

SOLE SOURCE DETERMINATION

The Purchasing Division has been requested to approve a sole source purchase for the commodity or service described below. Pursuant to West Virginia Code 5A-3-10c, the Purchasing Division is attempting to determine whether the commodity or service is a sole source procurement. If you believe your company meets the required experience and qualification criteria stated below, please e-mail the Purchasing Division Buyer at Roberta.A.Wagner@wv.gov with a copy to Karen.O.Byrd@wv.gov to express your interest in the project. Please forward any and all information that will support your company's compliance with required qualification and eligibility criteria along with any other pertinent information relative to this project to the Purchasing Division no later than 10/13/2008.

Requisition Number: BPH90076

Department/Agency: WV DHHR/BPH/STECS

Detailed Description of Project:

Sole source purchase to provide parts and equipment for maintenance and operation of the State Medical Command Microwave and West Virginia UHF Trunked Radio System. Vendor must provide specific parts and equipment which is compatible with the existing WV Motorola Smartzone P25 UHF Trunked Radio System. Replacement parts must be specific to the type and software utilized in the Motorola ASTRO 25 Smartzone Master Site and UHF IR Sites. Console equipment must be capable of direct wire-line/microwave connectivity directly into the Motorola ASTRO 25 Smartzone Master Site Switch allowing control of all talk groups and cannot utilize a wireless control station for the interface or other retrofitted adaptor hardware.

Proposed Sole Source Vendor: Motorola Communications & Elec.

Specific Eligibility Criteria:

Vendor must be able to provide Motorola or equivalent parts and equipment which meets the following Specific Qualification Criteria:

Specific Qualification Criteria:

Must meet the following requirements:

- Replacement parts must be specific to the type and software utilized by the current Motorola P25 Smartzone Master Site and UHF IR Sites.
- Console equipment must be capable of direct wire-line/microwave connectivity directly into the Motorola P25 Smartzone Master Site Switch and allow control of all talk groups. Console equipment connectivity cannot utilize a wireless control station interface or other retrofitted adaptor hardware.
