ADDITIONAL INFORMATION

The West Virginia Purchasing Division is soliciting bids on behalf of West Virginia Offices of the Insurance Commissioner (OIC) to establish a contract for a Senior Application Developer. This will be an open-end service contract that will provide the services of a Senior Application Developer on an hourly rate basis. The Senior Application Developer position is needed to provide technical expertise to meet the temporary contracted staffing needs of the OIC Information Technologies Unit. These services will be used to develop modifications and enhancements to the systems currently used by the OIC per the attached specifications and terms and conditions.

SCHEDULE OF EVENTS

Line	Event	Event Date
	1. CONTRACT TERM; RENEWAL; EXTENSION: The term of this Contract shall be determined in accordance with the category that has been identified as applicable to this Contract below:	
	<input checked="" type="checkbox"/> Term Contract	
	Initial Contract Term: The Initial Contract Term will be for a period of <u>one (1) year</u> date listed on the first page of this Contract and the Initial Contract Term ends on the effective end date also shown on the first page of this Contract.	

Renewal Term: This Contract may be renewed upon the mutual written consent of the Agency, and the Vendor, with approval of the Purchasing Division and the Attorney General's office (Attorney General approval is as to form only). Any request for renewal should be delivered to the Agency and then submitted to the Purchasing Division thirty (30) days prior to the expiration date of the initial contract term or appropriate renewal term. A Contract renewal shall be in accordance with the terms and conditions of the original contract. Unless otherwise specified below, renewal of this Contract is limited to ~~Three~~ (3) successive one (1) year periods or multiple renewal periods of less than one year, provided that the multiple renewal periods do not exceed the total number of months available in all renewal years combined. Automatic renewal of this Contract is prohibited. Renewals must be approved by the Vendor, Agency, Purchasing Division and Attorney General's office (Attorney General approval is as to form only)

General's Office (Attorney General approval is as to form only).

2. INSURANCE: The apparent successful Vendor shall furnish proof of the insurance identified by a checkmark below and must include the State as an additional insured on each policy prior to Contract award. The insurance coverages identified below must be maintained throughout the life of this contract. Thirty (30) days prior to the expiration of the insurance policies, Vendor shall provide the Agency with proof that the insurance mandated herein has been continued. Vendor must also provide Agency with immediate notice of any changes in its insurance policies, including but not limited to, policy cancelation, policy reduction, or change in insurers. The apparent successful Vendor shall also furnish proof of any additional insurance requirements contained in the specifications prior to Contract award regardless of whether that insurance requirement is listed in this section.

Vendor must maintain:

Commercial General Liability Insurance in at least an amount of: One Million Dollars per occurrence.

Automobile Liability Insurance in at least an amount of: Personal limits per occurrence.

Professional/Malpractice/Errors and Omission Insurance in at least an amount of: One Million Dollars per occurrence. Notwithstanding the forgoing, Vendor's are not required to list the State as an additional insured for this type of policy.

Commercial Crime and Third Party Fidelity Insurance in an amount of: _____ per occurrence.

Cyber Liability Insurance in an amount of: _____ per occurrence.

Builders Risk Insurance in an amount equal to 100% of the amount of the Contract.

Pollution Insurance in an amount of: _____ per occurrence.

Aircraft Liability in an amount of: _____ per occurrence.

[]

Notwithstanding anything contained in this section to the contrary, the Director of the Purchasing Division reserves the right to waive the requirement that the State be named as an additional insured on one or more of the Vendor's insurance policies if the Director finds that doing so is in the State's best interest.

3. WORKERS' COMPENSATION INSURANCE: Vendor shall comply with laws relating to workers compensation, shall maintain workers' compensation insurance when required, and shall furnish proof of workers' compensation insurance upon request.

4. [Reserved]

5. LIQUIDATED DAMAGES: This clause shall in no way be considered exclusive and shall not limit the State or Agency's right to pursue any other available remedy. Vendor shall pay liquidated damages in the amount specified below or as described in the specifications:

_____ for _____.

Liquidated Damages Contained in the Specifications.

Liquidated Damages Are Not Included in this Contract.

DESIGNATED CONTACT: Vendor appoints the individual identified in this Section as the Contract Administrator and the initial point of contact for matters relating to this Contract.

(Name, Title) Edward Cassenti, Business Development Manager

(Printed Name and Title) Edward Cassenti, Business Development Manager

(Address) 11200 Waples Mill Road, Suite 200, Fairfax, VA 22030

Sr. Application Developer - Savitri Dommalapati

PROFESSIONAL SUMMARY

- ❖ Have **14 years of experience** in the field of software development using **AGILE SCRUM** Methodology and Waterfall, facade architecture model actively involved in Analysis, Design, Development, Implementation and Testing of business applications.
- ❖ Well Experienced in developing and maintain the applications and re-engineering and maintenance the applications
- ❖ Analyzing the functional requirements of project and documenting the functional specifications and detailed design for the new programs
- ❖ Results oriented Internet, Intranet, Extranet and e-commerce professional with diverse experience in multi-disciplined e-business projects and Business-to-Business product development Applications
- ❖ Extensive programmer as full stack developer using **ASP.Net, .NET Core 2.0, MVC, Entity Framework, C#.NET, HTML/HTML5, XML, JavaScript, jQuery, jQuery Data Tables, Web API, Angular2,4, SQL Server, MySQL, SQLite**
- ❖ Extensive experience working with **ASP.Net, MVC Frameworks** and implemented controller actions and Views, Partial Views, Areas, Sections, Strongly Typed Views and View Models with **State Management, Security, caching features and configuring optimizations** etc.
- ❖ Strongly skilled and well Experienced in developing Single page applications (**SPA**) and client-side functionalities with various rich UI and responsive features along with performance functionalities in the web applications using advanced JavaScript/UI frameworks like **JSON, JQuery, XML, AJAX, HTML, DHTML, XML/XSL/XSLT, CSS, Telerik Kendo UI**.
- ❖ Exceptional ability in Design, Development, Security, Testing and consuming of distributed applications using **Windows Communication Foundation (WCF)**, and responsible for developing **WCF based Service, and Web services**. Proficient in working with **Web Services, SOAP & Restful WCF & Web API**
- ❖ Hands on experience in Azure Development, worked on Azure web application, App services, Azure storage, Azure SQL Database, Virtual machines, Fabric controller, Azure AD, Azure search, and notification hub.
- ❖ Designed, configured and deployed Microsoft Azure for a multitude of applications utilizing the Azure stack (Including Compute, Web & Mobile, Blobs, Resource Groups, Azure SQL, Cloud Services, and ARM), focusing on high - availability, fault tolerance, and auto-scaling.
- ❖ Proficient in **PayPal** Integration and maintain security
- ❖ Experienced in version control systems such as **GIT, Team Foundation Server (TFS)** and Visual Source Safe (**VSS**) for active tracking of work progress and maintaining code repository
- ❖ Involved in performing unit testing using tools **MS-Unit, N-Unit, Test-API** and involved in several integration testing, system testing and performance testing
- ❖ Development and maintaining the build process and handling hosting issues Excellent **Written, Analytical Skills, Verbal Communication skills** with a customer service-oriented attitude and worked with the offshore team as onsite coordinator to provide the update on the daily basis.

ACADEMIC QUALIFICATIONS

- ❖ Master of Computer Applications from Osmania University INDIA.- (2003/2006)
- ❖ BSc (MCS) Bachelor's in Computer Science from Osmania University, INDIA -(2001/2003)

UI Technologies	HTML, CSS, Telerik Kendo UI, Vue Js, Jgrid
IDE Tools:	Visual Studio, SQL Server Management Studio
Databases	MS SQL SERVER, MYSQL MS Access, SQLite
Version Control Tools:	GIT, SVN, TFS
Web services:	WCF, SOAP, Web API, AWS
Middleware:	WCF, ADO.NET, Web Services

PROFESSIONAL EXPERIENCE

UPS Georgia (Senior Software Developer)

Aug 2021- Present

Description: Provides input and support for, and performs full systems life cycle management activities (e.g., analyses, technical requirements, design, coding, testing, implementation of systems and applications software, etc.). Participating in component and data architecture design, technology planning, and testing for Applications Development (AD) initiatives to meet business requirements. Providing input to applications development project plans and integrations. Collaborating with teams and supports emerging technologies to ensure effective communication and achievement of objectives. Providing knowledge and support for applications development, integration, and maintenance. Providing the inputs to department and project teams on decisions supporting projects. Creating and managing detailed written business and functional requirements.

Responsibilities:

- Writes high quality code using proper coding standards, and web content accessibility guidelines in a fast-paced, agile development environment
- Design and develops software, and supports development process through architecture, coding and debugging
- Participates in product/software strategy, design, and technical architecture definitions to align solutions with business needs
- Monitors current and emerging technologies, trends, and tools
- Interacts with other functions and departments (requirements, QA, deployment, build team, support and integration, etc.) throughout the software development life cycle

Environment: C#4.6, MVC, Vue JS, Entity Framework 6.0, Facade Architecture, LINQ, SQL Server 2019, IIS 7.0, Visual Studio 2019, JavaScript, jQuery, Web API, MSMQ, CSS, HTML, JSON, Git

CFMC (CDFA), Sacramento, CA (Senior Software Developer)

Nov 2020- July 2021

Description: The Direct marketing of agricultural products through CFMs benefits the agricultural community and consumers. CFMs provide a flexible marketing alternative without disrupting other product marketing systems. The high quality and fresh produce brought to the CFMs by its producers

PSI INTERNATIONAL, Inc.
Trusted Technology Advisers

BID# West VA INS2200000003
Sr Application Developer

creates a diverse market and provides the consumer with opportunity to meet the farmer and learn how their food supply is produced.

CFMs provide a great opportunity for small farmers to market their products without the added expenses of commercial preparation. This increases their net income and makes it possible for them to stay in business. There are approximately 750 certified farmers' markets and approximately 2,700 certified producers. Of these markets, about 60% are year-round markets and the balance is seasonal. In a typical year, most of the seasonal markets operate from April through October of each year.

Responsibilities:

- Interacting with the business team for discussion of the functional specifications, high level requirements and user stories. Participated in full development life cycle using Object Oriented Programming (OOPS) concepts and Agile SCRUM.
- Developed the application using facade architecture using C#, MVC, Entity Framework, LINQ, WCF, HTML5, CSS3, ajax and implement the angular user controllers and add controls and bind user modules.
- Developing and consuming web services using WCF and IIS 7 for hosting.
- Developing views, controllers and view models
- Creating data layers using Framework
- Worked on Packages, Procedures, Views, Functions and Triggers to store, modify and retrieve the data from the database tables. Used Team Foundation Server for Source code management,
- Bug tracking, Reporting, Requirement management, Testing and release management. Implemented Authentication and Authorization logic to Authenticate Client Requests.

Environment: C#4.6, MVC, Entity Framework 6.0, Facade Architecture, LINQ, SQL Server 2019, IIS 7.0, Visual Studio 2019, JavaScript, jQuery, WCF services, MSMQ, CSS, HTML, JSON, Git

SIERA (OSHPD), Sacramento, CA (Full Stack .NET Developer)

May 2018- Oct-2020

Description: SIERA: The System for Integrated Electronic Reporting and Auditing (SIERA) provides health facilities to easily submit reports, view and revise submitted reports, and view facility and license information. OSHPD is the implementation of OSHPD's reporting system for the collection of the Financial, Utilization and CTRx Report system. The System of Integrated Electronic Reporting and Auditing (SIERA) is OSHPD's report collection enterprise system for facility Financial, Utilization and drug manufacturer CTRx information. The report was previously submitted via the ALIRTS reporting system. Beginning with the 2018 onwards Annual /Quarterly Report, financial/ utilization and CTRx reports will be submitted exclusively on the SIERA system. Existing ALIRTS users were migrating their accounts to the SIERA system to maintain the records of all the streams.

Responsibilities:

- Interacting with the business team for discussion of the functional specifications, high level requirements and user stories. Participated in full development life cycle using Object Oriented Programming (OOPS) concepts and Agile SCRUM.
- Developed the application using N-Tier architecture using C#, ASP, NET, LINQ, WCF, HTML5, CSS3, Angular

PSI INTERNATIONAL, Inc.
Trusted Technology Advisers

BID# West VA INS220000003
Sr Application Developer

- Designed and developed various abstract classes, interfaces, classes to construct the business logic using C#, the middle tier contained all the business logic
- Developing and consuming web services using WCF and IIS 7 for hosting.
- Worked closely with analysts and architects to understand the functionality and framework of the application.
- Designed and developed application using ASP.NET, JavaScript, jQuery, HTML, CSS, C#.NET, ADO.NET and MS SQL Server. Developed various interface screens using ASP.NET, C#.NET and HTML controls for Client-Server interaction.
- Hands on experience in Azure Development, worked on Azure web application, App services, Azure storage, Azure SQL Database, Virtual machines, Fabric controller, Azure AD, Azure search, and notification hub.
- Designed, configured and deployed Microsoft Azure for a multitude of applications utilizing the Azure stack (Including Compute, Web & Mobile, Blobs, Resource Groups, Azure SQL, Cloud Services, and ARM), focusing on high - availability, fault tolerance, and auto-scaling.
- Worked on Packages, Procedures, Views, Functions and Triggers to store, modify and retrieve the data from the database tables. Used Team Foundation Server for Source code management, Bug tracking, Reporting, Requirement management, Testing and release management.
- Implemented Authentication and Authorization logic to Authenticate Client Requests.

Environment: C#4.6, ASP.NET, Facade Architecture, LINQ, SQL Server 2015, IIS 7.0, Visual Studio 2017, JavaScript, jQuery, WCF services, MSMQ, CSS, HTML, JSON, TFS.

PULSE (Quallyde), Pleasanton, CA (Senior Software Engineer)

Nov 2016- April 2018

Description: PULSE is Healthcare Information System Pulse (HIS), developed as an integrated solution to meet the needs of the Healthcare establishment. Pulse HIS offers a reliable, cost effective and easy to-use information system. The system provides the nurses, doctors, other care providers and administrative users a standard, consistent and familiar view of all their clinical and administrative data, which may range from registration and appointments to pathology and radiology results. Pulse HIS helps Clinicians to collect, record and analyze patient information that is needed to make decisions about how to improve the quality of care while maintaining or reducing costs.

Responsibilities:

- Involved in SDLC in whole project, participated in full development life cycle using Object Oriented Programming (OOPS) concepts and Agile SCRUM. Designed and developed various abstract classes, interfaces, classes to construct the business logic using C#, the middle tier contained all the business logic
- Developed partial page loading using ajax with jQuery
- Designed and created Relational database tables using Normalization, managed clustered and non-clustered indexes and implemented Relationships b/w tables
- Created and maintained database schema, tables, views, stored procedures and indexes for better performance using SQL Server.
- Created complex Stored Procedures, triggers, cursors, tables, and views using T-SQL for various reports using Crystal Reports.

PSI INTERNATIONAL, Inc.
Trusted Technology Advisers

BID# West VA INS2200000003

- Used Microsoft Team Foundation Server (TFS) to manage the team's software development lifecycle including deriving product backlog items, assigning sprint work items to developers and conducting sprint review meetings
- Coding for various Modules, Error Handling, Modification and Testing.
- Development and maintaining the build process and handling hosting issues

Environment: HTML5, CSS 3, JavaScript, asp.net, C#4.6, MVC 5.0, LINQ Web API, REST, SQL Server 2012, IIS 7.0, Visual Studio 2017, SQL Server 2012, JSON, Test API, N-Unit, GIT.

Blue Label Labs, NY (Senior Software Developer)

Feb 2016- Feb 2017

Description: **Love My Heart app** was built with the aim to help women learn and care more about their heart. The Risk Calculator calculates different risk factors that a woman may have for potential heart disease. The app takes women through series of specific questions for the diagnosis. This app brings the awareness and prevention early on, especially since it's easy to use and within a mobile app format. The app also acts as a tracking tool to help women stay on top of their goals such as keeping a healthy diet and regular exercise. Up to 90% of heart diseases can be prevented in woman with the help of this app.

Responsibilities:

- Involved in full life cycle of the app from requirements gathering.
- Interact with clients and System Analysts to identify business objectives and clarify requirements.
- Design and implement the architecture of the **SQL Server** database structure
- Implemented **ASP.NET Web Services** using **C#.NET**
- Developed Web services with use of **C#.NET, LINQ** by using .NET framework 4.0
- Created **WCF Services** responsible for communicating and providing real time data from integrated server to Client Application
- Extensively used partial classes, Generics, Interfaces and Object-Oriented Concepts

Environment: NET Framework 4.5, Visual Studio 2015, C#.NET, ASP.NET, ADO.NET, MS SQL Server 2012, SQLite, IOS, Swift, jQuery and Asp.net Web Services, WCF Web Services.

MDFL, HYDERABAD, INDIA (Senior NET Developer)

Sep 2014- Jan 2016

Description: **Mfloat** provides an affiliate program to users. It is a referral program like supply chain management. Mfloat gives affiliate marketing program without owning a blog or website. Mfloat includes exclusive ad platform affiliate to amazon, flip kart and Snapdeal to attract audience.

Responsibilities:

- Responsible to work on team assigned individually.
- Analyze the requirement, Design the solution, Discussion of proposed solution with team, Implementation, Testing and bug fixes. Working with annotations in MVC
- Working on action filters in MVC architecture
- Generated reports to display the statistics using jQuery Data Tables
- Developed WCF services to support all client needs Develop back-end Components connect the supported web services from Mobikwik to incorporate the recharge Services Designed large scale business application and systems in a web-based multi-user environment.

PSI INTERNATIONAL, Inc.
Trusted Technology Advisors

Sr Application Developer

- Used Entity Framework's Code First approach to create database and tables as objects along with LINQ to handle the communication with the database and to perform CRUD operations.

Environment: Framework 4, Visual Studio 2013, C#.NET, MVC, Entity Framework ASP.NET, Microsoft Access, JavaScript, XML, AJAX, JSON, asp.net and WCF Web Services, jQuery, jQuery Data Tables, Cordova, SQL Server 2012, Web API and version control SVN

NPD Global INC, NY, NJ, USA (offshore) (.NET Developer)

March 2009– May 2014

Description: ExamenIT is set up in devised by a group of Professionals to aid delivery of better staffing decisions involving IT personnel. It offers array of products, focusing primarily on providing IT staffing solutions to companies. ExamenIT Online tests are portable thus providing flexibility to the customers. Companies can also use these tests to determine the training needs of their employees, leading to employee retention, company and employee development. ExamenIT Online provides companies with instant well-defined score cards so that even a non-technical person can assess the ability of the candidate. Our Mission: To add value at every stage through innovation.

Responsibilities:

- Designed and developed the Windows application which consisted of a WinForms GUI. developed the windows application using N-Tier architecture with C#, Visual Studio 2015 and SQL Server 2012
- Designed forms, Custom Controls and User Controls using XAML language for interactive UI and designed UI controls.
- Created and maintained database objects like complex Stored Procedures, Cursors, and Tables, Views, User Defined Functions, in SQL Server 2005 for inserting/Updating/Deleting the data into the relational tables.
- Involved in Unit Testing, Modular Testing and successful integration of modules and multiple layers in the system.
- Used Team Foundation Server (TFS) for version control of the source code along with the maintenance of the builds and the relevant documents of the same. Provided administrative services to the data discrepancies in the reports, SQL server jobs and GUI interfaces.

ENVIRONMENT: .NET, ASP.Net, C#, JavaScript, SQL Server 2008, MYSQL, HTML, CSS.

Medisys Info, Hyderabad, AP, INDIA (.NET Developer)

May 2011– May 2012

Description: Medisys provides new functionality of health card that improves patient care. A health card is required for persons that helps to identify the cardholder by name and code number as per the categories listed on the card. A health card provides access to medical services. Provides search engine to analyze media records stored in the database. It provides specific tools and resources to provide the information about the benefits of the patients to the Doctors.

Responsibilities:

- Analyze the requirement, Design the solution, Discussion of proposed solution with team, Implementation, Testing and bug fixes.
- Used ADO.Net for data querying, storage and manipulation
- Developed modules of the application in ASP.NET and involved in writing C#.NET classes.

PSI INTERNATIONAL, Inc.
Trusted Technology Advisers
