Experience:

A total of forty-four years of active public utility work experience, thirty-nine with private electric/gas utilities and five years with a state utility regulatory commission. Private utility work experience involved five years of active electric distribution engineering, five years supervising transmission and distribution engineering functions, two years supervising utility customer service operations, and twenty-seven years managing and supervising State and Federal rate and regulatory activities involving compliance with regulatory policy, the preparation of gas and electric utility cost-of-service studies, rate design, rate analysis and case preparation for presentation to utility regulatory commissions. Provided expert testimony in numerous proceedings before the Michigan Public Service Commission (MPSC), the Virginia State Corporation Commission (VSCC), the West Virginia Public Service Commission (WVPSC), and the Federal Energy Regulatory Commission (FERC).

State Regulatory experience involved five years managing and directing the functions of the "Utilities Division" of the WVPSC with respect to regulated electric, gas, water, wastewater, telephone, communications, and motor carrier matters.

Work History:

- 1970 – 1975 Distribution Engineer for Appalachian Power Company – Beckley, WV: Work involved the design, and operation of distribution lines and substations with a focus on circuit coordination and protection.
- 1976 – 1980 Engineering Supervisor for Michigan Power Company – Three Rivers, Michigan: Responsible for supervising the layout and design of all electric transmission and distribution facilities in the Company's service territory.
