**Addendum #1 - Questions During Pre-Bid Meeting  
For DEP 14146  
Glade Run Mining Permit # 3-72**

- 1.) **Q.** Have you done any boring at the pond area?  
**A.** No, this is a former pond site.
  
- 2.) **Q.** How high will the seep collector be installed along the bank?  
**A.** About 10 feet on the bank, just high enough to get the water to gravity flow toward the beginning of the new treatment pond location. The existing pond site may need to be lowered to bring the seep water to the beginning of the treatment system.
  
- 3.) **Q.** Is there a problem with coming back to hand bore the old pond site?  
**A.** No problem, you can come back. We do not know what was used to backfill the site.
  
- 4.) **Q.** If we have too much dirt down there (old pond site), where are we going to take it?  
**A.** This would be an option to bring it up here (standing at a small pond to be regraded) at this old pond site, we also talked about filling areas near the new treatment pond site, and getting rid of some of the material over the side pending land owner approval off of the original bonded area, and we can fill in any areas on the bonded site.
  
- 5.) **Q.** Who is the landowner?  
**A.** He lives on the strip just above the work area, his last name is Davis.
