3. GENERAL REQUIREMENTS:

- 3.1 **Standard Specifications Roads and Bridges:** The following Standard Specs Sections shall apply, as applicable, to the administration of this contract: 101, 102, 103, 104, 105, 106, 107, 108, 109, and 110, as amended.

Materials, equipment, and performance of this contract shall conform to, but are not limited to, the requirements of Section 401, as amended.

Free electronic copies of the Standard Specs and Supplementals are available at: <https://transportation.wv.gov/highways/TechnicalSupport/specifications/Pages/default.aspx>. Hard copies of these publications may be purchased from the Technical

Support Division by completing the Specification Order Form provided within the website.

- 3.2 Contract Items and Mandatory Requirements:** Vendor shall provide Agency with the Contract Items listed below on an open-end and continuing basis. Contract Items must meet or exceed the mandatory requirements as shown below.

3.2.1 Asphalt Material - Contract Items 1 through 17 are considered asphalt material. Material from this contract SHALL ONLY be purchased when the pick-up of those materials is by WVDOH forces or other agency as described in Section 5.3.

3.2.2 Plant Run Asphalt - Contract Item 18 may be substituted for **Contract Items 1 through 17** only when the use of Plant Run has been requested by the WVDOH District Engineer, or their designee, having determined that the Plant Run material is suitable for use; and only when all other equivalent items of material are not available. All Plant Run material shall meet the Standard Specs, or in instances where the Plant Run material was produced for a neighboring state, must meet the specifications of the adjacent state highway department, unless otherwise deemed acceptable by the WVDOH District Engineer, or their designee.

3.2.3 Performance Graded Binder - Contract Items 19 through 21 are surcharges to compensate the Vendor for supplying Asphalt when PG Binder is substituted for the standard binder.

3.2.4 ESAL Surcharge - Contract Items 22 and 23 are surcharges to compensate Vendor for supplying other necessary aggregates or mix types when the asphalt design mix requires an ESAL rating of 3 million or greater. Mixes requiring less than 3 million ESAL's do not qualify for this surcharge.

3.2.5 Seasonal Readiness: It is WVDOH's intention that WVDOH forces shall commence spring pothole patching as early as the weather permits and once started, early pothole patching work shall be continuous, as weather permits. Awarded Vendors should have their asphalt plant(s) operational and available for asphalt production, upon WVDOH request and weather permitting, no later than March 16th. As per Section 7.1, if the low bid Vendor is not operational and available for asphalt production, WVDOH will consider this as a Delivery Order refusal, and the WVDOH will obtain the goods or services from the next low bid Vendor who is available.

3.2.6 Off-Season Plant Opening - Contract Items 24 and 25 are necessary if a Vendor is required to open their plant in the off-season to service the needs of the WVDOH, in which case an additional payment will be made. The Vendor will be paid an additional day charge for each additional

REQUEST FOR QUOTATION
Asphalt Material Pick Up by Agency

consecutive day that the plant is open after the first day to service the needs of the WVDOT. If the plant produces no material for any use on any calendar day, either during the week or on the weekend, the WVDOT will pay the first day rate for off-season plant opening on the next day of the WVDOT usage. Payment for this item is subject to the following conditions:

3.2.6.1 Payment for this item can only be authorized and made during the winter months, i.e., between December 15th and March 15th, and then only if the plant would not have otherwise been open. These dates may be revised by the WVDOT District Engineer or their designee, if necessary, to meet specific needs in the field. Any such revision of dates will be in writing and shall be attached to the Vendor's invoice at the time payment is requested.

3.2.6.2 Payment will always be made at the full contract awarded bid price for the first day of plant opening; however, the amount paid from each additional day of plant opening will be reduced as follows:

3.2.6.2.1 Payment for additional day charge will not be made if the plant has produced over 500 tons on that day. If between 300 and 500 tons have been produced, payment for additional day charge will be made equal to one-half of the contract awarded bid price for the additional day charge. The quantity produced to make this determination shall include all material produced that day, which includes tonnage bought by the WVDOT, other local governments and all private work.

3.2.6.2.2 The WVDOT will only pay its share of the amount determined to be due for additional day charge as described above. For example, if the plant produces 375 tons and the WVDOT takes 150 tons of the total, 40% of the plant's daily production, payment for additional day charge would be calculated as follows: Since the total daily production is between 300 and 500 tons, the Vendor is due 50% of the additional day charge. Because the WVDOT's share of this daily production is 40%, the WVDOT would pay 40% of one-half of the additional day charge, or in this case, 20% of the additional day charges.

3.2.6.3 A certified statement shall accompany the invoice stating the total quantity produced on the additional day. If payment does not qualify due to tonnage produced, the next consecutive day of plant

operation, if any, will qualify for payment at the additional day rate rather than the first day rate for plant opening.

- 3.3 Price Adjustment of Asphalt Cement:** Due to the uncertainty in estimating the cost of petroleum products that will be used during the life of this contract, adjustment in compensation for **Contract Items 1 through 18** is provided for in the Standard Specs Section 109, as amended. Refer to the table in Figure 3.1.

- 3.4 Price Adjustment of Fuel Oil No. 2 (Diesel Fuel):** Due to the uncertainty in estimating the cost of diesel fuel that will be used during the life of this contract, adjustment in compensation for applicable items shall be per Standard Specs 109.9, as amended, with the exception that Factor “C” in the Price Adjustment for Fuel formula is to be broken down by component, as shown in Figure 3.2.

The Price Adjustment for Fuel formula to be utilized for this contract is:

$$Pa = [(Mbp \div Cbp) - 1.00] \times Cbp \times C \times Q$$

Where: Pa = Price Adjustment

Mbp = Monthly base price at time of placement

Cbp = Contract Base Price at time of bidding

C = Cost Adjustment Factors per Unit, as per Figure 3.2

Q = ‘As Constructed’ Quantity

Compaction quality control shall be in accordance with Section 401 of the Standard Specifications. Acceptance testing shall be the responsibility of the WVDOH. Quality assurance of the material shall be as set forth in MP 401.02.27 for Marshall Mix designs or MP 401.02.29 for Superpave mix designs. 5. CONTRACT AWARD:

- 5.1 **Contract Award:** The Contract is intended to provide Agencies with a purchase price on all Contract Items. All qualified responsible Vendors shall be awarded a contract for those Contract Items bid which meet all mandatory requirements of these contract specifications. The low bid vendor will be determined at the time of need.

- 5.1.1 **Determining Low Bid Per Project:** To determine the low bid Vendor for individual projects, the WVDOH District Engineer or their designee will calculate the lowest overall total cost of the Contract Items required for individual projects. A written Delivery Order will be issued to the Vendor with the lowest overall total cost. The WVDOH District Engineer or their designee shall factor in the proximity of the plant to the project site and related haul/fuel expenses when determining low bid vendor.

WVDOH reserves the right to request any one or combination of items for which bids are awarded at the lowest overall total as set forth in this section.

- 5.2 **Pricing Pages, Attachment A ("ATT A"):** Vendor shall complete the Pricing Pages spreadsheet by first reading the Vendor Instructions section at the top of the Pricing Pages, Attachment A (ATT A), then completing Parts I, II and III of the spreadsheet. All bids or pricing submitted shall be held and honored by the Vendor for 90 days after the bid opening date.

REQUEST FOR QUOTATION
Asphalt Material Pick Up by Agency

5.2.1 Vendor Instructions:

5.2.2 The Pricing Pages contain a list of the Contract Items with no guarantee that any Contract Item will be purchased throughout the life of this contract. Estimated quantities are not available.

5.2.3 Vendors should type or electronically enter the information into the Pricing Pages spreadsheet to prevent errors in the evaluation. Vendors should not place formulas or any type of Excel calculations into the List Price column, only the actual bid price per Contract Item.
