Responses to Questions from Vendors

Question 1

In regards to solicitation CRFQ-0803-DOT2400000055-1, is there a minimum tonnage order for delivery? To provide consistent, fair and accurate pricing, it would be helpful to have a minimum order for purchase as most trucking rates are based per hour. With this in mind, spreading the transportation cost over 1 to 25 tons is going to drastically impact the price per ton. Please advise.

Answer 1

This contract does not have a minimum set quantity per delivery. The Pricing Pages contain a list of Contract Items and estimated purchase volumes. The estimated purchase volume for each item represents the approximate volume of anticipated purchases only. No future use of the Contract or any individual item is guaranteed or implied.
