Bidders,

Section 4.2.1.89 of the Request for Proposal identified above required that "The Vendor should include a detailed bill of materials (price list) that details each billable component of this RFP." After reviewing the information provided, the WV Lottery has determined that multiple bidders included the bill of materials in the cost proposal submission. This most likely occurred because of the inclusion of the words "(price list)" in the specification. In order to avoid opening cost proposals prematurely, and to ensure a complete evaluation of bid responses, the Purchasing Division is issuing this clarification to obtain copies of any "bill of materials" included in the cost bid submission, with all pricing information redacted. Failure to provide

State of West Virginia Mail - RE: CRFP LOT2100000001 - Scalable Infrastructure Storage Solution - Lottery

an exact copy of the document included in the cost proposal (except that pricing is redacted) may result in bid disqualification.

Please provide a redacted copy of any bill of materials that your firm may have included in the cost proposal to me no later than Wednesday, July 21, 2021, at 1:00 p.m.

Thank you,
