Question 1: Is this for a bumper pull or a gooseneck?

Answer 1: This is for a bumper pull.

Question 2: Do I need to bid on this as a whole or each individual item?

Answer 2: You will need to bid on each commodity line as it is listed on the pricing pages.

Question 3: Section 3.1.3 states a GVWR of no more than 10,000lb, but also asks in Section 3.1.6 for 27,000lb axles which will put it at 14,000 GVWR minimum. Please clarify.

Answer 3: A GVWR of 14,000lb would be acceptable.

Question 4: Section 3.1.13 is asking for a 10,000lb rating on rear door and would like to know what they will have on it. If this is the rating, you need we may have to go to barn style doors with ramps.

Answer 4: The door will mostly be used to move small objects and people in and out of, but if needed a small UTV can be driven in it. The drop doors will remain as the mandatory requirement. Only vendors who meet the mandatory will be eligible for award.

Question 5: What is the intended use for the 6-foot closet? Will this be a closet for clothing and gear or intended for other storage? Is 6 ft the height? Is there an expectation for width and depth?

Answer 5: The closet will be used to store clothes for someone having to work long term in the unit. It will need to be wide enough to hang clothes and store small clothing items and shoes.

Question 6: Do the murphy beds need to be concealed or just folding and locking?

Answer 6: The beds will not need to be hidden but must secure outboard to make room for storage as needed.
