**3.2 Contract Items and Mandatory Requirements:** Vendor shall provide Agency with the Contract Items listed below on an open-end and continuing basis. Contract Items must meet or exceed the mandatory requirements as shown below.

**3.2.1 Asphalt Material - Contract Items 1 through 17** are considered asphalt material. Material from this contract SHALL ONLY be purchased when the pick-up of those materials is by WVDOH forces or other agency as described in Section 5.3. All materials used on this contract shall be from MCS&T approved sources/plants, as amended.

<https://transportation.wv.gov/highways/mcst/Pages/default.aspx>.

**3.2.2 Plant Run Asphalt - Contract Item 18** may be substituted for **Contract Items 1 through 17** only when the use of Plant Run has been requested by the WVDOH District Engineer, or their designee, having determined that the Plant Run material is suitable for use; and only when all other equivalent items of material are not available. All Plant Run material shall meet the Standard Specs, or in instances where the Plant Run material was produced for a neighboring state, must meet the specifications of the adjacent state highway department, unless otherwise deemed acceptable by the WVDOH District Engineer, or their designee.

**3.2.3 Performance Graded Binder - Contract Items 19 through 21** are surcharges to compensate the Vendor for supplying Asphalt when PG Binder is substituted for the standard binder.

**3.2.4 ESAL Surcharge - Contract Items 22 and 23** are surcharges to compensate Vendor for supplying other necessary aggregates or mix types when the asphalt design mix requires an ESAL rating of 3 million or greater. Mixes requiring less than 3 million ESAL's do not qualify for this surcharge.

**3.2.5 Seasonal Readiness:** It is WVDOH's intention that WVDOH forces shall commence spring pothole patching as early as the weather permits and once started, early pothole patching work shall be continuous, as weather permits. Awarded Vendors should have their asphalt plant(s) operational and available for asphalt production, upon WVDOH request and weather permitting, no later than March 16th. As per Section 7.1, if the low bid Vendor is not operational and available for asphalt production, WVDOH will consider this as a Delivery Order refusal, and the WVDOH will obtain the goods or services from the next low bid Vendor who is available.

**3.2.6 Off-Season Plant Opening - Contract Items 24 and 25** are necessary if a Vendor is required to open their plant in the off-season to service the needs

of the WVDOH, in which case an additional payment will be made. The Vendor will be paid an additional day charge for each additional consecutive day that the plant is open after the first day to service the needs of the WVDOH. If the plant produces no material for any use on any calendar day, either during the week or on the weekend, the WVDOH will pay the first day rate for off-season plant opening on the next day of the WVDOH usage. Payment for this item is subject to the following conditions:

**3.2.6.1** Payment for this item can only be authorized and made during the winter months, i.e., between December 15<sup>th</sup> and March 15<sup>th</sup>, and then only if the plant would not have otherwise been open. These dates may be revised by the WVDOH District Engineer or their designee, if necessary, to meet specific needs in the field. Any such revision of dates will be in writing and shall be attached to the Vendor's invoice at the time payment is requested.

**3.2.6.2** Payment will always be made at the full contract awarded bid price for the first day of plant opening; however, the amount paid from each additional day of plant opening will be reduced as follows:

**3.2.6.2.1** Payment for additional day charge will not be made if the plant has produced over 500 tons on that day. If between 300 and 500 tons have been produced, payment for additional day charge will be made equal to one-half of the contract awarded bid price for the additional day charge. The quantity produced to make this determination shall include all material produced that day, which includes tonnage bought by the WVDOH, other local governments and all private work.

**3.2.6.2.2** The WVDOH will only pay its share of the amount determined to be due for additional day charge as described above. For example, if the plant produces 375 tons and the WVDOH takes 150 tons of the total, 40% of the plant's daily production, payment for additional day charge would be calculated as follows: Since the total daily production is between 300 and 500 tons, the Vendor is due 50% of the additional day charge. Because the WVDOH's share of this daily production is 40%, the WVDOH would pay 40% of one-half of the additional day charge, or in this case, 20% of the additional day charges.

**3.2.6.3** A certified statement shall accompany the invoice stating the total quantity produced on the additional day. If payment does not qualify due to tonnage produced, the next consecutive day of plant

operation, if any, will qualify for payment at the additional day rate rather than the first day rate for plant opening.

- 3.3 Price Adjustment of Asphalt Cement:** Due to the uncertainty in estimating the cost of petroleum products that will be used during the life of this contract, adjustment in compensation for **Contract Items 1 through 18** is provided for in the Standard Specs Section 109, as amended. Refer to the table in Figure 3.3.

- 3.4 Price Adjustment of Fuel Oil No. 2 (Diesel Fuel):** Due to the uncertainty in estimating the cost of diesel fuel that will be used during the life of this contract, adjustment in compensation for applicable items shall be per Standard Specs 109.9, as amended, with the exception that Factor “C” in the Price Adjustment for Fuel formula is to be broken down by component, as shown in Figure 3.4.

The Price Adjustment for Fuel formula to be utilized for this contract is:

$$Pa = [(Mbp \div Cbp) - 1.00] \times Cbp \times C \times Q$$

Where: Pa = Price Adjustment

Mbp = Monthly base price at time of placement

Cbp = Contract Base Price at time of bidding

C = Cost Adjustment Factors per Unit, as per Figure 3.4

Q = ‘As Constructed’ Quantity

A written Delivery Order will be issued to the Vendor with the lowest overall total cost. The WVDOH District Engineer or their designee shall factor in the proximity of the plant to the project site and related haul/fuel expenses when determining low bid vendor.

WVDOH reserves the right to request any one or combination of items for which bids are awarded at the lowest overall total as set forth in this section.

- 5.2 **Pricing Pages, Attachment A ("ATT A"):** Vendor shall complete the Pricing Pages spreadsheet by first reading the Vendor Instructions section at the top of the Pricing Pages, Attachment A (ATT A), then completing Parts I, II and III of the spreadsheet. All bids or pricing submitted shall be held and honored by the Vendor for 90 days after the bid opening date.

## **CRFQ DOT2600000013 Asphalt Material Pick Up by Agency**

### **Responses to Questions from Vendors**

#### **Question 1**

My question is for the Asphalt item is that asphalt plant mix or liquid AC/asphalt ?

#### **Response 1**

The asphalt bid under this contract is Hot Mixed Asphalt. All asphalt used on this contract shall be from MCS&T approved sources/plants, as amended. Reference: [https://transportation.wv.gov/highways/mcst/Pages/APL\\_By\\_Number.aspx](https://transportation.wv.gov/highways/mcst/Pages/APL_By_Number.aspx)

#### **Question 2**

The next question is for the Emulsion. Can I assume that's for tack coat. If so what type? Standard or non-tracking tack coat ?

#### **Response 2**

This question is not specific to a certain section of the contract and there is not an Emulsion section nor an emulsion contract item. The Tack items are for the vendor to apply – tack is not sold to WVDOH as a stand-alone product under this contract.

**3.2.10 Asphalt Material for Tack Coat - Contract Item 47:** Shall be furnished and applied in accordance with Standard Specs Section 408, as amended, and as directed by the WVDOH District Engineer or their designee.

Per section 6.1 of the Contract Specifications: **Bidding Vendor must provide both material and laydown services within the same bid; bids received for material only or laydown services only will be disqualified.**
