PROFESSIONAL SUMMARY:

- Over 15 years of experience working in the Financial, Insurance, Telecommunication industries and the Government sector as an Architect/Administrator for SQL Server, SharePoint, Project Server and Splunk.
- Supported Four Web Farms and SQL Server having over 5TB of databases and over 5000 users in a 24X7 Environment.
- Worked as Subject Matter Expert (SME) for SQL Server, Integration Services, and Reporting Services and Quest LiteSpeed.
- Extensive experience with Windows clustering and supporting Over 1500 instances of SQL Server installed on a cluster.
- Testing and planning for deployment service packs and cumulative/security updates to the development.
- Creating Production, Test/QA and Development Environments and Moving Code and data between these environments.
- Providing 3rd level support and working with Microsoft Premier Third Tier Support
- Expert in making performance base line and tracking and optimizing system performance, Network, and storage utilization.
- Working with Business and planning and implementation of Backup policies
- Planning and testing migration to higher release from Microsoft
- Expert in planning and implantation of DR policies and infrastructure
- Writing STSADM, PowerShell, T-SQL and VB Script for System administration and monitoring.
- Expert in tuning and optimization of SQL Server
- Working experience writing SSRS/ DTS and SSIS packages for the applications and System Administration
- Deployment of code/changes and 3rd party applications, from Development/Test/QA and Production Environments.
- Installation and configuration of SharePoint and SQL Server with clustering.
- Expert in Writing Technical Documentation for the team members and Business users.
- U.S. Citizen.

EDUCATION:

Thapar Institute of Engineering & Technology, Patiala, Punjab, India
Master of Engineering in Computer Science
1992

CERTIFICATIONS:

- DP-900: Microsoft Azure Data Fundamentals
- Microsoft Certified Solution Developer (MCSD)
- Microsoft Certified Data Base Administrator (MCDBA)
- Microsoft Certified System Engineer (MCSE)
- Project Management Institute (PMI) – PMP
- Certified Information Systems Security Professional (CISSP)

AREAS OF EXPERTISE:

- <u>O/S</u>: Windows 2022/2019/2012/2008/2003/2000 Enterprise and Datacenter, Windows 7/10
- <u>RDBMS</u>: MS SQL Server 2000/2005/2008/2012/2014/2017/2019/2022
- <u>Hardware</u>: HP, Compaq, Dell, IBM
- <u>Software/Tools</u>: SQL Server Management Studio, Business Intelligence Development Studio (BIDS), SharePoint Portal Server 2003 (SPS2003)/2007/2010/2013/2016, WSS3.0, SSRS 2008 R2, 2012, 2014, 2016, 2019, 2022, SSIS, Visual Studio 2005/2008,2017,2019,2022, Microsoft Access 2007,2010,2023,2016,2019,2021, DocAve, C++, C#, T-SQL, PowerShell 5,6,7, VBScript, Enterprise Manager, DTS, SSIS 2005/2008/2012/2014/2017/2019/2022, SQL Compare and SQL Data Compare, Splunk, Microsoft Visual Studio Team Foundation Server 2010. Microsoft Dynamics, Zoho
- <u>Backup</u>: Veritas NetBackup, EMC (Time Finder), IBM Tivoli, LiteSpeed

EXPERIENCE:

Ebix, Islin, NJ; Pasadena, CA   **09/21 – Present**
<u>Senior SQL Server Database Engineer/ Administrator</u>

- Supporting 24X7 SQL Server Production environment in shifts, including remote/offshore teams.
- Review the existing environment for performance and security compliance.
- Upgrading from SQL Server 2008/2012/2014/2016/2017/2019 to SQL Server 2022.
- Backup, restore and disaster recovery of SQL Server databases.
- Performance monitoring and tuning of SQL Server for high workload applications like SharePoint and Project Server.
- Develop and test the SQL Server upgrade plan from SQL Server 2017 to SQL Server 2019/2022.
- Comparing the SQL Server instances data and schema using SQL Compare and SQL Data Compare.
- Evaluation & Installation of Security update, Cumulative updates and service packs and hardening the SQL Server Clustered and Always ON environments.
- Generating, and reviewing non-compliance and deviation from the enterprise standards, reports.
- Performance monitoring and tuning of SQL Server and databases.
- Tuning of SQL Server Queries, optimizing the slow running queries using execution plan and SQL Profiler.
- Creating user, granting access and resolving access issues related to table, views, stored procedures.
- Installation, configuration & tuning of SQL Server in Cluster for high availability application.
- Supporting Azure SQL Database and related access issues.
- Configuration of SQL Server Clustering, AlwaysOn, Replication and Log Shipping.
- Framing backup policies to meet the Recovery Point Objectives (RPO) and Recovery Time Objectives (RTO).

Phone: (724) 820-1820 FAX: (724) 820-1828

- Database backup and restore of SQL Server databases from between different Environments.
- Configuring and managing database backups, snapshots and monitoring of system jobs and resolve related issues.
- Creating and modifying database maintenance for better performance.
- Troubleshooting SharePoint, Project application Servers slow response related to SQL Server using databases 2010/2012/2014/2016/2017/2019 and 2022.
- Worked with SSIS, SSRS, SSAS and Power BI for building reports and dashboards and resolving user issues.
- Administration of SQL Server and databases using PowerShell
- Resolving day to day application and user issues.
- Performing backup and restore of databases and point in time recovery.
- Creating Enterprise Security compliance dashboard to locate the non-compliance servers using Splunk.
- Review the existing environment for performance and security compliance.
- Backup, restore at disaster recovery site of SQL Server databases and resolving application issues.
- Performance monitoring and tuning of SharePoint/SQL Server.
- Develop and test the SQL Server upgrade plan from SQL Server 2017 to SQL Server 2019/2022.
- Comparing the SQL Server instances data and schema using SQL Compare and SQL Data Compare.
- Installation of Security update, Cumulative updates and service packs and hardening the SQL Server Clustered and AlwaysOn environments.
- Generating, and reviewing non-compliance and deviation from the enterprise standards, reports.
- Database backup and restore of SQL Server databases from between different Environments.
- Creating ETL process to import data from CRM Systems, Microsoft Dynamics, Zoho and Microsoft Access using Microsoft SQL Server Integration Services 2019 and 2022 using Visual Studio 2017, 2019, 2022.
- Building reports using Microsoft SQL Server Reporting Services 2019 and 2022.
- Good understanding of C#, ADO.NET and ASP.NET framework.
- Configuring and managing database backups, snapshots and monitoring of system jobs and resolve related issues.
- Creating Enterprise Security compliance dashboard to locate the non-compliance servers using Splunk.
- Providing training to business users and technical team members.

Nuclear Regulatory Commission & Ebix, Rockville, MD   **12/14 – 08/21**
Senior SQL Server/ SharePoint/Project Server Administrator
- Working with Business users to collect requirements.
- Review the existing environment for performance and security compliance.
- Upgrading from SQL Server 2012/2014/2016/2017/2019 to SQL Server Latest Versions.
- Backup, restore and disaster recovery of SQL Server databases.
- Performance monitoring and tuning of SharePoint/SQL Server.

- Using Data Migration Assistant to find data migration issues.
- Using System Configuration Checker to find post data migration issues.
- Develop and test the SQL Server upgrade plan from SQL Server 2017 to SQL Server 2019.
- Comparing the SQL Server instances data and schema using SQL Compare and SQL Data Compare.
- Installation of Security update, Cumulative updates, and service packs.
- Generating, and reviewing non-compliance and deviation from the enterprise standards, reports.
- Performance monitoring and tuning of SQL Server and databases.
- Tuning of SQL Server Queries, optimizing the slow running queries.
- Installation & configuration of SQL Server in Cluster environment and supporting.
- Configuration of AlwaysOn, Replication and Log Shipping.
- Providing 24X7 production support in shift rotation.
- Database backup and restore of SQL Server databases from between different Environments.
- Installation & upgrading Project Server 2016 and SharePoint Server 2016.
- Troubleshooting SharePoint, Project application Servers slow response related to SQL Server databases 2010/2012/2014/2016/2017/2019 and 2022.
- Resolving day to day user issues.
- Migration of SQL Server from on prem to Azure cloud.
- Supporting SQL PASS databases,
- Performing backup and restore of databases and point in time recovery.
- Creating Enterprise Security compliance dashboard to locate the non-compliance servers using Splunk and Administrator.
- Installation, configuration and supporting Splunk Enterprise.
- Providing training to business users and technical team members.

Ingersoll Rand/Thermo King, Bloomington, MN   **08/14 – 10/14**
Senior Project Server Developer/Administrator
- Migration of Project Server 2010 to Project Server 2013
- Review Capacity Planning and Performance of the Environment before and after Migration.
- Coordination with Offshore Development team.
- Review the Post Migration Reporting requirements.
- Review and tuning of SQL Server Reporting Services reports.
- Customization of Project Server as per the client Requirements.

Broadridge Financial Services, Deer Park, NY   **02/14 – 07/14**
Senior Project Server Business Analyst/Solution Architect/Developer/Administrator
- Analysis of existing environment from Business perspective, solution analysis and recommendations.
- Recommendation for better performance.
- Running various tools for the analysis of capacity and Performance analysis.
- Coordination and escalation with Microsoft Premier Support.

- Escalation contacts for all the business and technical team issues.
- Review customization and recommendation for better performance.
- Optimization and troubleshooting slow response while saving, checking in, publishing projects and view reports.
- Installation and configuration of Pre and post installation of Project Server including SharePoint, Project Server 2010/2013, SQL Server 2008R2/2012, IIS7, Excel Services, Visio Services, PowerPivot, Reporting Services and Fast Search. (Running on Windows 8 and Windows 8 R2)
- Testing and Installation of Service Pack, cumulative updates, and hotfixes.
- Monitoring and Troubleshooting identified, and user reported issues.
- Development of Reports for resource analysis and capacity planning.
- Configuration and troubleshooting users' issues with timesheets.
- Developing custom reports and dashboard using Reporting Services and Excel PowerPivot.
- Developing solution using Visual Studio 2010/2012/2013, .Net 2.0/3.5/4.5 and C#. Writing TSQL Queries/stored Procedures and functions.
- Formulating and Implementation of security policies.
- Installation configuration and customization of Project Server Environment.
- Up gradation of Project Server 2010 to 2013
- Working as SQL Server Database Administrators of SharePoint and Project Server performance optimization.
- Writing Technical documents and Training manual.

LPL Financial Services, Charlotte, NC   **10/13 – 01/14**
Senior Project Server Business Analyst/Solution Architect/Developer/Administrator
- Reviewing existing environment and make necessary changes to make sure it is built as per best practices from Industry and Microsoft.
- Working with various categories and levels of users to identify user requirements.
- Capacity planning, identifying appropriate Hardware and Software.
- Optimization and troubleshooting slow response.
- Installation and configuration of Pre and post installation of Project Server.
- Testing and Installation of Service Pack, cumulative updates, and hotfixes.
- Monitoring and Troubleshooting identified, and user reported issues.
- Training to Project Server Administrators, Resource and Project Managers.
- Created various reports for resource analysis and capacity planning.
- Configuration and troubleshooting users' issues with timesheets.
- Developing custom reports and dashboard using Reporting Services and Excel PowerPivot.
- SharePoint and Project Server Administration and training to Administrators.
- Monitoring of Project Server. SharePoint Server and SQL Server. Troubleshooting User and Server related issues.
- Developing solution using visual studio, .Net and C#.
- Formulating and Implementation of security policies.
- Upgrading Project Server 2010 to 2013 as POC
- Writing Technical documents and Training manual.

- Evaluation of Nintex Workflow.

TSA, Arlington, VA   **05/13 – 10/13**
Senior Project Server Administrator

- Working with various organizations to identify project management challenges and building solutions to solve business problems.
- Performance tuning and resolving user's issues in Project Server and SQL Server environment.
- Document the environmental issues and review with leadership.
- Resolving users' issues related to Project Professional and Project Server.
- Creating standard reports, Educating and helping users in creating need-based reports.
- Monitoring the environment and enterprise resource pool, cleaning and achieving historical data.
- Troubleshooting Platform specific technical and user issue and coordination with Microsoft Escalation team to find a solution.
- User Management: Creating users, grating permissions, resetting passwords, resolving users' issues related to project and workspace access.
- Post installation customization of Project Server, Excel Services, Performance Services, and Reporting Services by following best practices. Creating views and reports for various categories of users i.e., End users, Project Managers, Resource Managers and Executives.
- Testing, deployment, and migration of solutions from Development, Test, QA, and Production Environments.
- Integration of Project Server with Microsoft Exchange, SharePoint, and Time Tracking System.
- Auditing and performance tuning of Project Server, Collecting environment performance and usage data, and review with key stakeholders and PMO.
- Optimization of SQL Server instances and database to support the heavy workload of 3TB SharePoint content database.
- Using SQL Server profiler and execution plan to find slow running queries and troubleshooting for better performance.
- Creating workflow for resource approval by stakeholders and resource managers.
- Archiving and recovering archived and deleted projects and workspaces.
- Understanding dynamic users' requirements and guiding them how to use Project Server to their full potential.
- Providing training to various categories of users i.e., Team Members, Project Managers, Resource Managers, Executives and Project Server Administrators.
- Writing instruction for Standard Operating Procedures (SOP).
- Writing technical documentation and training documentation.

Performance by exam section

Each section, and its corresponding percentage of the exam, appears to the left of the chart. The length of the bars represents your section-level performance. Shorter bars reflect weaker performance, and longer bars reflect stronger performance.

Describe Core Data Concepts (25-30%)

Identify Considerations for Relational Data on Azure (20-25%)

Describe Considerations for Working with Non-relational Data on Azure (15-20%)

Describe an Analytics Workload on Azure (25-30%)

0%   100%

Note: Because the number of questions in each section varies, the length of the bars cannot be used to calculate the number of questions answered correctly, and bars cannot be combined to determine percentage of questions answered correctly on the overall exam. If a bar is not displayed for a skill area, no questions were answered correctly in that section of the exam.

What do these results mean?

Congratulations!

You have passed this Microsoft Certification exam. For more detailed information on how to interpret your score report, next steps to earning your certification, and answers to frequently asked questions, please visit: http://aka.ms/score_FAQs

Frequently Asked Questions and Additional Information

Access program benefits at the Microsoft Certification Dashboard

The Microsoft Certification Dashboard (www.microsoft.com/learning/dashboard.aspx) is your portal for accessing benefits. You can login to your dashboard using your Microsoft Account (the same one you used to register for your exam).

When will I see my exam results?

You may expect your exam results to be displayed on your Microsoft transcript with 48 hours. If you do not see your results after 48 hours, please contact Microsoft's moderated for assistance. To reach a customer support agent, click Ask a question at the top of the page and fill out the form. A support agent should respond within one business day. Retain this report; you will need it for verification.

Want to continue improving your skills?

Visit Microsoft Learn at https://docs.microsoft.com. At Microsoft Learn, you'll find instructor-led training courses (aka.ms/MOC) taught by Microsoft Certified Trainers and free, interactive online learning paths (https://docs.microsoft.com/learn/browse) designed to help you continue learning and building your skills.

Or learn something new! You can browse all certifications and exams at http://aka.ms/browse_exams.

Exam satisfaction survey

We want your feedback! In a few days, you may receive an e-mail from microsoftresearch@surveysite.com asking you to complete a brief survey. Your feedback will be used to improve the quality of this and other Microsoft Certification exams. We value your input and appreciate your participation.

What do these results mean?

Congratulations! You have passed this Microsoft Certification exam. The information shown above indicates your relative performance on each section of this exam. We hope this information will help you determine areas, if any, for further skills development. For a complete list of skills measured on each section of this exam and available learning resources, please review this exam's preparation guide. To view this exam's preparation guide, visit: http://learning.microsoft.com/manager/catalog.aspx, and search the Microsoft Training Catalog for the exam by name or number.

Access Program Benefits at the MCP Member Site
The password-protected Microsoft Certified Professional (MCP) Member Site (https://www.microsoft.com/mcp) is your access point for downloading your certificate or logo, sharing your transcript with chosen individuals, or accessing community tools – all benefits of membership in the Microsoft Certification Program.

If this is your first Microsoft Certification Exam, expect an e-mail from Microsoft that provides your Microsoft Certification ID (MC ID) and Access Code for the MCP Member Site (https://www.microsoft.com/mcp).

When will I see my exam results?
Please note that it can take up to seven business days for passing results to be displayed on your Microsoft transcript. If you do not see your results within seven days, please contact a Regional Service Center (http://www.microsoft.com/learning/en/us/help/assisted-support.aspx) for assistance. Please retain this printed copy; you will need it for verification.

To learn more about the benefits of Microsoft Certification:
http://www.microsoft.com/learning/mcp/benefits/default.mspx.

For assistance with the MCP Member site, visit: http://www.microsoft.com/learning/en/us/certification/cert-
