

## SOLE SOURCE DETERMINATION

The Purchasing Division has been requested to approve a sole source purchase for the commodity or service described below. Pursuant to West Virginia Code 5A-3-10c, the Purchasing Division is attempting to determine whether the commodity or service is a sole source procurement. If you believe your company meets the required experience and qualification criteria stated below, please e-mail the Purchasing Division Buyer at [Roberta.A.Wagner@wv.gov](mailto:Roberta.A.Wagner@wv.gov) with a copy to [Karen.Q.Byrd@wv.gov](mailto:Karen.Q.Byrd@wv.gov) to express your interest in the project. Please forward any and all information that will support your company's compliance with required qualification and eligibility criteria along with any other pertinent information relative to this project to the Purchasing Division no later than 6/16/2008.

**Requisition Number:** LBS90022

**Department/Agency:** DHHR/BPH/Office Laboratory Services

Detailed Description of Project: Open-End Contract to purchase products for typing of Streptococcus pneumoniae isolates from human specimens to determine the effectiveness of the current Pneumococcal vaccine and provide products for the serotyping of Salmonella Isolates from human specimens.

**Proposed Sole Source Vendor:** MiraVista Diagnostics, Inc.  
4444 Decatur Blvd., Ste. 300  
Indianapolis, IN 46241

**Specific Eligibility Criteria:** The Pneumococcal products are the only products available on the market to serotype specimens in approximately 2 minutes. These products are solely manufactured by SSI (Statens Serum Institut in Denmark) for which MiraVista Diagnostics is the sole distributor in the United States.

While the Salmonella antisera products are not the only products available for testing of Salmonella, they have been found to give the most accurate results. Other products used at OLS have given false positives.

**Specific Qualification Criteria:** MiraVista Diagnostics is the sole distributor in the United States for Statens Serum Institut, the manufacturer of the only Pneumotest latex agglutination kit available to produce result in 2 minutes. This was determined through internet research, documentation from the vendor and the manufacturer. Attached your will find an internet article from the Journal of Clinical Microbiology and an internet page from the manufacturer (Statens Serum Institut)
