Liquid Handling System

The West Virginia Department of Agriculture (WVDA) seeks to acquire a liquid handling system for the poultry diagnostic laboratory located at Moorefield, WV. The product **must** meet the requirements and technical specifications outlined in the following section.

Technical Specifications

- Must have a 96 channel dispensing head and the ability to process 384 well and 96 well plates.
- The liquid handler must have the option to add a multichannel head with selective tip shucking and the option for specialized serial dilution to enhance low volume serial dilutions for compound addition.
- The system must offer simple “drag and drop” icon programming for the creation of new methods, thereby reducing operator training time.
- The liquid handling platform must have an integrated gripper for the movement of plates, tip boxes, and automated DNA/RNA extraction modules.
- The system must support a variety of DNA/RNA purification chemistries via the use of vacuum filtration and magnetic bead extraction/purification.
- The liquid handler must be able to use Agencourt methods in a fully automated format and provider must be able to guarantee performance of these chemistries on the system.
- Must be able to pipette accurately from 1 microliter to 250 microliters.
- The work surface of the liquid handler deck must offer at least 15 microplate deck positions.
- The liquid handler must be able to stack microtiter plates 4 high on each deck position.
- The total microplate processing capacity on the deck must be at least 36 plates.

- The liquid handler must provide the ability to store up to 17 additional plates or 5 tip boxes to reduce the need for labware storage attached to the instrument.
- The system must provide for 96 and 384 well microplate heating and cooling capability at a variety of temperature ranges (0 to 90 degrees F).
- The system must provide for automatic tip loading and unloading.
- The size dimensions must not exceed: Height 44 inches; Width 42 inches; Depth 32 inches.
- The liquid handling system must provide for completely automatic self-calibration to provide for positional accuracy.
- The operating system must provide simple rearranging between 96 and 384 well formats.
- The operating system software must have simulation software for desktop method writing and visual viewing of the method written. The robotic simulation must be a 360 degree view of the robot and allow for observation of the robotic execution of the method written. The software must also provide the total amount of time that it will take to run the method written.
- The software must support predefined pipetting techniques that include low volume pipetting controls, taking into account the variability in viscosity/surface tension from one reagent/solvent to another.
- The system must have the minimum of a one (1) year warranty for all parts, labor, travel and include installation, start up training, and support for validated applications. The contractor must include in their services travel to the site to install and start up the equipment and train the staff on use of the equipment.

DEFINITIONS:

“Debt” means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers’ compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

“Debtor” means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. “Political subdivision” means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. “Related party” means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

EXCEPTION: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers’ compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.
