The Purchasing Division will disclose any document labeled "confidential," "proprietary," "trade secret," "private," or labeled with any other claim against public disclosure of the documents, to include any "trade secrets" as defined by West Virginia Code § 47-22-1 et seq. All submissions are subject to public disclosure without notice.

22. WITH THE BID REQUIREMENTS: In instances where these specifications require documentation or other information with the bid, and a vendor fails to provide it with the bid, the Director of the Purchasing Division reserves the right to request those items after bid opening and prior to contract award pursuant to the authority to waive minor irregularities in bids or specifications under W. If the domestic aluminum, glass or steel products to be supplied or produced in a “substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

43. INTERESTED PARTY SUPPLEMENTAL DISCLOSURE: W. Va. Code § 6D-1-2 requires that for contracts with an actual or estimated value of at least \$1 million, the Vendor must submit to the Agency a disclosure of interested parties prior to beginning work under this Contract. Additionally, the Vendor must submit a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-work interested party disclosure, within 30 days following the completion or termination of the contract. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange. A more detailed definition of interested parties can be obtained from the form referenced above.

3.2.2 Material Transportation: The Agency expects that the Vendor shall source from the source nearest the Agency’s established delivery location. The Agency, at its own discretion, will decide the route to be taken due to bridge and/or other road restrictions utilizing “Google Maps” or a similar source.

3.2.3 Sampling And Testing for quality of all items furnished in this contract will be the responsibility of WVDOH. Minimum frequency of sampling and testing for quality on all materials (other than those sources already covered by the WVDOH’s “commercial source” approval) will be at least one sample every six (6) days of shipment (or if tested during production, at least one sample every six days of production). All samples taken by Vendor shall be by a Certified Aggregate Sampler or Certified Aggregate Inspector. Tests shall be performed by a Certified Aggregate Inspector. Other minimum frequencies shall be:

Gradation	(A-1 Source) One sample per each week of shipment per MP 700.00.52, Guide for Source Rating System Relative to Maintenance Contracts, as amended; or if tested during production, one sample per each day of production. See 3.2.3.1.
	(A-2 Source) One sample per 250 tons shipped and a minimum of one per week shipment.
Moisture Content	See 3.2.3.2.

REQUEST FOR QUOTATION
Stone & Aggregate, Delivery to Established Locations

3.2.3.1 The vendor shall provide gradation test results attesting to the gradation of materials delivered. Gradation results from the production source will be acceptable. **Gradation test results shall be sent to the Materials Department of each District the aggregate was delivered to within 72 hours of delivery.** The WVDOH will enter the gradations into the AASHTO Wear Project (AWP) system within one week of receiving the gradations.

3.2.3.2 In the event visual inspection of the aggregate indicates excess or unusual moisture beyond what is normally expected in the aggregate, the WVDOH reserves the right to determine moisture content by standard methods per established Division procedures. If this becomes necessary, the net weight of portion represented will be adjusted utilizing test results obtained by WVDOH per MP 700.00.22. Abrasives and Steel Slag Items will be considered fine aggregate as outlined in MP 700.00.22.

3.2.4 Acceptance Plan: Per Standard Specs 703, crushed stone shall consist of particles of clean, hard, tough, durable rock, free from adherent and foreign material. Acceptance for gradation shall be based on test results, provided, and certified by Vendor to be true test results and representative of the material supplied to WVDOH, on consecutive random samples from a lot. A lot shall consist of a quantity of material represented by an average value (not to exceed 5 sub-lots). A sub-lot shall consist of the quantity of material represented by a single gradation test. When only one sample is taken to represent the total quantity, the sub-lot and lot will be considered the same. Frequency of sampling and testing shall be per Vendor's quality control plan outlined in MP 700.00.51 Guide for Quality Control and Acceptance Plans for Purchase Order Contracts for Stone and Aggregate, as amended. Vendor shall provide gradation test results to the Agency within 72 hours.

3.2.4.1 Sampling Testing & Evaluation: As per Standard Specs 704, the Agency reserves the right to have materials sampled, tested, and evaluated material deliveries. If material fails to comply with WVDOH quality requirements, the Agency, at its own discretion, shall notify Vendor that the nonconforming material will not be accepted and shall be removed and replaced at Vendor's expense, or at the option of the ordering Agency, may be left in place with reduced payment.

At the discretion of the Agency, material failing to comply with the quality requirements will not be accepted. Acceptance for gradation shall be based on test results, provided, and certified by Vendor to be true test results and representative of the material supplied to WVDOH, on consecutive random samples from a lot. A lot shall consist of a quantity of material represented by an average value (not to exceed 5 sub-lots). A sub-lot shall consist of the quantity of material represented by a single gradation test. In the case where

REQUEST FOR QUOTATION

only one sample is taken to represent the total quantity, the sub-lot and lot will be considered the same. Frequency of sampling and testing shall be per the Vendor's quality control plan outlined in MP 700.00.51, Guide for Quality Control and Acceptance Plans for Purchase Order Contracts for Stone and Aggregate, as amended. Vendor shall provide the gradation test results to the WVDOH within 72 hours.

Gradation test results shall be averaged per MP 300.00.51, Procedural Guidelines for Maintaining Control Charts for Aggregate Gradations, as amended. When the average falls outside the applicable limits, the entire lot of material represented thereby will be considered non-conforming to the extent that the last of its sub-lots is non-conforming. When a lot of material is nonconforming, then the last sub-lot contained therein shall have its degree of non-conformance determined as set forth below.

3.2.4.2 Non-Conformance Price Adjustment: When a sub-lot of material is to have its price adjusted, the percentage point difference between the non-conforming test value and the specification limit shall be determined for each sieve size determined to be non-conforming, and this value shall be multiplied by its appropriate multiplication factor as set forth in Table 1. The total measure of non-conformance of an individual sub-lot is the sum of all non-conformances on the various sieve sizes of that sub-lot. In no case, however, shall a sub-lot of material have its price adjusted more than once, and the first adjustment determined shall apply. When the total degree of non-conformance has been established and it is 12 or less, the material will be paid for at an adjusted contract price as specified in Table 2.

Table 1

Non-Conforming Sieve Size	Multiplication Factor
Plus #40	1
#40	1.5
#50	1.5
#100	2.0 (1.3 for Abrasives & Cinders)

5.1 TO 8.0	7
8.1 TO 12.0	11
Greater than 12	*

*WVDOH will make a special evaluation of the material and determine action.

3.2.4.3 Non-Conforming Sub-Lots: If the Vendor delivers a specific quantity of material from a stockpile, and said quantity is less than the total quantity contained in the stockpile, and it has been determined from this certified test data that a non-conforming sub-lot(s) is contained in said stockpile, the price reduction shall be calculated for the specific quantity as follows:

The percent price reduction shall be determined as set forth above for the non-conforming sub-lot. The quantity represented by the non-conforming sub-lot shall then be calculated as a percent of the total (total material contained in the stockpile). To determine the price reduction on the specific quantity delivered, multiply the percent of non-conforming material contained in the stockpile by the quantity delivered, and reduce this quantity by the percent price reduction as determined.

EXAMPLE:

If it has been determined that a stockpile of 100 tons contains 10 percent failing material, and said material is to have its price reduced by 4 percent, then the actual quantity delivered, say 15 tons, will be multiplied by 0.10 (10 percent failing material) which equals 1.5 tons. These 1.5 tons will thus have its price reduced by 4 percent. The remaining 13.5 tons will be paid for at full contract price.

$$TD \left(1 - \frac{PQ_n}{100Q_t} \right) = AP \text{ (price to be paid after adjustment)}$$

WHERE

- T = tonnage delivered
- P = percent price reduction
- D = cost per ton
- Q_n = quantity of non-conforming sub-lot(s)
- Q_t = quantity of total stockpile

REQUEST FOR QUOTATION
Stone & Aggregate, Delivery to Established Locations

AP = adjusted payment

If two sub-lots are non-conforming within the stockpile, calculate each separately for the adjusted payment on the quantity delivered (as above). Add these two adjusted payments together and subtract from the total the price to be paid before adjustment for tonnage delivered (TD). If three sub-lots are non-conforming, calculate each separately and subtract twice the price to be paid before adjustment for tonnage delivered, and so on.

EXAMPLE:

$(AP1 + AP2) - TD = \text{Final price to be paid after adjustments}$

OR

$(AP1 + AP2 + AP3) - 2 TD = \text{Final price to be paid after adjustments}$

WHERE: AP = price to be paid after initial adjustment for one non-conforming sub-lot determined by the above equation.

3.2.5 Continuous Stockpile: In the event material is delivered from a continuous stockpile, that is, a stockpile which is continuously being replenished while also having material removed for these applications, certification shall be based on the shipment samples.

3.2.6 Weighing Materials Delivered by Modes of Transportation Other Than Trucks: Materials delivered to the designated site by barge, or other non-truck modes shall have their weight determined by a means acceptable to the Agency, and the weights of such materials shipped shall be certified, by Vendor or its authorized agent, to be correct. The minimum barge delivery requested will be approximately 6,500 tons per the order. When barge delivery is required, Contract Items will be ordered in 1,500-ton increments.

3.2.7 Emergency Requests: Emergency requests as ordered by WVDOH District Engineer, or their designee are orders which shall be initiated within 24 hours from when the order is received by the Vendor, therefore a rushed response with goods or service delivery is required. The determination of emergency work will be in accordance with Section 2.6 of this Solicitation and prominently noted on ADO. Designated emergency requests will be paid at 1.50 times the Vendors bid price. To facilitate payment, the Agency should include the word "Emergency" order on its ADO to denote its calculation of pricing at the emergency rate.

4. CONTRACT AWARD:

4.1 Contract Award: The Contract is intended to provide Agencies with a purchase price on all Contract Items. This is a multiple vendor award contract. All qualified

REQUEST FOR QUOTATION
Stone & Aggregate, Delivery to Established Locations

responsible Vendors shall be awarded a contract for those Contract Items bid which meet all mandatory requirements of this Contract. **Failure to submit both ATT A and ATT B will result in the disqualification of the entire bid.**

4.1.1 Determining Low Bid Per Project: To determine the low bid vendor for individual projects, the WVDOH District Engineer or their designee will calculate the lowest overall total cost of the Contract Items required for individual projects. A written ADO will be issued to the Vendor with the lowest overall total cost. The Vendor shall factor delivery FOB, to delivery location designated on the Pricing Pages into their bid price; no separate delivery charge will be permitted. If the low bid vendor is unavailable to accept the work, or the low bid vendor is already performing work for DOH and there is more work than one vendor alone can accomplish within the time frame required, another vendor may be offered work per the process established in Section 6.1.

WVDOH reserves the right to request any one or combination of Contract Items for which bids are awarded at the lowest overall total as set forth in this section.

4.2 Pricing Pages, Attachment A (“ATT A”): Vendor shall complete the Pricing Pages by providing a bid price for each Contract Item listed which they offer. The Pricing Pages are broken down into tabs for WVDOH by Districts and the WV Adjutant General’s Office/WV Army Reserve National Guard within the ATT A spreadsheet. Vendor may bid on any or all Contract Items and any or all locations listed. Vendor shall factor into their bid prices any related overhead expenses, equipment, materials, and delivery to established location when calculating their bid price for each Contract Item. Vendor shall complete the Pricing Pages for each Contract Item bid in their entirety as failure to do so may result in Vendor’s bids being disqualified. All bids or pricing submitted shall be held and honored by the Vendor for 90 days after the bid opening date.

The Pricing Pages contain a list of the Contract Items with no guarantee that any Contract Item will be purchased throughout the life of this contract. Estimated quantities are not available.

4.2.1 Vendor should type or electronically enter the information into the Pricing Pages spreadsheet to prevent errors in the evaluation. In most cases, the Pricing Pages are available in wvOASIS within the solicitation attachments, however, Vendors may request an electronic copy of the Pricing Pages spreadsheet for bid purposes by sending an email request to the following address: John.W.Estep@wv.gov

- 4.2.2** Submitting Pricing Pages other than those provided with this solicitation, as described in Section 4.2, such as pricing pages from a previous solicitation, shall result in the disqualification of the Vendor's bid in its entirety.
- 4.2.3** Vendor shall supply its pricing with corresponding plant source and storage site information for all Items bid.
- 4.2.4** Changing a column or row description, Contract Item description, unit of measure on the **Pricing Pages, Attachment A (ATT A)** shall result in the disqualification of Contract Item bid on the altered line.
- 4.2.5** Vendor entries of bid prices or other notations made in wVOASIS commodity line descriptions will not be considered for bid evaluation or award.
- 4.2.6** **Failure to submit ATT A and ATT B with bid submission will result in the disqualification of the Vendors entire bid.**
- 4.3** **Source Information Form, Attachment B (ATT B)**, provides material source details and is due with the Pricing Pages (ATT A) at the time of bid submission. ATT B shall provide details as requested for each plant sourced with plant name details to correlate with pricing bid on ATT A. Vendor may list multiple source and storage sites on ATT B. The Vendor's ATT B shall exclude no locations pertinent to its Contract Items bid.
