**GENERAL TERMS & CONDITIONS
REQUEST FOR QUOTATION (RFQ) AND REQUEST FOR PROPOSAL (RFP)**

1. Awards will be made in the best interest of the State of West Virginia.
2. The State may accept or reject in part, or in whole, any bid.
3. All quotations are governed by the *West Virginia Code* and the *Legislative Rules* of the Purchasing Division.
4. Prior to any award, the apparent successful vendor must be properly registered with the Purchasing Division and have paid the required \$125.00 registration fee.
5. All services performed or goods delivered under State Purchase Orders/Contracts are to be continued for the term of the Purchase Order/Contract, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods, this Purchase Order/Contract becomes void and of no effect after June 30.
6. Payment may only be made after the delivery and acceptance of goods or services.
7. Interest may be paid for late payment in accordance with the *West Virginia Code*.
8. Vendor preference will be granted upon written request in accordance with the *West Virginia Code*.
9. The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
10. The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
11. The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern all rights and duties under the Contract, including without limitation the validity of this Purchase Order/Contract.
12. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
13. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, this contract is automatically null and void, and is terminated without further order.
14. **HIPAA Business Associate Addendum** - The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, and available online at the Purchasing Division's web site (<http://www.state.wv.us/admin/purchase/vrc/hipaa.htm>) is hereby made part of the agreement. Provided that, the Agency meets the definition of a Covered Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.

INSTRUCTIONS TO BIDDERS

1. Use the quotation forms provided by the Purchasing Division.
2. **SPECIFICATIONS:** Items offered must be in compliance with the specifications. Any deviation from the specifications must be clearly indicated by the bidder. Alternates offered by the bidder as **EQUAL** to the specifications must be clearly defined. A bidder offering an alternate should attach complete specifications and literature to the bid. The Purchasing Division may waive minor deviations to specifications.
3. Complete all sections of the quotation form.
4. Unit prices shall prevail in cases of discrepancy.
5. All quotations are considered F.O.B. destination unless alternate shipping terms are clearly identified in the quotation.
6. **BID SUBMISSION:** All quotations must be delivered by the bidder to the office listed below prior to the date and time of the bid opening. Failure of the bidder to deliver the quotations on time will result in bid disqualifications.

Conveyor for 20 X 20 racks

W/conveyor dwell

Std. thermometers

W/vent fan control

Straight loading

W/O power un-loader

W/O power un-loader hood

W/lower pre-wash arm

W/O direct drive un-loader

W/transformer

Std. feet

W/O pre-wash temp control

W/O low temp rinse arm

Common water connection

Vent hood with 4 X 16 vent and damper (load or unload end)

Vent hood, short

3/4" brass pressure regulators

Direct drive un-loader rl

For clarification purposes of the above items W/ indicates with and W/O indicates without.

Quantity 1

Soiled Dishtable – Aerowerks or equal. Custom Fabricated L shaped 12'4" X 8'5½" long X 30" wide X 34" high 14 ga. Stainless steel top. Table shall be formed with 9" backsplash along all walls and vertical and horizontal corners coved to a 3/4" radius. Provide pre-rinse sink 22" X 22" X 6" deep complete with a perforated scrap basket.

Unit shall be 14 ga. stainless steel construction and shall form integral part of soiled dish table. Furnish table with wall mounted retractable hose station. Support table on 1 5/8" diameter stainless steel legs with adjustable bullet feet. Legs shall be positioned to align up front-to-back for maximum access for cleaning. Legs shall be supported with 14 ga. stainless steel leg channels. All cross-rails shall be fully welded to legs with all welds polished and ground smooth.

Quantity 1

Clean Dish table – Aerowerks or equal. Custom Fabricated 14 ga. stainless steel clean dish table. Unit shall be 8'10" long X 29" wide and 34" high. Support table on 1 5/8" diameter stainless steel legs with adjustable bullet feet. Legs shall be positioned to align up front-to-back for maximum access for cleaning. Legs shall be supported with 14 ga. stainless steel leg channels. All cross-rails shall be fully welded to legs with all welds polished and ground smooth. Furnish table with pre-wired limit switch.

Contractor shall include all warranty periods for each item listed.

The Northern Correctional Facility will dismantle and remove current equipment and prepare and restore area prior to contract installation. Successful vendor will work closely with Northern Correctional Facility staff for timeline.

All bidders must submit detailed specification of bidding other than models listed above.

A mandatory pre-bid meeting will be held on January 31, 2007 at 1:00 PM, at the Northern Correctional Facility. All interested vendors should contact Estralita Gillies at 304-843-4067 at least two days in advance.

P13

C-LINE DISHWASHER NOW STANDARD WITH MORE PRODUCTIVE FEATURES THAN EVER . . .

Inside and out the C-Line Hobart dishwashers are packed with standard components and design innovations that make them the biggest value in the dishwasher industry.

Stainless Steel Self-Draining Pump and Impeller. Pump and impeller are stainless steel for maximum durability. A fixed pump intake screen prevents debris from entering into the pump.

Lift-Out Scrap Basket. Screen design sheds soil more easily than flat screens, reduces frequency of cleaning — easy to empty large soil particles . . . Just lift out scrap basket under screens.

OPTIONAL BOOSTER HEATER

Built-in Pressureless Stainless Steel Booster Heater. Interwired and interplumbed. Saves on installation and saves floor space. Simplifies operation with just one switch to power dishmachine and booster.

Wash Arms. Computer-designed prewash and wash arms resist clogging, easily removed for cleaning (CRS-66A shown).

Opti-RinSe™. Hobart's exclusive patent pending Opti-RinSe™ significantly reduces operating cost by reducing rinse water and the energy required to heat the water. The unique spray pattern uses large droplets to more efficiently sanitize the ware.

OTHER STANDARD FEATURES . . .

- **Low-Temp Convertibility In Field.** Order your C-Line with hot water sanitizing or energy-saving low temperature chemical sanitizing — then, if requirements change, convert from one mode to the other in the field. An exclusive feature — standard from Hobart.
- **Auto-Fill.** One button automatic fill ensures optimum tank level, and the simplest operation.
- **Auto-Timer.** Automatically activates the warewasher when a rack enters the machine, and after the last rack has passed, shuts off the pump and conveyor while maintaining tank heat temperature. Extends machine life, requires less operator attention and promotes significant energy savings.
- **Door Actuated Drain Closures.** Closing the door automatically actuates drain closures, eliminates extra manual steps, insures that closures are in the correct position.
- **Vent Fan Control and Booster Heater Control.** Allows for interconnection to dishwasher.

1-888-4HOBART • www.hobartcorp.com

CRS66A/CRS66AW P 4 DISHWASHER

AVAILABLE OPTIONS . . .

Flexibility is synonymous with Hobart C-Line dishwashers. If your operation demands a dishwasher with a vent hood, an extended hood . . . a recirculating prewash, just specify the combination of options that suit your needs.

Side Loader. Save up to 20 square feet in the dishroom layout with an optional C-Line Side Loader. Racks are indexed 90° into the dishwasher automatically – a feature that cuts space and reduces labor dramatically. Your dishroom team will appreciate this feature.

Extended Hood

Vent Hood

C-Line Dishwashers are available with vent hoods or extended hoods, each with vent stack and locking-type damper, and both designed to fit either end of the dishwasher.

OTHER AVAILABLE OPTIONS . . .

Condenser, blower-dryer, conveyor dwell, steam booster heater, and a single-point electrical connection for 3 phase electric heat machines.

REV. K/REV. J

PLUMBING NOTES:

WATER HAMMER ARRESTOR (MEETING ASSE-1010 STANDARD OR EQUIVALENT) TO BE SUPPLIED (BY OTHERS) IN COMMON WATER SUPPLY LINE AT SERVICE CONNECTION.

RECOMMENDED WATER HARDNESS TO BE 4-6 GRAINS FOR BEST RESULTS.

RECOMMENDED BUILDING FLOWING WATER PRESSURE TO THE DISHWASHER IS 20-25 PSI. IF PRESSURES HIGHER THAN 25 PSI ARE PRESENT, A PRESSURE REGULATING VALVE WITH INTERNAL THERMAL EXPANSION BY PASS, MUST BE SUPPLIED (BY OTHERS) IN THE WATER LINE TO THE DISHWASHER.

FOR CONVENIENCE WHEN CLEANING, WATER TAP SHOULD BE INSTALLED NEAR MACHINE WITH HEAVY DUTY HOSE AND SQUEEZE VALVE.

DISHWASHER MUST BE INSTALLED AND OPERATED ONLY WITH CHEMICAL SANITIZING FEEDER THAT IS LISTED BY NSF INTERNATIONAL.

WHEN REQUIRED, INSTALL FLOOR SINK OUTSIDE THE PERIMETER OF THE DISHWASHER

CAUTION: CERTAIN MATERIALS INCLUDING SILVER, ALUMINUM, AND PEWTER ARE ATTACKED BY SODIUM HYPOCHLORITE (LIQUID BLEACH).

MISCELLANEOUS NOTES:

WHEN VENT HOODS OR EXTENDED HOODS ARE ORDERED, REFER TO C-LINE VENTS AND HOODS SPECIFICATION SHEET (FORM F-7841) FOR DETAILS AND CONNECTIONS.
EXHAUST REQUIREMENTS: 200 CFM ENTRANCE END
400 CFM EXIT END

ALL DIMENSIONS TAKEN FROM FLOOR LINE MAY BE INCREASED APPROXIMATELY 3/4" OR DECREASED 1/2".

66" INSIDE TANK (AT TABLE CONNECTION)
65-25/32" TABLE TO TABLE.

NET WEIGHT OF MACHINE: 785 LBS.
DOMESTIC SHIPPING WEIGHT: 865 LBS.

WARNING

ELECTRICAL AND GROUNDING CONNECTIONS MUST COMPLY WITH THE APPLICABLE PORTIONS OF THE NATIONAL ELECTRICAL CODE AND/OR OTHER LOCAL ELECTRICAL CODES.

PLUMBING CONNECTIONS MUST COMPLY WITH APPLICABLE SANITARY, SAFETY, AND PLUMBING CODES.

CRS66A/CRS66AW DISHWASHER

HOBART

701 S Ridge Avenue, Troy, OH 45374
1-888-4HOBART • www.hobartcorp.com

P19

SPECIFICATIONS: Meets requirements of A.S.S.E. Standard No. 1004.

DESIGN: Fully automatic, high-temperature single-tank, rack-type dishwasher with flexible strip curtains at ends of chambers and between prewash, wash and final rinse compartments. Large inspection doors located in front of machine provide easy access to wash arms, rinse arms, rinse pan strainer, strainer baskets, front and rear strainers, and pump intake screens. Doors guided for ease of operation and long life. Length of machine inside tank (at table connection) 66". Machine designed to clean and sanitize with hot water 160°F wash and 180°F (minimum) final rinse. Water hardness must be controlled to 4-6 gr. for best results. Automatic interlocks shut off pump and conveyor if a door is opened when machine is in operation.

CONSTRUCTION: Tank and chambers constructed of #16 gauge stainless steel, arc-welded. Unitized, welded stainless steel tank, frame and stainless steel legs. Chambers, control box, door, and front trim panels are polished, satin finish.

PUMPS: Recirculating stainless steel pumps with stainless steel impellers and face seals with stainless steel metal components and ceramic seats. Readily removable motor/impeller assemblies permit quick inspection. The pumps are self-draining. All piping distributing water to the upper and lower wash arms is stainless steel tubing.

PUMP MOTORS: Built for Hobart: wash motor, 2 horsepower; prewash motor, 1 horsepower; grease-packed ball bearings, splashproof, ventilated with manual resettable inherent overload protection in each motor. Available in electrical specifications of 208-240/60/1, 208-240/60/3, 480/60/3. Also available are 200-240/50/1, 200-240/50/3, and 380-415/50/3, not submitted for UL Listing.

CONTROLS: A stainless steel control center with power "on/off" and "start/stop" switches is mounted on top of machine. Machine control circuitry components will be operated from a 120 volt control circuit transformer. Auto-timer is standard equipment. An "auto/manual" switch is located on the left side of control box for bypassing the auto-timer feature. Electrical components are completely wired with 105°C, 600V thermoplastic insulated wire with stranded conductors routed through Listed electrical conduit or covered wireway built into the front and rear of the machine above tank water level. Control circuit protected by 3 AMP overload protector.

CONVEYOR: Dual rack drive, with stainless steel pawls both sides of conveyor, designed to eliminate interference with wash and rinse spray patterns. Racks conveyed automatically through prewash, wash and rinse sections and onto clean dish table. Factory set overload mechanism on conveyor drive prevents damage to machine or racks, should movement of racks be obstructed. Rack tracks, conveyor structure, and drive units of stainless steel for 19¼" x 19¼" racks as standard. Conveyor speed: 5.6 FPM, CRS66A; 3.5FPM, CRS66AW.

DRIVE MOTOR: Built for Hobart, ½ horsepower gearmotor, sealed, ventilated with manual, resettable overload protection. Available in electrical specifications of 208-240/60/1, 208-240/60/3, 480/60/3. Also available, but not submitted for UL Listing, are 200-240/50/1, 200-240/50/3, and 380-415/50/3.

PREWASH: CRS66A prewash tank is equipped with an upper stainless steel wash arm with specially shaped nozzles having large openings and arranged to effectively scrap all types of tableware. An optional lower arm is available for increased scrapping action. Prewash arm(s) and arm end caps are easily removable for cleaning without use of tools. Removable perforated stainless steel strainer pans support a deep perforated stainless steel basket. Basket and strainer pans (3) can be removed without optional lower wash arm removal.

POWER WASH: Wash tank is equipped with upper and lower stainless steel wash arms with specially shaped nozzles having large openings and arranged to effectively direct water jets to all ware surfaces. Both upper and lower wash arms, along with wash arm end caps, are easily removable for cleaning without use of tools. Removable perforated stainless steel strainer pans support a deep perforated stainless steel basket. Basket and strainer pans (2) can be removed without lower wash arm removal.

FINAL RINSE: Upper and lower rinse arms have single rows of nozzles. Rinse is automatically activated by racks in passing. Final rinse water line is equipped with vacuum breaker on downstream side of electrically operated solenoid valve in common piping system. Design provides for collection and division of final rinse water after use to wash tank and common drain. Rinse agent dispenser injection port provided in final rinse piping above chamber. Final rinse flow rate: 2.13 GPM, CRS66A; 1.36 GPM, CRS66AW.

FILL: Fill water line is equipped with vacuum breaker on downstream side of electrically operated solenoid valve in common piping system, for automatic maintenance of tank level. Fill is interrupted whenever a door is opened.

DRAIN AND OVERFLOW: Large bell-type automatic overflow and drain valve in prewash tank controlled from inside of machine. Prewash overflows to drain. Wash tank drain, controlled from inside of machine, overflows to prewash through large internally mounted stainless steel tubing. Drain seals are large diameter, high temperature o-rings. Stainless steel drain seat. Common drain utilizes a removable large diameter stainless steel tube sealed by rubber bushings at each drain casting; can be removed for easy cleaning. Drains can be plumbed from load or unload end of machine.

STANDARD EQUIPMENT: Sealed dial-type thermometers indicate temperatures of wash and final rinse water. Positive low water protection for tank heat. Plastic strip curtains throughout machine. Stainless steel control box. Built-in wireways. Drains are automatically closed when inspection doors are closed. Stainless steel adjustable feet. Stainless steel hang-on/drop-in-place front trim panels. Automatic tank fill. Door interlocks. Auto-timer. Vent fan and booster heater controls.

WASH TANK HEATING SELECTIONS (must choose one):

ELECTRIC: One electric Incoloy sheathed immersion heater (15 KW) removable from inside tank. Tank water temperature is controlled by solid-state thermostat with positive low-water protection and magnetic contactors. (Disconnect switches not furnished.) Heating element is additionally protected by a high limit device mounted on the surface of the element.

STEAM: One-inch stainless steel steam injectors or one-inch stainless steel steam coils (for contaminated steam). Tank water temperature controlled by solid-state thermostat with positive low-water protection. Steam supplied to machine through high temperature steam solenoid valve and line strainer.

GAS: Regulated power immersion tube gas burner system. Tank water temperature is controlled by solid-state thermostat and a blower with a centrifugal switch. Positive low water protection is provided. Immersion tube is additionally protected by a high limit device mounted on the surface of the tube. A solid-state ignitor board controls the gas valve and provides flame ignition. A transformer steps the control circuit voltage down from 120 volts to 24 volts to power the ignitor board and gas valve.

For natural gas, gas pressure to burner (customer connection) not to exceed 7" W.C.

For liquefied petroleum, gas pressure to burner (customer connection) not to exceed 11" W.C.

If gas pressure is higher than 7" W.C. natural or 11" W.C. LP, a pressure regulating valve must be supplied (by others) in the gas line to the dishwasher.

OPTIONAL EQUIPMENT AT EXTRA COST:

Stainless steel pressureless booster heater. Stainless steel vent hoods with vent stack and locking-type damper. Stainless steel extended hoods with vent stack and locking type damper. SL-23 or SL-30 without hood. Six inches higher than standard. Steam or electric blower-dryer (3-phase only). Floor-mounted steam booster. Low-temp final rinse system. Single condenser. Prewash temperature control. RS-22A lower wash arm. 19¼" x 19¼" peg and combination and miscellaneous racks.

Single-point electrical connection for electric heat machines (3-phase only, does not include booster heater). Conveyor dwell.

As continued product improvement is a policy of Hobart, specifications are subject to change without notice.

AFFIDAVIT

West Virginia Code §5A-3-10a states:

No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owned is an amount greater than one thousand dollars in the aggregate

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

EXCEPTION:

The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

LICENSING:

Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

CONFIDENTIALITY:

The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendors should visit www.state.wv.us/admin/purchase/privacy for the Notice of Agency Confidentiality Policies.

Under penalty of law for false swearing (West Virginia Code, §61-5-3); it is hereby certified that the vendor acknowledges the information in this said affidavit and are in compliance with the requirements as stated.
