drilling services for the client to provide subsurface data necessary for remedial designs. Borings were drilled in a soil borrow area, in a refuse area to determine refuse thickness, and above a series of collapsed mine portals. PVC piezometers were installed in the borings which intercepted mine workings to allow for the monitoring of mine pool levels.

Project: Owl Creek Highwall
Client: Thrasher Engineering

Location: Monongalia County, West Virginia

NGE provided complete drilling services for the client to provide subsurface data necessary for remedial designs. Borings were drilled around the high wall and an engineering analysis was performed for the slope stability and backfill around the high wall.

Project: Isaac Creek Landslide Client: Thrasher Engineering

Location: Harrison County, West Virginia

NGE drilled a series of test borings at the project site to provide subsurface data necessary for use in design of remedial measures for a landslide. The results of the field investigation and laboratory testing was used to analyze the slide and develop typical cross-sections which illustrated our recommended method of repair for stabilization.

Project: Nutter Run (Romano) Landslide

Client: Thrasher Engineering

Location: Harrison County, West Virginia

The client required subsurface data to assist in the design of a remedial measure for a landslide at the project site. NGE drilled a series of borings and provided the design for two retaining walls at the base of the slides.

OMB # 1029-0119 Expiration Date: 10/31/2021

ABANDONED MINE LANDS (AML) CONTRACTOR INFORMATION FORM

You must complete this form for your AML contracting officer to request an eligibility evaluation from the Office of Surface Mining Reclamation and Enforcement (OSMRE) to determine if you are eligible to receive an AML contract. This requirement applies to contractors and their sub-contractors and can be found under OSMRE's regulations at 30 CFR 874.16. **NOTE:** This form must be signed and **dated within 30 days** of submission to be considered for a current bid.

PAPERWORK REDUCTION STATEMENT

The Paperwork Reduction Act of 1995 (44 U.S.C 3501) requires us to inform you that: Federal Agencies may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a current valid OMB control number. This information is necessary for all successful bidders prior to the distribution of AML funds, and is required to obtain a benefit.

Public reporting burden for this form is estimated to range from 15 minutes to one hour, with an average of 30 minutes per response, including time for reviewing instructions, gather and maintaining data, and completing and reviewing the form. You may direct comments regarding the burden estimate or any other aspect of this form to the Information Collection Clearance Officer, Office of Surface Mining Reclamation and Enforcement, 1849 C Street, NW, Room 4559, Washington, DC 20240.

STATE OF WEST VIRGINIA Purchasing Division

PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (*W. Va. Code* §61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
