**RFI: Vendor Questions for CRFQ DNR 26\*01 Blackwater Falls Sled Run Tree Removal**

**Q.1.** There seems to be some confusion on what type of Contractor's License is needed for the bid. To me, it seems a Specialty Contractor is what's needed. So, what classification of Contractor's License is needed?

**A.** Following the WV Division of Purchasing requirements related to licensed contractors, a WV General Contractor's license is applicable for this contract.

**Q.2.** Since there is a delay in remarking the trees, will the bid submission date be pushed back?

**A.** The re-marking of dead trees has been completed as of 8/8/25. The bid submission date has already been extended by the WV Division of Purchasing.

**Q.3.** During the pre-bid meeting, it was stated that no climbing gaffs (spikes) be used. When we trim power lines in the same area, we utilize them, is there a reason why we would not be allowed to use them?

**A.** Per National Arborist Standards, the use of gaffs, spikes, or spurs may damage healthy trees. The use of gaffs, spikes or spurs will not be permitted during this project.

**Q.4.** Also, during the pre-bid meeting was stated that no equipment was allowed, we have several offroad units that we could use that would reduce the cost. We could also use yard pads so there is no disturbance to the ground.

**A.** Offroad units must adhere to WV Dept of Transportation Regulations and must be insured. Offroad units will be permitted in non-wooded areas only, along the sled run slope and in the right of ways on either side of the conveyor. Any offroad units utilized are restricted to the area of the project only and will be monitored by park law enforcement. Their use will be restricted during the project hours of operation only. Wooded areas are restricted due to the protection of the threatened Cheat Mountain Salamander.

**Q.5.** Are rubber tracked boom lifts permitted for use on this project?

**A.** Rubber tracked boom lifts will be permitted in non-wooded areas only due to the protection of the threatened Cheat Mountain Salamander. Per the project specifications, any damage to the terrain or grassed areas will be the responsibility of the Vendor to regrade, seed and straw. The re-grading must match the existing slope.

**Q.6.** Can material be laid down, roped down, or dropped in smaller pieces within the 5ft buffer zone?

**A.** **Smaller pieces, limbs, logs or branches are permitted to be roped down within the 5 ft right of way. No material will be permitted to be roped down onto the conveyor.**

**Q.7.** Will this area of the park be closed during cutting operations?

**A.** **During the life of the project, the Sled Run Area will be closed to the public. The park will post signage the area is under construction. Authorized personnel only will be permitted in the area.**

**Q.8.** Are all trees clearly identified and marked

**A.** **All trees to be felled have been re-marked with blue paint. All trees requiring only limbing have orange tape tied around the trunk of each tree.**

#### **CLARIFICATIONS:**

Pursuant to the United States Department of Interior, Fish and Wildlife Service, Blackwater Falls State Park Sled Run, Tucker County, West Virginia, Service File Number 2025-0098881, regarding the natural habitat of the threatened Cheat Mountain Salamander, Endangered Species Act (ESA; 87 Stat. 884, as amended; 16 U.S.C. 1531 et seq): The Notice to Proceed will be issued to begin on or after **October 15, 2025.**

**\*One Vendor Per Representative** - No one individual is permitted to represent more than one vendor at the pre-bid meeting. Any individual that does attempt to represent two or more vendors will be required to select one vendor to which the individual's attendance will be attributed. The vendors not selected will be deemed to have not attended the pre-bid meeting unless another individual attended on their behalf.
