Answers to Vendor Questions

CRFQ AGR26*01 - READ Equipment - HPLC System with DAD & RI Detectors

Question 1. Do you have additional information on the HPLC Specifications?

Answer 1. Please see 3.1.1 in the specifications. We encourage everyone to review the document in its entirety.

Question 2. What system pressure and flow rate?

Answer 2. Please see 3.1.1.2.6 and 3.1.1.2.7 in the specifications. We encourage everyone to review the document in its entirety.

Question 3. Is there a company that makes an RI you prefer or have used before?

Answer 3. The Agency has no preference.

Question 4. I normally try to attend these bid openings in person, and hope to do that for this one, but in case I have a schedule conflict, is there an option for me to attend virtually?

Answer 4. There is no longer an option to attend bid opening virtually.

Question 5. The bid mentions in 3.1.1.3.4 that the autosampler must have 200 vial capacity. Our offerings comes standard with 162 vials. Will 162 be sufficient, or would you like me to quote a plate changer? A plate changer can automatically add extra trays of vials to the autosampler.

Answer 5. It must meet or exceed 3.1.1.3.4 per the specification.

Question 6. The Bid mentions in 3.1.1.3.3 that 0.01ul is the lowest injection size. Our offerings has 0.1ul as the smallest size. Will.01 ul be sufficient?

Answer 6. It must meet or exceed 3.1.1.3.3 per the specification

Question 7. The bid mentions in 3.1.1.3.3 that the range must go up to 100ul for injection size. My company has dual injection options with 50ul sample loops. Will you ever need larger than a 50ul sample loop?

Answer 7. It must meet or exceed 3.1.1.3.3 per the specification

Question 8. The bid mentions in 3.1.1.2.6 that the pumps must be able to handle a psi of 15,000 at 5mL/min. Our pumps can handle 15,000psi at 0-3mL/min, but drop down to 10,000psi between 3-5 mL/min. Please confirm that this will be sufficient.

Answer 8. It must meet or exceed 3.1.1.2.6 per the specification.

Question 9. What is the average temperature of the room that the instruments plan to be operated in?

Answer 9. The average temperature is 64F

Question 10. In 3.1.1.4.2 it states the column oven must have a temperature range of 5C-120C. Most columns have a maximum temperature of roughly 85C. Please confirm that you plan to use the column oven at temperature above 85C.

Answer 10. It must meet or exceed 3.1.1.4.2 per the specification

Question 11. What length of columns would you like to use for your analysis? Please list the columns and their dimensions.

Answer 11. The following is the Agency's existing columns and it's dimensions: Supelco Ascentis Express C₁₈, 2µm, 150x2.1mm

Question 12. This analysis seems like it would be more robustly accomplished by having two HPLC systems. My company offers integrated HPLC systems with a Pmax of 10,000psi, that are lower cost than modular systems. Would you be open to have my company submit 2 bids, one modular bid and one bid with 2 integrated HPLC systems?

Answer 12. It must meet or exceed 3.1.2.1 per the specification.

Question 13. The pricing table on the last page lists Warranty/Preventative Maintenance (PM) agreements. I do not see a request for PM coverage to be included, all I see is the one-year warranty. Would you like me to quote one year of PM service as well?

Answer 13. No, the inclusion of preventative maintenance description on Exhibit A pricing page was in error. Preventative maintenance should not be included in bid. Section 3.1.5 details corrective maintenance which must fall under the scope of the warranty in 3.1.3. A revised Exhibit A has been attached to this addendum.

Question 14. The RFQ mentions in 3.1.1.1 that the HPLC must have 2 completely independent flow paths simultaneously. Is the goal to inject one sample in each flow path at the same time, or will the injections be staggered sequentially after each other?

Answer 14. The goal is to inject one sample simultaneously in two flow paths.

The Purchasing Division will disclose any document labeled "confidential," "proprietary," "trade secret," "private," or labeled with any other claim against public disclosure of the documents, to include any "trade secrets" as defined by West Virginia Code § 47-22-1 et seq. All submissions are subject to public disclosure without notice.

22. WITH THE BID REQUIREMENTS: In instances where these specifications require documentation or other information with the bid, and a vendor fails to provide it with the bid, the Director of the Purchasing Division reserves the right to request those items after bid opening and prior to contract award pursuant to the authority to waive minor irregularities in bids or specifications under W. Including such fees or charges as notes to the solicitation may result in rejection of vendor's bid. Requesting such fees or charges be paid after the contract has been awarded may result in cancellation of the contract.

18. FUNDING: This Contract shall continue for the term stated herein, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise made available, this Contract becomes void and of no effect beginning on July 1 of the fiscal year for which funding has not been appropriated or otherwise made available. If that occurs, the State may notify the Vendor that an alternative source of funding has been obtained and thereby avoid the automatic termination. Non-appropriation or non-funding shall not be considered an event of default.

19. CANCELLATION: The Purchasing Division Director reserves the right to cancel this Contract immediately upon written notice to the vendor if the materials or workmanship supplied do not conform to the specifications contained in the Contract. 25. WAIVER: The failure of either party to insist upon a strict performance of any of the terms or provision of this Contract, or to exercise any option, right, or remedy herein contained, shall not be construed as a waiver or a relinquishment for the future of such term, provision, option, right, or remedy, but the same shall continue in full force and effect. Any waiver must be expressly stated in writing and signed by the waiving party.

26. SUBSEQUENT FORMS: The terms and conditions contained in this Contract shall supersede any and all subsequent terms and conditions which may appear on any form documents submitted by Vendor to the Agency or Purchasing Division such as price lists, order forms, invoices, sales agreements, or maintenance agreements, and includes internet websites or other electronic documents. 33. ANTITRUST: In submitting a bid to, signing a contract with, or accepting a Award Document from any agency of the State of West Virginia, the Vendor agrees to convey, sell, assign, or transfer to the State of West Virginia all rights, title, and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the State of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to Vendor.

Vendor shall periodically inquire of its officers, members and employees to ensure that a conflict of interest does not arise. Any conflict of interest discovered shall be promptly presented in detail to the Agency.

39. REPORTS: Vendor shall provide the Agency and/or the Purchasing Division with the following reports identified by a checked box below:

Service providers should contact the West Virginia Division of Protective Services by phone at (304) 558-9911 for more information.

41. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open hearth, basic oxygen, electric furnace, Bessemer or other steel making process.
- c. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
 1. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
 2. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

42. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a “substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

Additionally, the Vendor must submit a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-work interested party disclosure, within 30 days following the completion or termination of the contract.
