ADDENDUM NO. 2

Answers to Technical Questions

1. On page 1 it states "NO INSTALLATION REQUIRED." Later On page 9 it states "Installation is not included". Again On in the Bid it If this is true why paragraph 1 on page 10 it states " Vendor should have an in-state Cisco Certified Internetworking Engineer... then later..Vendor should have local technicians" There is request for Hourly Rate for Certified Technician Hourly Rate. Please clarify is there installation and /or any services with this bid request. **ANSWER: The vendor will not be required to install any equipment purchased off this contract. The WVOT plans on installing the vast majority of Cisco IPT equipment ourselves. Should problems occur during installation which cannot be resolved by State Personnel or the ITECH06 contract personnel if hired to assist in the installation, we want the Vendor from this contract to be able to help get what they sold operating to manufacturer specifications in our environment, with telephone and on-site support work as required. If the problem is with the equipment, it should be covered under warranty. If the problem is not with the equipment but is instead because of the State's set-up, the Vendor could charge WVOT for the time spent. If any future procurement requires a turnkey solution, it will be bid out separately.**

2. If the answer to question 1 is yes, why are services included on this bid when there is already a service contact in place with ITECH06? **ANSWER: Please see the response to item 1.**

3. If the answer to question 1 is yes, on Page 12 you list 10 hours of support. Can you give a detailed scope of work of what that support is to include? **ANSWER: Please see the response to item 1.**

4. If the answer to question 1 is yes, On page 10 the Vendor should have an in-state Cisco Certified Internetworking Engineer (CCIE). Since this is for Voice. Is the CCIE required to have CCIE-Voice Certification? Also is all work performed under this contract to be performed by that CCIE Voice Engineer? Must the CCIE-Voice Engineer be on call 24x7x4 x365 within ninety minutes over the course of the contract. **ANSWER: The bid says that the vendor "should" have a CCIE but is required to have Cisco authorized technicians specifically trained by Cisco on the products being provided. Should a critical problem arise during implementation, the vendor would be required to respond within 90 minutes 24x7x365.**

5. If the answer to question 1 is no, then is it understood that the only procurement needs from this RFQ is Hardware and Cisco Smartnet? **ANSWER: Please see the response to item 1.**

6. On Page 11 and 12 you provide a list of Hardware and Smartnet. Is that for an initial purchase or items to be spread over the course of a contract? **ANSWER: This is a scenario from which the bid award will be made. We believe this is a good example of what we expect the most frequently purchased items to be.**

7. Besides the list of items provide you reference what appears to be other items purchased not listed from Cisco Global Price list that we are to provide a discount price for items. Do you have a list of the items that will be purchased in the future? Also can

you provide quantities and or estimates of items and quarantines that may be purchased the remainder of the 1 year and extend possible 2 and 3 years**? ANSWER: The purpose of this open end contract is to allow us to buy what we need when we need it. As we proceed through centralization and standardization, some agencies will need equipment that we may not foresee. Additionally, as the technology changes, we can purchase the new equipment as it is added to the new updated Cisco global price list using the same blanket "discount below list" as described in this RFQ.**

8. On Page 9 you state "Vendor must be authorized to provide the agency with access to Cisco's Technical Assistance Center (TAC)." This access to TAC comes to Cisco Customers automatically with the purchase of Smartnet. Can you clarify if the State is looking for something more than is what is provided by Cisco? **ANSWER: We may need access to Cisco's TAC even for items for which we did not buy SmartNet maintenance.**

9. In this RFP several references have been made to TAC, Engineers, "authorizations to sell...". Cisco has performed extensive requirements that Vendors Must be Certified IPT partners to sell, support IPT gear. It appears you are asking for an "Advanced Unified Communications Partner" Are you asking for something other than the Cisco Requirements? **ANSWER: The RFQ requirements referenced are basically for the vendor to be authorized by Cisco to sell and support Cisco IPT equipment and SmartNet, the vendor to provide people who are authorized by Cisco to work on the equipment we are procuring, and the vendor to provide access to Cisco's TAC.**

10. Why do we need to fill out a spreadsheet if all you are looking for are Discount Rates off List? What if the list price changes between bid opening and PO? Which will prevail the list price or the amount shown on the spreadsheet? **ANSWER: The spreadsheet is the pricing for the scenario. These are based on your discount rate off the list price for both the equipment, the SmartNet, as well as some billable hours. We also, through a change order, are providing the specific Cisco price list that you are to use so that everyone is using the same base price.**

11. Must the discount be extended for the entire 3 years if the PO were to be extended? **ANSWER: Yes. The vendor can always give us a deeper discount. Each year we will sit down with the vendor to discuss discounts but if the vendor would have to raise the discount, we would have to rebid the contract.**

12. On the Smartnet offering. Cisco allows some authorized vendors to "rebrand" if you will...selling Smartnet using the Vendor to take the first call instead of Cisco TAC. Please define the Smartnet requirement, are you asking for "Cisco Branded Smartnet" or the option that the vendor sells as an authorized Cisco TAC**? ANSWER: We are requesting the Cisco Branded Smartnet.**

13. If the answer to number 12 is allowing not the Cisco Branded, how will the Bid calculation be calculated to compensate for variances' in List pricing? **ANSWER: We are requesting the Cisco Branded Smartnet.**

14. Since Smartnet is normally a fraction of the cost, should the formula be A+b+c**? ANSWER: The Scenario total will determine the cost comparison. We did not request SmartNet on each and every product – only a few – which should make the Scenario the typical circumstance.**

15. How do you calculate a %+%+$? Will you show example comparing 2 or 3 outcomes and how a bid would be awarded in different scenarios? **ANSWER: The calculation is not "the percentage discount for hardware and software plus the percentage**

discount for Smartnet plus the hourly rate". The Scenario total will determine the cost comparison and the vendor with the lower cost.

16. Will this bid be extended or time offered for clarifications to the Q&A? **ANSWER: No, bid opening date remains: 07/12/2007 at 1:30 pm.**

17. Will the bid be awarded to only one vendor or split to multiple vendors? **ANSWER: This bid will be awarded to only one vendor.**

18. How will the award be determined if the bid percentages come back a tie? **ANSWER: The Purchasing Manual addresses tie bids as follows: Occasionally two or more bids of equal terms and dollar amount are received in response to a solicitation, thus, resulting in a *tie bid*. If multiple awards are not made, then the tie bid(s) must be resolved. The preferred method for resolving tie bids is the flip of a coin, draw of a card, or any other impartial method. The Purchasing Division must make the final decision in tie bid situations exceeding $10,000.**

Global Price List US Availability - Effective: 19/Jun/2007
