Addendum 1 to RFQ BCF90128

Response to Vendor Questions:

Question: 1) section 1.1 requests a MANUAL system. Should we assume that it is Mechanically operated with a 3 spoked handle control, (a chain turns a sprocket that turns the wheels)? Also, should the single sided Movable lockable unit be Mechanically operated?

Response: We refer to a manual system as one the operator turns a 3 spoked handle and the carriages move either left or right. The system is designed to close and lock so one single sided carriage should move and the other should be fixed.

Question: 2) section 1.3, will this equipment be installed on any other floor besides, the ground floor?

Response: No.

Question: 3) Is the existing floor concrete?

Response: Yes.

Question: 4) section 2.1, do you want the rails to be anchored to the floor, leveled and then grouted?

Response: Yes.

Question: 5) section 2.5, should we provide carpet that will be close in color to what is existing?

Response: Yes, the carpet is available locally so you should be able to make an exact match.

Question: 6) section 2.6, Are you stating that the shelving height may not exceed 76" high? Should we assume that you are requesting 7 openings plus a top?

Response: No, 6 openings.
