**GENERAL TERMS & CONDITIONS  
REQUEST FOR QUOTATION (RFQ) AND REQUEST FOR PROPOSAL (RFP)**

1. Awards will be made in the best interest of the State of West Virginia.
2. The State may accept or reject in part, or in whole, any bid.
3. All quotations are governed by the *West Virginia Code* and the *Legislative Rules* of the Purchasing Division.
4. Prior to any award, the apparent successful vendor must be properly registered with the Purchasing Division and have paid the required \$125.00 registration fee.
5. All services performed or goods delivered under State Purchase Orders/Contracts are to be continued for the term of the Purchase Order/Contract, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods, this Purchase Order/Contract becomes void and of no effect after June 30.
6. Payment may only be made after the delivery and acceptance of goods or services.
7. Interest may be paid for late payment in accordance with the *West Virginia Code*.
8. Vendor preference will be granted upon written request in accordance with the *West Virginia Code*.
9. The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
10. The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
11. The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern all rights and duties under the Contract, including without limitation the validity of this Purchase Order/Contract.
12. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
13. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, this contract is automatically null and void, and is terminated without further order.
14. **HIPAA Business Associate Addendum** - The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, and available online at the Purchasing Division's web site (<http://www.state.wv.us/admin/purchase/vrc/hipaa.htm>) is hereby made part of the agreement. Provided that, the Agency meets the definition of a Covered Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.

---

**INSTRUCTIONS TO BIDDERS**

1. Use the quotation forms provided by the Purchasing Division.
2. **SPECIFICATIONS:** Items offered must be in compliance with the specifications. Any deviation from the specifications must be clearly indicated by the bidder. Alternates offered by the bidder as **EQUAL** to the specifications must be clearly defined. A bidder offering an alternate should attach complete specifications and literature to the bid. The Purchasing Division may waive minor deviations to specifications.
3. Complete all sections of the quotation form.
4. Unit prices shall prevail in cases of discrepancy.
5. All quotations are considered F.O.B. destination unless alternate shipping terms are clearly identified in the quotation.
6. **BID SUBMISSION:** All quotations must be delivered by the bidder to the office listed below prior to the date and time of the bid opening. Failure of the bidder to deliver the quotations on time will result in bid disqualifications.

**SIGNED BID TO:**

## ADDENDUM IN RESPONSE TO QUESTIONS REGARDING MPLS07

1. We received a call from one of the vendors. They were in the process of completing the pricing pages for the RFP. They said that information that they entered on page 3 of the pricing pages did not carry forward to the summary page. They e-mailed me some samples of what they are talking about.

We attempted to make the cost sheets error free and in doing so, we should have explained that if you miss one place where there should be a cost, the total of that column won't transfer to the summary page. If there is no charge for a particular item, i.e., row 20, column K, you must put a "0" so that the chart will calculate. Also, if you put too large a number in a column, it will not total. We believe we allowed enough room in each column – for the smaller rates, we allowed \$x,xxx.xx and a total cell of \$xx,xxx.xx; for larger rates, we allowed \$xx,xxx.xx and up to \$x,xxx,xxx.xx for the totals. We believe that the columns are correct but if you begin completing your cost sheets and you need more space in any column, go ahead and print off the price sheet and complete the pricing sheets manually.

2. One vendor notified us that they have been in contact with Frontier and had requested pricing from them to provide the circuits in their territory for the MPLS07 bid. A representative from Frontier said they will need the NPA/NXX and the addresses of the locations in order to provide us the pricing. The vendor assumed that this would be the case for any other vendor requesting pricing on these circuits. During the pre-bid and in the questions submitted on January 9, 2007, this same information was requested on all the circuits regardless of where they were located. Instead, a list of circuits by city in addendum 2, but it did not have the NPA/NXX or address for the circuits. Although this appeared sufficient for most vendors' pricing requirements, the WVOT has worked diligently with other State of WV Entities to provide the additional requested circuit NPA/NXX and physical addresses.

Attached you will find a PDF file of data circuits containing the Circuit ID, NPA, NXX, and physical location. This information is compiled from: 1) WVOT data circuit inventory (VZ, Frontier); K-12 data circuit inventory, Library data circuit inventory, and WVNET DSL inventory. This is the most accurate information available at this time based on all of the resources that were available. There are a few circuit line items are marked with an "\*" for which we could not locate either the NXX or the physical address. There were a total of 69 circuits missing NXX's & 28 circuits missing physical addresses. The total number of circuits with missing or partial information accounts for less than 2%. However in each case the first two numbers in the circuit ID will identify the LATA (For an Example 54.ybfq would be in the Charleston LATA) All of the circuits marked with an "\*" are k-12 circuits, and the DOE personnel were unable to provide us with the additional. Although the information initially provided appears sufficient for most vendors' pricing requirements, the WVOT has work diligently with other state Agencies to provide the additional requested circuit NPA/NXX, and the Circuits physical termination address.

Please understand, this is the only the current inventory. Section 1.2 of the RFP clearly states the intent to service all of West Virginia NPA/NXX locations including all the rural State, County, and Municipalities in a postage stamp pricing approach. The price offered for a particular access type (i.e., Ethernet, Frame Relay, Clear Channel, ATM, and DSL), class of service (as described in 3.1.7.4) and port speed are the three sole price determining factors across all NPA/NXX's. This is reiterated in 3.1.4.1 and 3.1.4.2. These paragraphs clearly state the vendor should be ready to price all NPA/NXX's for new facilities in the State within 60 days. It is further important to note that the attached list does include all of "Higher Education's Circuits nor all current and potential "Third Party Circuits" that would be eligible to be converted to the new MPLS network.

To clarify this further, whenever there are existing copper or fiber facilities regardless of the Incumbent Local Exchange Carrier (ILEC) in that geographic location, the State expects MPLS services to be deployed upon request within 60 days. This critical specification is extended to all State, County and Municipal locations in West Virginia and any new locations where ILEC copper or fiber facilities exist today or as time progresses. Therefore, the successful vendor must be willing to locate in all West Virginia NPA/NXX's. The State will work with the apparent successful vendor via SLA development to address new State, County, or Municipal buildings in order to extend the existing copper or fiber or Alternate Access facilities as construction to said new addresses is required.

In speaking with the Public Service Commission, they recommended that the vendor refer to the NANPA data on Central Office Codes assigned. You can find that information at [www.NANPA.com](http://www.NANPA.com) under the tab on the upper left of the homepage titled "Reports"

3. To clarify the State's request for all IP Centrex offerings, on each Price Comparison Charts 1 through 3, **for pricing purposes only**, assume that in every case the service location requested will have 100 desktop Session Initiation Protocol (SIP) - provisioned instruments via a clear channel T-1, Access Circuit, real time CoS, T-1 (1.536 megabits per second) port speed, with 24 virtual voice paths configured. The balance of the unused/idle bandwidth could be used for data/video service and provisioned via PVC/VRF or the like, for transport to another facility on the MPLS or for Internet usage, however this is not to be considered in the pricing model for evaluation purposes. If the vendor desires to put forth such combined services access circuits, list them under Alternate Access Circuits in Appendix C and list the price of each configuration offered in the Alternate Access Circuit Pricing Section (Appendix D). Again it will not be a determining factor on the cost analysis, but may impact the technical evaluation.

For all IP Centrex pricing charts, assume that the State will purchase its own SIP Telephones, Router(s) with the appropriate T-1 or Ethernet WIC card(s)/modules and Fast Ethernet switch/port(s), firewall(s) as required, and any additional LAN appliances required. Vendors are encouraged to provide options for service agreements for the above listed "State Provided Equipment" as well as options for equipment associated with IP Centrex itself and corresponding service agreements but these options will not be part of the cost evaluation.
