August 31, 2006

To: All Attendees of the August 9, 2006 Prebid Meeting for miscellaneous track work on the West Virginia Central Railroad

From: Cindy Butler, Comptroller

Re: Addendum to RFQ # RMA70002 – Track work on the West Virginia Central Railroad

Any items not specifically addressed in this addendum remain the same as stated in the original RFQ.

1. On page 14 of the original RFQ, a line item for ballast was erroneously left out of the bid list. Also during the pre-bid it was decided that a line item for destressing the track should be added. Because of these two items a new bid sheet is attached and should completely replace page 14 in the original RFQ.
2. Are vendors to furnish any bolt units or lock washers in the Joint Bar Replacement item?
 - Yes – The bolts are 1 inch x 5 ½ inch with nut and 1 inch lock washers
3. What materials are being furnished by the owner in the rail replacement item and what materials by the Contractor?
 - The only item being provided by the owner is the rail. All other items are to be provided by the contractor. Contractor must box anchor every other tie at rail replacement areas.
 - Designated areas of rail replacement are
 - i. MP 82.6 - 800 ft of rail
 - ii. MP 64.5 - 1,600 ft of rail
 - iii. MP 62.2 - 1,000 ft of rail
4. For rail replacement what is to be done with material that is removed? Also are field welds necessary?
 - The old material removed from the rail replacement project is to remain the property to the State Rail Authority. The material is to be removed from the track location and stacked neatly at Cheat Bridge.
 - Strings are to be bolted together no field welds will be necessary. Vendor must supply 12 pairs of 11SRE/100RB comp bars and two pairs of 11SRE joint bars.
5. Joint bars to be replaced are 100RB. The bolt hole configuration is attached.
6. For the ditching, what is to be done with the fill material?
 - Fill material can be used at washed out areas where feasible. The designated area for additional fill material not suitable for wash outs would be at MP 89.5.
