RE: CEOI 0810 DMT2300000001 Tank Removal

Dear Mr. Pauline,

Alpha Associates, Incorporated team is pleased to submit our qualifications to provide engineering services for the Tank Removal project. We have established a strong team for this project and Alpha's past experience with similar projects makes us a perfect teaming partner for you. We have conducted similar services on projects throughout our history.

Since 1969, Alpha has provided engineering design services throughout the State of West Virginia. This project will be produced from our Morgantown office. We have worked with many local, state and federal government entities on numerous projects of varying sizes and types.

Alpha is a West Virginia owned and operated engineering firm with a more than 52-year history throughout the State of West Virginia. Throughout our history, we will have provided the most cost-effective designs and ensured the projects are completed in an efficient manner with the necessary approvals in a timely manner. Our experience makes us the perfect partner for your needs.

Alpha Associates, Incorporated is committed to providing the Tank Removal project with a dedicated team of professionals who will make your project a priority. Our staff has the experience, expertise, and capacity to handle all your project needs.

Thank you again for the opportunity to submit this Expression of Interest. We appreciate your time and consideration. If you have any questions or require additional information, please call me at 304-296-8216 extension 102.

Sincerely,

ALPHA ASSOCIATES, INCORPORATED

STATEMENT OF QUALIFICATIONS.

Alpha Associates, Incorporated is a West Virginia based architectural and engineering design firm that provides services in the areas of architectural design, interior design, construction administration, civil engineering, structural engineering, landscape design, project management and surveying. Our clients benefit from our unique combination of extensive design and construction experience, advanced technological tools, dedicated principals and highly skilled staff members. Our work is diverse and includes clients in commercial, educational and government facilities, developers and private organizations.

Since 1969, Alpha has provided architectural and engineering design services throughout the state of West Virginia. We have worked with many local, state and federal government entities on numerous projects of varying sizes and types. Our team of engineering professionals has recent, relevant experience in the preparation of civil/site plans and infrastructure planning and design. In this proposal, you will find examples that showcase the Alpha Team's exceptional project experience on similar types of projects.

Alpha had the knowledge and understanding in design and construction to complete this project seamlessly, from the initial project inspections to the development of plans. The Alpha team will be your expert for this project.

Alpha's philosophy has always been to provide exemplary services to fair fees. We have always believed that the best way to succeed as a business is to go above and beyond the basic requirements of our contracts and do everything necessary to successfully complete the given project. What is best for the client is inevitably best for us too.

Everyone at Alpha, from the President to the administrative staff, all work towards the goal of completing successful projects. Our principals are involved with the projects from the earliest stages right through the final completion and beyond. They will consistently update you on your project by using effective communication tools to manage the projects and all the involved parties. Our skilled staff of twenty one (21) architects, engineers, surveyors and administration personnel all work diligently towards producing drawings and specifications that will deliver our clients successful projects, completed on time and within budget.

Alpha has thrived for over 52 years, because we are a professional organization dedicated to providing superior architectural and engineering design services to our clients. While our staff is large enough to handle any size project, we are also small enough to give each and every one of our projects the individual attention to detail that will make them successful projects for our clients.

THINK ALPHA FIRST.

SCHEDULE AND BUDGET.

Alpha Associates, Incorporated has an excellent track record of producing projects on time and within the Owner's budgets. Many A/E firms can claim the same successes, but the determining factor is the tools the firms utilize to achieve the budgets, both in regards to funds at the time. Alpha utilizes a number of tools, both traditional and modern to exceed our client's expectations.

A project schedule is a dynamic, ever changing entity. Your project schedule depends on many factors including:

- Preferred construction method
- Changes to project scope
- Unique construction elements

The Alpha Team had an excellent track record of meeting project deadlines. Alpha recently completed construction on a project in Morgantown that went from design to completion in just over 12 months. This project was completed for a private developer that had a construction cost in excess of \$20 million.

Successful Project management depends on consensus regarding work efforts, milestones and goals. The team had found the development of detailed work plans, which delineate tasks and deliverables for each project phase, in concert with the client and full project team, is the most effective means of establishing expectations about efforts required by the respective disciplines. In addition to guiding the efforts of the design team, the work plan sets forth specific time frames and decision points for Owner and user reviews, comments and approvals.

Developing an overall project schedule is a critical task that must take into account many factors: building type, owner's desire for occupancy, scope of work and level of documentation, whether contract(s) is bid or negotiated, available fee, and experiences on similar projects. Once the design process begins, a very detailed, realistic project schedule can be developed and communicated to all involved.

In a world where "time is money", the schedule of a project is almost as important as controlling the cost. Alpha works diligently to control the budget of the project. The best way to control the cost of a project is to avoid the "scope creep" that can occur.

Alpha's in house cost estimators, combined with an excellent relationship with contractors throughout the area will provide the client with the most accurate estimates early in the design process. The Alpha estimators begin at the schematic design phase of the project and develop a line item estimate of probable construction costs that can be carried through each of the project phases. At each phase the project estimate is updated to include a more detailed estimate in order that the accuracy can be enhanced. During these updated estimates, specific increases or decreases can be identified allowing the owner to make informed decisions moving forward on important budget issues for the project

Many projects employ the use of alternatives to control the budget through obtaining actual contractor pricing during the bid process. This allows flexibility for the owner in determining the costs of portions of the project that may be optional and critical for budget control.

CAPACITY AND SOFTWARE.

OUR CAPABILITIES

Alpha Associates, Incorporated is prepared to commit staff and resources to your project. Alpha has the qualified and experienced personnel, administrative support, along with the production equipment and resources to ensure the successful completion of this project. We are confident in our ability to provide you with a committed and dependable design team. Our multidisciplinary design team is prepared to meet and exceed the expectations for your project by committing any resources necessary to meet the project schedule.

USING THE LATEST SOFTWARE

The project team incorporates the latest computer and software capabilities required to complete the working drawings and specifications of this project. Our cost accounting system is top-of-the-line and we have the ability to differentiate fees according to task. We have secure e-mail and internet capability to allow efficient transfer of information between Alpha and the client. We currently have the latest editions of the following software:

- AutoCAD22
- REVIT (Editions up to 2022)
- Civil 3D
- RISA 3D
- RISA Floor
- RISA Foundation
- MathCAD
- DJI Phantom 4 RTK Drone
- Autodesk Suite
- Enercalc
- AutoTURN
- TopCON GR5 GPS System
- TopCon Total Station with Reflectorless Capabilities
- Carlson Surveyor & Data Collector

FUNDING EXPERIENCE.

Throughout our 52 years of business, Alpha Associates, Incorporated has worked with multiple funding agencies on projects, including State and Federal dollars. Our funding experience includes:

- State and Federal ARRA Funds
- West Virginia Infrastructure Loan Program
- HUD Grants and Loans
- West Virginia Economic Development Grants and Loans
- Transportation Enhancement Grants
- West Virginia State Historic Preservation Office Funds
- Small Cities Block Grants
- Tax Increment Financing
- BIG Grant (Boating Infrastructure Grant)
- USDA Rural Development/Rural Utility Service- Grants and Loans
- ARC
- School Building Authority of West Virginia
- WV DEP Revolving Loan Fund
- WV Bureau of Health Clean Water Loan Fund
- Private Bond Sales

KEY PERSONNEL.

TO BE ASSIGNED TO YOUR PROJECT

All work performed for the Tank Removal will be managed out of Alpha's Morgantown office. In addition to your dedicated project team, Alpha's staff of 21 includes engineers, architects, architectural designers, technicians and support staff that are available to assist you with any potential project need.

EAST MARTIN STREET UTILITY REPLACEMENT AND REPAIR

Martinsburg, WV; 2020

At a Glance:

CLIENT: City of Martinsburg
LOCATION: Martinsburg, WV
COMPLETION DATE: 2020
CONSTRUCTION COST: \$592,955
PRINCIPAL IN CHARGE: Richard W. Klein

Project Contact:

Mark Baldwin
City of Martinsburg
232 North Queen Street
Martinsburg, WV 25401
304-264-2131

Alpha provided professional surveying and engineering services for the replacement of Water and Sewer Utilities, in advance of the construction for the Martin Street Train Station Corridor Project. The project also included new storm drains to rectify long standing drainage problems.

Project included the topography survey of the existing water and sewer utilities, updating Existing Conditions Plan, the design of the replaced utilities, construction drawings and construction documents for bidding. Project also included the slip-lining of the existing sanitary sewer system. Construction phase services included construction stakeout services and full time inspection

POINT MARION WATER TREATMENT REPAIRS

Point Marion, PA; 2020

At a Glance:

CLIENT: Borough of Point Marion
LOCATION: Point Marion, PA
COMPLETION DATE: 2020

Project Contact:

Julie Casteel, President
426 Morgantown St.
Point Marion, PA 15474
724-725-9560

Alpha developed a preliminary design and costs estimate to address a leak in the freshwater basin to obtain grant funding. After initial inspection the decision was made to replace both the freshwater and backwash basin. Additional deficiencies discovered led to removing excess sludge from the backwater basin and repairs to the Trident Filter systems. Alpha provided all designs and construction administration for the project.

Repairs to the Trident Filter Systems include:

- Removal and disposal of all media
- Cleaning and painting of interior surfaces of the tanks
- Inspection of all components
- Replacement of all filter media with new

Alpha filed an emergency permit application to accelerate the construction. After construction, Alpha will perform an interior inspection of the tanks to ensure underdrains and nozzles are operating. Alpha will then file a complete permit application to allow future operation of the water treatment plant.

OAK STREET BRIDGE UTILITY RELOCATION

Martinsburg, WV; 2017

At a Glance:

CLIENT: City of Martinsburg
LOCATION: Martinsburg, WV
COMPLETION DATE: 2017
CONSTRUCTION COST: \$554,301.00
PRINCIPAL IN CHARGE: Richard W.
Klein

Project Contact:

Mark Baldwin
City of Martinsburg
232 North Queen Street
Martinsburg, WV 25401
304-264-2131

Alpha Associates provided engineering services for the relocation of utilities to enable the construction of the new Oak Street Bridge by the WVDOH.

The project involved the following:

- Relocation of Water Main
- Relocation of Sanitary Sewer Main
- Construction of New Sewage Pump Station
- Elimination of a Private Grinder Station

The construction of this project consisted of approximately 591' of 8" PVC Sewer, 101' of 8" DIP Sewer, 65' of 4" DIP Force Main, 6 Manholes, 389' of 8" DIP Water Line, 1 Submersible Sewage Lift Station, Miscellaneous Connections, Surface Restoration and Appurtenances.

BOROUGH OF POINT MARION

Point Marion, PA; 2011

At a Glance:

CLIENT: Borough of Point Marion

LOCATION: Point Marion, PA

COMPLETION DATE: 2011

SIZE: 25,000 LF 2" through 12"
waterline

CONSTRUCTION COST: \$2.1 Million

Project Contact:

Arthur J. Strimel

426 Morgantown St.

Point Marion, PA 15474

724-725-9560

Alpha Associates, Incorporated prepared a preliminary engineering report for the replacement of approximately 25,000 LF of water line and related appurtenances, as well as improvements to the treatment plant and water storage tank.

HEAR FROM OUR CLIENTS.

J. Paul Walden
West Virginia University

Alpha Associates have a proven record of customer satisfaction and successful client delivery with our organization. We would be confident in our recommendation in support of Alpha.

Robert Hammel
Former Director
Morgantown Municipal Airport

Every aspect and detail of [Alpha's] planning, coordination, and completed projects have been exceptional and outstanding in every regard.
