Q1. Does the water from the highwall pond have to be pumped or can it be trenched to be removed from the site?

A1. It should be pumped out in a controlled manner so if it starts to get out of hand it can be easily shut off.

Q2. Can you leave a hump in the land reclamation of the highwall?

A2. No, it has to sheet flow perpendicular to the highwall, it can't slope right or left of the highwall. It must sheet flow to the stream.

Q3. What do you do with the timber and brush? Windrow it?

A3. You can just bury the timber and brush.
