PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

Attn: David H. Pauline

RE: CEOI 0603 ADJ2200000008
Mountaineer Challenge Academy South Renovation Design

Dear Mr. David H. Pauline,

Alpha Associates, Incorporated is pleased to submit our qualifications to provide architectural and engineering to design services to develop construction documents to renovate Mountaineer Challenge Academy facilities in Montgomery, WV. Alpha's past experience with similar projects, including the designing the original three dormitories currently being utilized by the Challenge Academy at Camp Dawson make us a perfect teaming partner. We thrive at renovation projects and anticipate providing you with high quality services at reasonable costs.

Since 1969, Alpha has partnered with numerous Federal, State, and local governments to provide architectural and engineering services for projects around West Virginia, including several projects at Camp Dawson and the Parkersburg Armory. In addition to our experience with the Guard, Alpha has completed renovation projects of varying types and sizes, including more than 800,000 square feet of renovations at the WVU Health Sciences Center. This work ranged from small renovations of less than 200 square feet to large and very complicated renovations. These larger projects required not only architectural design but significant structural and mechanical and electrical modifications.

Design Team

Alpha is a West Virginia owned and operated architectural and engineering design firm with locations in Morgantown and Martinsburg. Our professional staff

includes architects, civil and structural engineers, surveyors, cost estimators, field service representatives, landscape designers, interior designers, and technicians. For this project, Alpha has partnered with H.F. Lenz Services for this project to perform the mechanical and electrical designs. We are well equipped to effectively and efficiently manage and produce your proposed project. Alpha's in-house combination of architectural design, civil and structural engineering will prove to be beneficial to your project.

Project Understanding

The West Virginia Army National Guard is looking to partner with a firm to design and develop construction documents to renovate facilities at the Mountaineer Challenge Academy in Montgomery, WV. These designs shall include mechanical/electrical/architectural upgrades. If selected, Alpha will provide a construction design, assistance in competitive bidding for the construction work, and construction administration once a construction contract is awarded.

Summary

The Alpha Team is looking forward to building upon an already successful relationship with the WV Army National Guard and the State of West Virginia by providing exceptional service. Our dedicated team of professionals will make your project a priority. If you would like to further discuss this upcoming project, please contact me at (304) 296-8216 ext. 102.

Sincerely,

ALPHA ASSOCIATES, INCORPORATED

Richard A. Colebank, PE, PS

H.F. Lenz Company

H.F. Lenz Company was established 1946 in its present form, under the name H.F. Lenz Company, R.E., and in 1953 the company was incorporated, as a Private Corporation, in Pennsylvania as H.F. Lenz Company. Our projects span the nation, with the heaviest concentration in the Northeast, and exceed \$530 million in MEP, Civil and Structural construction annually. Each market sector—corporate, government, health care, education, and industry—is served by a team of specialists who understand the unique needs of the clients they serve. Our staff consists of 160+ individuals, including 48 Licensed Professional Engineers and 20 LEED Accredited Professionals. Our headquarters is in Johnstown, Pennsylvania with branch offices in Pittsburgh and Lebanon, Pennsylvania; Conneaut, Ohio; and Middletown, Connecticut.

DISCIPLINES/SERVICES OFFERED IN-HOUSE INCLUDE:

- › Mechanical Engineering
- › Electrical Engineering
- › Data/Communications Engineering
- › Fire Protection / Life Safety Engineering
- › Structural Engineering
- › Civil Engineering
- › Surveying
- › GIS
- › Construction Phase Services
- › Commissioning and Training
- › 3D CADD with Full Visualization
- › Energy Modeling
- › Sustainable design/LEED Services
- › Building Information Modeling (BIM)

PHILOSOPHY

Two essential prerequisites lay the foundation for every H.F. Lenz Company project. First, we take the time to understand the client's business and how it operates. Second, we proactively involve the client in the development of appropriate solutions. In our role as partner, we help the client understand how well the available alternatives satisfy the project's own unique, prioritized set of objectives.

A remarkable 85 percent of our work consists of repeat commissions from clients who appreciate our responsive, value added service.

LEED®

Our firm has been a member of the U.S. Green Building Council since 2000 and we currently have 20 LEED® Accredited Professionals on staff. Our experience includes 120+ projects that have attained various levels of LEED Certification and numerous additional projects designed for various levels of LEED Certification, in total over 16 million sq.ft. of facilities.

ALPHA ASSOCIATES, INC.

STATEMENT OF QUALIFICATIONS

Alpha Associates, Incorporated is a West Virginia-based architectural and engineering design firm that provides services in the areas of architectural design, interior design, construction administration, civil engineering, structural engineering, landscape design, project management, and surveying. Our clients benefit from our unique combination of extensive design and construction experience, advanced technological tools, dedicated principals and highly skilled staff members.

Since 1969, Alpha has had provided architectural and engineering design services throughout the state of West Virginia. We have worked with many local, state, and federal government entities on numerous building renovation projects of varying sizes and types. In this proposal, you will find examples that showcase the Alpha Team's exceptional project experience on similar type facilities.

Alpha has had a successful relationship with the West Virginia Army National Guard that's developed over a decade and has included over 8 projects at Camp Dawson. This history allows us to provide the State and the WVARNG with a cohesive team on this project. Alpha has the knowledge and understanding in design and construction to complete this project seamlessly from the initial project inspections to the development of plans. The Alpha team will be your expert for this project.

Alpha's philosophy has always been to provide exemplary services for fair fees. We have always believed that the best way to succeed as a business is to go above and beyond the basic requirements of our contracts and do everything necessary to successfully complete the given project. What is best for the client is inevitably best for us too.

Everyone at Alpha, from the President to the administrative staff, all work towards the goal of completing successful projects. Our principals are involved with projects from the earliest stages right through final completion and beyond. They will consistently update you on your project by using effective communication tools to manage the projects and all the involved parties. Our skilled staff of twenty two (22) architects, engineers, surveyors and administrative personnel all work diligently towards producing drawings and specifications that will deliver our clients successful projects, completed on time and within budget.

Alpha has thrived for over 50 years because we are a professional organization dedicated to providing superior architectural and engineering design services to our clients. While our staff is large enough to handle any size project, we are also small enough to give each and every one of our projects the individual attention to detail that will make them successful projects for our clients.

THINK ALPHA FIRST.

STAFF PLANNING

TO BE ASSIGNED TO YOUR PROJECT.

All work to be performed for the Mountaineer Challenge Academy South Renovations will be managed out of Alpha's Morgantown office in conjunction with H.F. Lenz, headquarters in Johnstown, PA. In addition to your dedicated Project Team, Alpha's staff of 21 includes engineers, architects, architectural designers, technicians, and support staff that are available to assist with any potential project need.

SCHEDULE AND BUDGET.

Alpha Associates, Incorporated has an excellent track record of producing projects on time and within the Owner's budget. Many A/E firms can claim the same successes, but the determining factor is the tools the firms utilize to achieve the budgets, both in regard to funds and time. Alpha utilizes a number of tools, both traditional and modern to exceed our clients' expectations.

A project schedule is a dynamic, ever changing entity. Your project schedule depends on many factors including:

- Preferred construction method
- Changes to project scope
- Unique construction elements

The Alpha Team has an excellent track record of meeting project design deadlines. Alpha recently completed construction on a project in Morgantown that went from design to completion in just over 12 months. This project was completed for a private developer and had a construction cost in excess of \$20 million.

Successful project management depends upon consensus regarding work efforts, milestones and goals. The team has found that the development of detailed work plans, which delineate tasks and deliverables for each project phase, in concert with the client and full project team, is the most effective means of establishing expectations about efforts required by the respective disciplines. In addition to guiding the efforts of the design team, the work plan sets forth specific time frames and decision points for Owner and user reviews, comments and approvals.

Developing an overall project schedule is a critical task that must take into account many factors: building type, owner's desire for occupancy, scope of work and level of documentation, whether contract(s) is bid or negotiated, available fee, and prior experiences on similar projects. Characteristic of the client, its organization, or the involvement of a construction manager and his responsibility for document review must also be considered.

This starts with a kick-off meeting which establishes ground rules, responsibilities, and line of communication. We have found that a team visioning session is a great way to get everyone started off on the right track. Determining a project schedule is a task that must be done with all parties involved in the process. Once the design process begins, a very detailed, realistic project schedule can be developed and communicated to all involved.

In a world where "time is money", the schedule of a project is almost as important as controlling the cost. Alpha also works diligently to control the budget of a project. The best way to control the cost of a project is to avoid the "scope creep" that can occur.

Alpha's in house cost estimators, combined with an excellent relationship with contractors throughout the area, will provide the client with the most accurate estimates of probable construction cost.

CAPACITY & SOFTWARE.

OUR CAPABILITIES

Alpha Associates, Incorporated is prepared to commit staff and resources to the West Virginia Army National Guard. Alpha has the qualified and experienced personnel, administrative support, along with the production equipment and resources to ensure the successful completion of this project. We are confident in our ability to provide the WVARNG with a committed and dependable design team. Our multidisciplinary design team is prepared to meet and exceed the expectations of the WVARNG by committing any resources necessary to meet the project schedule.

USING THE LATEST SOFTWARE

The project team incorporates the latest computer and software capabilities required to complete the working drawings and specifications for this project. Our cost accounting system is top-of-the-line and we have the ability to differentiate fees according to task. We have secure e-mail and internet capability to allow efficient transfer of information between Alpha and the client. We currently have the latest editions of the following software:

- AutoCAD 22
 - REVIT (Editions up to 2022)
 - Civil 3D
 - RISA 3D
 - RISA Floor
 - RISA Foundation
 - MathCAD
 - DJI Phantom 4 RTK Drone
 - Autodesk Suite
 - Enercalc
 - AutoTURN
 - TopCon GR5 GPS System
 - TopCon Total Station with Reflectorless Capabilities
 - Carlson Surveyor & Data Collector

CASEY SMITH

AIA ASSOC.; ARCHITECTURAL DESIGNER

☎ 304-296-8216 | 800-640-8216

✉ casey.smith@thinkalphafirst.com

SUMMARY

Mr. Smith has been employed with Alpha Associates, Inc since 2016. He has worked on several architectural projects including multi-million dollar projects and public sector clients. Mr. Smith came to Alpha with an impressive background in educational, commercial, and local government facilities. He has offered assistance in project management, using his background to further improve the quality of each project he is involved with. Mr. Smith has been an incredible asset to Alpha Associates and proves to be an asset in each of his projects.

PROFILE

Broad-based responsibilities in the following areas:

- Architectural/Structural Construction Drawings
- Construction Administration
- Project Management Assistance

PROFESSIONAL HIGHLIGHTS

Construction Administration Projects:

- Cacapon State Park Lodge Renovation
- Los Mariachis New Restuarant; Morgantown, WV
- Freedom Ford Automotive Dealerships; Granville, WV
- Elkins Fordland; Elkins, WV
- Federal Group GSA VA Tenant Improvement Project
- Point Marion ADA Deck; Point Marion, PA
- Los Mariachis Renovation; Morgantown, WV
- WVU Hazel Ruby McQuain Education & Resource Center; Reedsville, WV
- Martinsburg Queen St. Underpass; Martinsburg, WV

CHARLES B. BRANCH

PE; SENIOR PRINCIPAL & CIVIL ENGINEER

☎ 304-296-8216 | 800-640-8216

✉ chuck.branch@thinkalphafirst.com

SUMMARY

As Chief Engineer for site development and planning projects, Mr. Branch is a vital part of the design process at Alpha. His involvement spans from strictly civil engineering projects, to the design of large scale educational projects and medical facilities. Mr. Branch acts as peer review for young engineers in the firm on issues ranging from storm water management to site design. Mr. Branch is also involved in commercial and residential development design, roadway and bridge design and utilities layout.

SUMMARY

Mr. Echard joined Alpha Associates, Inc. in early 2016 with a strong belief that his clients deserve intelligent, performance-based and value-oriented solutions. Drawing on experience working across in the United States, Europe, and the Middle-East, Mr. Echard returned to West Virginia to provide world-class service in a historically undeserved region while making positive contributions to the future growth of his home state. Mr. Echard places a large value on the collaborative work process. Believing that a building's form and function are derived from many contexts, Mr. Echard's office is located in the corporate office in Morgantown, WV. Mr. Echard also volunteers as the Chairman of the Gilmer County Unsafe Buildings and Lands Enforcement Authority.

SUMMARY

Mr. Luttrell has worked with Alpha Associates, Inc. since 1996. He is the chief structural engineer on all projects at Alpha. Before coming to Alpha, Mr. Luttrell's graduate work resulted in several contributions to the cold-formed steel deck industry. His new method of analysis for non-uniform loads on composite concrete and cold formed steel decks has been made a permanent part of the Steel Deck Institute's design manual. Mr. Luttrell also worked on projects that involved pre-stressed timber bridge research with WVU Constructed Facilities Center. Since coming to Alpha, Mr. Luttrell has had significant involvement in the effort to begin utilizing modern composite materials in practical bridge applications.

Thomas F. Deter, P.E., LEED AP

Principal-in-Charge of Engineering

Mr. Deter has over 30 years of experience and is responsible for the engineering design of all trades, the supervision of senior designers, the preparation of reports to determine optimal systems and/or equipment selections, and the coordination and checking of contract documents for completeness and quality. He has extensive experience in the design of building systems for both new buildings and building retrofits for educational, health care, commercial, government, industrial, residential, and utility related facilities. He is experienced in the design of power distribution systems; emergency power systems and monitoring; uninterruptible power supplies; lighting and emergency lighting systems; fire alarm systems; security; sound; and telephone systems.

PROJECT EXPERIENCE

Camp Dawson New Billeting Facility, U.S. Army National Guard -
Kingwood, West Virginia

- › Three new billeting facilities designed to resemble small, upscale hotels including design of the heating, cooling, ventilation, lighting, power, fire alarm, telecommunications, fire protection, plumbing, and natural gas service

New Cumberland Army Depot, New Billeting Facility, U.S. Army Corps
of Engineers - New Cumberland, Pennsylvania

- › Developed a project definition for a proposed three-story billeting facility providing civil, mechanical, plumbing, fire protection, and electrical engineering services for the facility

911 Airlift Wing, Visiting Offices Quarters, Building 206, U.S. Air
Force, Greater Pittsburgh International Airport - Coraopolis,
Pennsylvania

- › Renovations to 24 single bedroom units and one two-bedroom suite, main lobby, hearth room and registration desk, in the two story building

Fort Detrick, Renovations to Buildings 1430, 1545, AND 1546 U.S.
Army Corps of Engineers - Frederick, Maryland

- › Improvements and modifications to building access for disabled persons by addressing the deficiencies affecting compliance with the Americans with Disabilities Act

PA DGS, PA Army National Guard Readiness Center - New Castle,
Pennsylvania

- › Renovation to 23,000 sq.ft. readiness center, including HVAC renovations involving replacement of the steam heating system with hot water, renovations to restrooms / shower rooms and other plumbing renovations
- › Renovation to 26,700 sq.ft. reserve center, including ADA compliance upgrades, code upgrades

PA Department of Military Affairs, Ford City, Pennsylvania

- › New 24,400 sq.ft. armory

David A. Blackner, P.E.

Principal/Structural Engineer

Mr. Blackner is responsible for the complete layout, design and detailing of building structural systems. He has diverse experience in the structural analysis and design of projects involving steel, engineered masonry, reinforced cast-in-place concrete, pre-cast/pre-stressed concrete and wood frame structures.

Mr. Blackner is proficient in multiple analysis platforms (STAAD, RAM Structural Systems, 3-D Analysis and Finite Elements). He also oversees structural coordination with other trades, as well as conducting periodic site visits related to the structural work. Dave is also responsible for writing the structural technical specifications for projects. He received the Engineer of the Year Award 2005 by the local chapter PSPS.

EDUCATION

Associate, Architectural Engineering Technology, 1988, Pennsylvania State University

Associate, Mechanical Engineering Technology, 1988, Pennsylvania State University

MEMBERSHIPS

Member of American Institute of Steel Construction (AISC), Member of American Concrete Institute (ACI), Member of American Society of Civil Engineers (ASCE), The Engineer's Society of Western Pennsylvania (ESWP), Pennsylvania Society of Professional Engineers - Johnstown, Chapter, Engineer of the Year Award 2005

PROJECT EXPERIENCE

Candlewood Suites - Augusta, Georgia

- › Design of a new 311 room, 150,000 sq.ft. hotel, the largest Candlewood Suites in the world, at Fort Gordon Army Base; designed to attain LEED Certification

U.S. Air Force, 911th Airlift Group/CE, Greater Pittsburgh International Airport - Coraopolis, Pennsylvania

- › Expansion of Building 130

USACE Baltimore District, Letterkenny Army Depot, IDIQ Contract - Chambersburg, Pennsylvania

- › Multiple consecutive IDIQ Contracts for repair, renovations, additions, new construction, studies, investigations, and other A/E services for base buildings and site infrastructure at Letterkenny Army Depot; Over 100 projects completed to-date

University of Pittsburgh at Bradford, New Residence Hall - Bradford, Pennsylvania

- › A new 58,470 sq.ft multi-story building, principally programmed for 203 beds for student housing and related amenities

University of Charleston - Charleston, West Virginia

- › Four-story Brotherton Hall dormitory constructed of pre-cast hollow core plank on masonry bearing walls and miscellaneous steel framing. Exterior wall construction is brick veneer with metal stud back-up. Spread footing foundations bear on "CLFM" fill material

City of Pittsburgh - Pittsburgh, Pennsylvania

- › Structural modifications for restroom renovations in the City County Building; the project involved approximately 24 restroom on multiple floors

VA WEST VIRGINIA TRAINING ACADEMY

Sheperdstown, WV; 2019

The VA WV National Training Academy project consisted of the complete renovation of existing office space in Sheperdstown, WV. The space had to be re-designed to function as a place to hold training sessions as well as develop and film training videos for the VA.

To achieve this, high STC walls and doors had to be provided for the filming studios and the large training rooms. Standard enclosed offices, conference rooms, and open office space were also provided for the facility. Renovated restrooms and a new break area completed the project, providing all the spaces needed for the VA's intended usage of the site.

MINERS' HEALTH AND SAFETY TRAINING BUILDING

Oak Hill, WV; 2018

Alpha Associates, Incorporated provided architectural design, civil and structural engineering services for renovations to the Miners' Health and Safety Training Building. The building serves as a Training Building for the WV Miners Health and Safety.

The project consisted of the renovation of the existing Pre-Engineered Metal building that was being used as a garage. The design created defines spaces between garage bays and new office and training classrooms, with a separate entrance for trainees. New HVAC systems and electrical systems were also provided, along with code compliant fire, life safety and ADA improvements.

Alpha also provided engineering services for parking and site drainage improvements.

SOUTH BERKELEY VOLUNTEER FIRE CO.

Martinsburg, WV; 2017

Alpha Associates, Incorporated provided architectural design, civil & structural engineering and surveying services for to renovate an existing 18,100 square foot pre-fabricated metal building used as a supermarket to a new fully functional Fire Station for the Berkeley County Fire Service Board and the South Berkeley Volunteer Fire Company. The existing building along with a 1,768 square foot addition and incorporating a 3,218 sq. ft. Mechanical/Storage Mezzanine to provide a total of 23,089 sq. ft.. The building contains:

- Seven (7) Apparatus Bays
- Training Meeting Room
- Day Room with Kitchen and Dining Facilities
- Sleeping quarters for ten (10) with Locker Rooms, and Toilet and Shower Facilities
- 240 Person Community Room with Commercial Kitchen and Food Preparation Facilities

The building also includes a back-up generator capable of providing electrical power for the entire facility during a power outage.

PARKERSBURG ARMORY RENOVATION & ADDITION

Parkersburg, WV; 2009

Alpha continues their relationship with the West Virginia Army National Guard with the renovation of a space originally designated as a rifle range at the Parkersburg Armory.

New offices, conference room, and break room provide new work space for officers. A secondary entrance was included in the design to serve the department that will occupy this space.

A fire alarm upgrade for the entire building was also included in the project scope as well as an alternate for an access control system and mass notification system.

Billeting Facilities

H.F. Lenz Company provided engineering services for the design of new billeting facilities. A few of our project examples include:

CAMP DAWSON, NEW BILLETING FACILITY, U.S. ARMY NATIONAL GUARD - *Kingwood, West Virginia*

H.F. Lenz Company provided mechanical, electrical, plumbing and fire protection engineering services for the design of three new billeting facilities for Camp Dawson. The facilities were designed to resemble small, upscale hotels. Each facility consisted of eight sleeping rooms with full baths, a common gathering area with fire place, and a full kitchen. The project included the design of the heating, cooling, ventilation, lighting, power, fire alarm, telecommunications, fire protection, plumbing, and natural gas service. Each sleeping room had individual heating and cooling control.

NEW CUMBERLAND ARMY DEPOT, NEW BILLETING FACILITY, U.S. ARMY **CORPS OF ENGINEERS - NEW CUMBERLAND, PENNSYLVANIA**

H.F. Lenz Company provided engineering services to develop a project definition for a proposed three-story billeting facility to be located at the New Cumberland Army Depot. HFL provided civil, mechanical, plumbing, fire protection, and electrical engineering services for the facility.

Three HVAC options were proposed for the building including packaged through-the-wall air conditioning units, four pipe fan coil unit with gas heat, and water source heat pump with gas heat. HFL prepared a systems comparison between each of the options, comparing overall performance, equipment requirements, and order of magnitude cost comparison.

The MEP systems narrative defined the specific requirements recommended for the new billeting facility addressing utilities to the building, sizing of water, sanitary sewer, natural gas systems, addressing plumbing fixtures and piping types. The project definition included the fire protection system configuration in accordance with NFPA 13 and the Military Handbook. Electrical systems described the medium voltage service to the building with a pad mounted transformer to establish a secondary service for the billeting facility. The narrative described the electrical distribution system, lighting recommendations with fixture types and illumination levels for each type of space, emergency and egress lighting, branch circuiting approaches and detailed telecommunications systems arrangement.

**US Army Corps
of Engineers®**

**911 AIRLIFT WING, VISITING OFFICES QUARTERS, BUILDING 206,
U.S. AIR FORCE, GREATER PITTSBURGH INTERNATIONAL AIRPORT -
Coraopolis, Pennsylvania**

H.F. Lenz Company was involved in a renovation project at Building 206 for the 911 Airlift Wing which consisted of improvements to the Visiting Officers Quarters. The improvements included 24 single bedroom units and one two-bedroom suite in the two-story building. The project also consisted of modifications and improvements to the main lobby, including hearth room and the registration desk. Some of the MEP system improvements included the following:

- › New boiler system
- › Building heating piping and fan coil units
- › Reused existing chiller
- › Replaced chilled water distribution piping
- › Building ATC system
- › Domestic water heater and storage tank
- › New domestic water piping system
- › New sanitary sewer and vent piping
- › Plumbing fixture replacement
- › Fire protection system for the entire building in accordance with NFPA 13
- › Dry type sprinkler system to protect the unheated attic of the building
- › A new pad-mounted 4160V primary 208/120V secondary transformer
- › New main distribution switchboard
- › Electrical devices including lighting, receptacles, switches, etc.

**FORT DETRICK, RENOVATIONS TO BUILDINGS 1430, 1545, AND 1546,
U.S. ARMY CORPS OF ENGINEERS - Frederick, Maryland**

H.F. Lenz Company provided the mechanical, electrical, plumbing, fire protection, structural and civil engineering services for the renovations to buildings 1430, 1545, and 1546. Building 1430, the oldest of the three buildings, was originally constructed for use as a dormitory and converted to office space in the 1980's. Buildings 1545 and 1546, also originally constructed as dormitories, were converted into office space within the last 5 years. The intent of this project was to improve access to Buildings 1430, 1545, and 1546 for disabled persons by addressing the deficiencies affecting compliance with the Americans with Disabilities Act. Modifications to these buildings included the addition of an ADA compliant elevator to provide access to the three floors above grade at each building. Other modifications included the installation of ADA compliant automatic door openers and ADA compliant hardware to the building entry door assembly closest to where the elevator is located, modifications to door stoops, walkways, and ramps as required to provide an ADA compliant accessible path into the buildings and to the elevators.

Pennsylvania Army National Guard

Pittsburgh, Pennsylvania

CRANE READINESS CENTER REHABILITATION

H.F. Lenz Company provided the mechanical, electrical, plumbing, fire protection, communications and civil engineering services for the renovation of the Crane Readiness Center which houses 250 soldiers of the 128th Brigade Support Battalion, PA Army National Guard.

The existing facility was a 26,700 sq.ft., two-story Reserve Center of permanent masonry type construction, brick and concrete block units with concrete floors, and a built-up or membrane roof system. The scope of work for the project included:

- › Restroom rehabilitation/installation of low-flow fixtures
- › American with Disabilities Act compliance upgrades
- › Code compliance upgrades
- › Construction of a 3,000 to 5,000 sq.ft. heated storage building equipped with supply caging
- › HVAC & electrical system evaluation and improvements
- › Emergency generator supporting up to 35% of facility's load requirements
- › Elevator installation
- › Parking lot lighting
- › Roof replacement
- › Bituminous pavement demolition/replacement/expansion
- › Chain-link fencing and gates
- › Exterior lighting
- › Antiterrorism/force protection requirements around the perimeter of the property
- › Masonry re-pointing

Several rooms were remodeled for new programming needs to include architectural, electrical, IT and HVAC improvements.

This facility also houses a weapons vault which will be equipped with an electronic Entrance Security System (ESS).

Construction on the \$2,200,000 was completed in 2015.

Pennsylvania Army National Guard

New Castle, Pennsylvania

NEW CASTLE READINESS CENTER REHABILITATION

The New Castle Readiness Center consisted of two, two-story wings of the building with a one-story Maintenance Shop/Drill Hall which connects the two. The building is masonry type construction with stone, brick, and concrete block. Outside supporting facilities include military and privately-owned vehicle parking, fencing, sidewalks, access roads, and storage buildings as well as a vehicle maintenance facility.

This project was focused on the Readiness Center or the main building. The size of the existing facility was approximately 23,000 sq. ft. The facility houses approximately 120 soldiers from the 107th Field Artillery Battalion for the Pennsylvania Army National Guard. The original building was constructed in 1938 and housed the Calvary Units, which included administrative offices, stables, and a riding hall, which is now the Drill Hall.

The rehabilitation scope of work included:

- › HVAC renovations include replacement of the steam heating system with hot water, adding air conditioning to the Administration Wing, Rear Wing, and the existing classroom which is part of the Drill Hall, toilet room and locker room exhaust upgrades, and a kitchen exhaust and make-up air system.
- › The plumbing scope of work includes replacing water heaters, providing a new domestic water service and piping, updating the sanitary sewer and vent piping, modifying the natural gas service and piping to accommodate the increased loads, renovations to the toilet rooms and shower rooms throughout the building, and providing new roof drains.
- › Electrical upgrades consisting of new electrical service, new distribution equipment and panelboards throughout. New lighting and receptacle layouts are also included as part of the renovation. Fire alarm system and emergency lighting will be updated throughout the building, and a connection for a future generator will be incorporated into the design.

Construction on the \$2,511,000 was completed in 2018.

STATE BOARD OF REGISTRATION FOR PROFESSIONAL ENGINEERS

To all to whom these presents shall come, Greeting.

Know Ye That The State Board of Registration for Professional Engineers,
of the State of West Virginia, reposing special confidence in
the Intelligence, Integrity and Discretion of

Richard A. Colebank

DOES, IN PURSUANCE OF AUTHORITY VESTED IN IT
by law, hereby certify that he, having submitted
satisfactory evidence of his ability and experience, is a
REGISTERED PROFESSIONAL ENGINEER

Registration Number [REDACTED]

To Hold and use such title in the practice of his profession,
subject to the conditions prescribed by law.

Given under the hand and the Seal
of the Board at the Capitol in the
City of Charleston,
this 23rd day of Feb. in the
year of our Lord One Thousand
Nine Hundred and Eighty-Eight
and of the State the One Hundred
Twenty-Fourth.

CERTIFICATE OF *Authorization*

STATE BOARD OF REGISTRATION FOR PROFESSIONAL ENGINEERS

*The West Virginia State Board of Registration for Professional Engineers
having verified the person in responsible charge is registered in
West Virginia as a professional engineer for the noted firm, hereby certifies*

ALPHA ASSOCIATES, INC.

C00012-00

Engineer in Responsible Charge: RICHARD A. COLEBANK - WV PE 010346

*has complied with section §30-13-17 of the West Virginia Code governing
the issuance of a Certificate of Authorization. The Board hereby notifies you of its
certification with issuance of this Certification of Authorization for the period of:*

January 1, 2020 - December 31, 2021

providing for the practice of engineering services in the State of West Virginia.

IF YOU ARE REQUIRED TO REGISTER WITH THE SECRETARY OF STATE'S OFFICE,
PLEASE SUBMIT THIS CERTIFICATE WITH YOUR APPLICATION.

IN TESTIMONY WHEREOF, THE WEST VIRGINIA STATE BOARD OF
REGISTRATION FOR PROFESSIONAL ENGINEERS HAS ISSUED THIS COA
UNDER ITS SEAL, AND SIGNED BY THE PRESIDENT OF SAID BOARD.

BOARD PRESIDENT

HEAR FROM OUR CLIENTS.

J. Paul Walden
West Virginia University

Alpha Associates have a proven record of customer satisfaction and successful client delivery with our organization. We would be confident in our recommendation in support of Alpha.

Robert Hammel
Former Director
Morgantown Municipal Airport

Every aspect and detail of [Alpha's] planning, coordination, and completed projects have been exceptional and outstanding in every regard.
