# Security America:

## A West Virginia Success Story

*Security America is proud to be the largest West Virginia based security officer company since 1982. Security America is a family owned business operated by Chris and T. William Signorelli. We continue to support the Mountain State by providing jobs to West Virginians and being involved in many community organizations and events.*

### Security America's Commitment

We are invested in West Virginia and its future through employing hundreds of good paying jobs. We are committed to maintaining our headquarters here while serving many clients throughout West Virginia, Pennsylvania, Ohio Kentucky, Virginia, and North Carolina. Our clients include businesses in manufacturing, healthcare, office building, oil and gas, coal mines, government facilities and many others.

### Environment of Excellence

Every Security America employee is charged with the responsibility of achieving professional success. We don't hire "security guards." We recruit, train and deploy professional security officers; that is the critical difference between us and other security companies. Security America is a "turn key" security company also offering services like security consulting, investigations, executive protection, electronic security, and labor dispute preparation. It's what makes Security America a trusted service provider to our clients and an outstanding West Virginia success story.

### Client Testimonial

"Security America has been a West Virginia Success Story since 1982 because it's hard work of ownership and staff to keep a West Virginian based company going. It clearly separates itself from other security companies with their professional service from their employees and responsive managers."
