WHEN RESPONDING TO RFQ, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'

**GENERAL TERMS & CONDITIONS
REQUEST FOR QUOTATION (RFQ) AND REQUEST FOR PROPOSAL (RFP)**

1. Awards will be made in the best interest of the State of West Virginia.
2. The State may accept or reject in part, or in whole, any bid.
3. All quotations are governed by the *West Virginia Code* and the *Legislative Rules* of the Purchasing Division.
4. Prior to any award, the apparent successful vendor must be properly registered with the Purchasing Division and have paid the required \$125.00 registration fee.
5. All services performed or goods delivered under State Purchase Orders/Contracts are to be continued for the term of the Purchase Order/Contract, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods, this Purchase Order/Contract becomes void and of no effect after June 30.
6. Payment may only be made after the delivery and acceptance of goods or services.
7. Interest may be paid for late payment in accordance with the *West Virginia Code*.
8. Vendor preference will be granted upon written request in accordance with the *West Virginia Code*.
9. The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
10. The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
11. The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern all rights and duties under the Contract, including without limitation the validity of this Purchase Order/Contract.
12. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
13. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, this contract is automatically null and void, and is terminated without further order.
14. **HIPAA Business Associate Addendum** - The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, and available online at the Purchasing Division's web site (<http://www.state.wv.us/admin/purchase/vrc/hipaa.htm>) is hereby made part of the agreement. Provided that, the Agency meets the definition of a Covered Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.

INSTRUCTIONS TO BIDDERS

1. Use the quotation forms provided by the Purchasing Division.
2. **SPECIFICATIONS:** Items offered must be in compliance with the specifications. Any deviation from the specifications must be clearly indicated by the bidder. Alternates offered by the bidder as **EQUAL** to the specifications must be clearly defined. A bidder offering an alternate should attach complete specifications and literature to the bid. The Purchasing Division may waive minor deviations to specifications.
3. Complete all sections of the quotation form.
4. Unit prices shall prevail in cases of discrepancy.
5. All quotations are considered F.O.B. destination unless alternate shipping terms are clearly identified in the quotation.
6. **BID SUBMISSION:** All quotations must be delivered by the bidder to the office listed below prior to the date and time of the bid opening. Failure of the bidder to deliver the quotations on time will result in bid disqualifications.

SIGNED BID TO:

Department of Administration
Purchasing Division
2019 Washington Street East
Post Office Box 50130
Charleston, WV 25305-0130

To: Marie Lamont
Cc: dreamcc
Subject: FW: RFQ SOS70507 Questions

Marie,

This response is fine to send to Mr.. Price in purchasing. I have reviewed with Scot. - Terri

From: Daniel Carter [mailto:Daniel.Carter@gst.com]
Sent: Friday, July 14, 2006 2:25 PM
To: rprice@wvadmin.gov
Cc: Cannon Wadsworth; Marc Beacom
Subject: RFQ SOS70507 Questions

1. The RFQ does not seem to mention a preferred method for migrating the data from the HP jukebox to the EMC Centera hardware. Can the Secretary of State's office describe in detail what they consider to be viable and acceptable methods of transfer?

[RAY GOINGS] The "Imaging System" uses EMC – Disk Xtender (software) to manage the data that is written to the Imaging Server's hard drive, moving it from magnetic storage (hard drive) to optical storage (HP Jukebox) via a rules-based process. Disk Xtender also manages the retrieval process, so that from the user's viewpoint, the data appears to "exist" where it was originally saved (on the hard drive), when it actually "exists" elsewhere (HP Jukebox).

It is my understanding that due to the way Disk Xtender functions, the migration of the data from Optical Storage (HP Jukebox) to the EMC Centera unit can be easily accomplished via the functionality build into Disk Xtender itself.

As stated in the RFQ, the vendor is required to provide "qualified Technical Staff" to accomplish the migration of the data. In this case, "qualified" means the technical staff must have a strong, working knowledge of how Disk Xtender functions, as well as have experience configuring and using Disk Xtender in a production environment.

2. What does the Secretary of State's office consider a reasonable calendar and operational duration for doing a 100% verified data migration of the 330GB managed by the HP jukebox to the EMC Centera?

[RAY GOINGS] Ten (10) business days.

3. What resources in terms of PCs, Servers, and current or additional network bandwidth can the Secretary of State's office make available to participate in the data migration.

[RAY GOINGS] The WV-SOS will provide one (1) workstation for use by the vendor's Technical Staff assigned to accomplish the migration, which should be sufficient for the task. Console access to the Imaging Server will be provided for the duration of the project. Access to other servers will be granted on a "as needed" basis.

The RFQ includes a Gigabit Ethernet Switch specifically dedicated to connect the EMC Centera with the Imaging Server. Therefore, network bandwidth should not be a factor during the data migration phase, since there will be no other network traffic through this switch.

3. Since the data resides in a production environment what utilization levels are allowed to be dedicated to the migration and for how long and at what times during a typical week? Please specify percentages for a typical week broken down into business hours, non-business hours, and backup periods of the maximum utilization of network bandwidth, CPU and RAM on the DiskXtender and database servers, number of optical drives in the jukebox, and any other restrictions on the resources participating in the migration provided by the Secretary of States office.

[RAY GOINGS] There are currently 49 Optical Disks in the HP Jukebox, which are dual-sided, with a maximum capacity of 4.5 Gigabytes per side. There are four (4) optical drives in the HP Jukebox. Please refer to the attached report files for more information.

The question of Network Bandwidth Availability was addressed in my answer to the previous question.

The migration must be accomplished with minimum impact on the users' ability to perform daily tasks. Though not specifically stated in the RFQ; the expectation is that a Migration Plan will be drafted during the installation phase, as a joint effort of the WV-SOS IT Staff and the Vendor's Technical Staff, and submitted to the WV-SOS for approval before the migration commences.

For the duration of the project, business hours are from 8:15 AM until 5:15 PM, Monday through Friday. The WV-SOS does not currently track "utilization" statistics. Daily Backup functions can be adjusted on an "as needed" basis for the duration of the migration phase. WV-SOS IT Staff will be available "as needed" during non-business hours, for the duration of this project.

1. How large is the current extended drive for DiskXtender on the server currently managing the HP Jukebox?

There are multiple extended drives configured within DiskXtender on the Imaging Server.

The HP Jukebox has 49 Optical Disks installed. Each disk is dual-sided, with a maximum capacity of 4.5 Gigabytes per side, and dedicated to one of the extended drives.

Refer to the "DX_DRIVE-REPORT_07-17-06.RTF" file for more info!

2. Will the client be providing a new server for the DiskXtender / Centera configuration?

No. The Imaging Server, which the DiskXtender software is installed on, will continued to be used.

3. What is the actual object count on the current extended drive (i.e, how many actual images are currently written to HP jukebox)

Refer to the "DX_MEDIA-REPORT_07-17-06.RTF" file for more info!

4. Are all files migrated to HP Jukebox?

Yes.

5. What is the daily volume of new files (so the downtime can be calculated correctly).

Daily statistics are not tracked but the "IMAGING_SCREENSHOTS.DOC" file reports the information provided by DiskXtender Administrator.

6. As is stated in the RFP release, the Legato DiskXtender Version 5.60.049 is currently being used to archive your media to your existing optical jukebox. Would the successful bidder be asked/allowed to upgrade the current DiskXtender software to version 6.1 in order to first compact the existing optical media before migrating the data? (The upgrade would only take minutes and this approach would minimize downtime.) (This assumes that the existing Jukebox is in good working order. If so, this compaction would take approximately 2 hours per platter.)

The successful vendor would be allowed to upgrade DiskXtender to version 6.1. Please note your intent to do so in your response to the RFQ.
