Questions and Answers

- Q1. Will Ditch 2 enter the pond through the trees?
A1. Yes, near the corner of the pond where the water comes in from the hollow above.
- Q2. Will the grass road at Ditch 2 be maintained?
A2. No, this will become a ditch line to carry water.
- Q3. Is Ditch 1 going down the flat area where you're reclaiming the highwall?
A3. No, that portion will not be along the road and it will dump over the hill.
- Q4. On the relocated access road of the lower site, do you want stone on it?
A4. Stone wasn't included, but if any can be salvaged from the site please do so.
- Q5. On the highwall reclamation do you want a two to one slope?
A5. Yes from where we are now all the way back to where the trucks are parked.
- Q6. Where do you anticipate getting the spoil for the highwall?
A6. You can get it from the point and if that's not enough go out to the other point.
You can go down as far as the sediment ditches.
- Q7. In the back of Area 1 do you have to leave enough road to get a seeder back in?
A7. Yes, whenever you run your two to one slope it will be awfully close to the edge of the bench so you may have to work your way out. I don't anticipate leaving a road from where our vehicles are parked at this present time.
- Q8. Do you want the highwall on a two to one slope?
A8. Yes, you will start here to where the adjacent land owner has marked the area with no trespassing signs and if it's not two to one you will make it so.
- Q9. Can we go down over the hill from this area?
A9. You can only go down to the sediment ditch, anything that is on the outside of the sediment ditch do not disturb unless you need to remove some material for sheet flow.

- Q10. The borrowed material is coming from here also?
A10. Yes, this area is to be taken down, no lower than sheet flow.
- Q11. During the highwall reclamation are we allowed to create a dip for sheet flow?
A11. No.
- Q12. On the highwall are we to maintain the sediment ditch on that end?
A12. No, you re going to eliminate the sediment ditch.
- Q13. It seems there's nothing to do between Area 1 and Area 2 except what's been disturbed on your way in and out?
A13. That is correct.
- Q14. Is the property owner's access road in the spoil?
A14. No, it was an existing road and the spoil is right beside it
- Q15. Does the property owner's access road need to stay level or can it slope down?
A15. No, this road can be changed but it needs to tie back into the existing road going into the woods.
- Q16. Is the gate kept locked?
A16. Yes, it is locked and you can open it with the key we normally use. If you don't have one stop by the office and we'll give you one.
