ADDENDUM #01

In regards to questions received by your office reference this RFQ, the following is the information provided to me by our communications section and should serve as an addendum to DPS 0936.

The first question was to have 30 days from the time of the RFQ was issued to respond to technical discussions to be written to explain how the vendor achieves certain functions. Our agencies response is that the vendors should already have their answers and that the normal time allowed for this should suffice. Multiple vendors have requested additional time, but it is the stance of the agency that the time provided is sufficient.

The second question regarding item 1.2, and requesting that this clause be changed to include all of North America. Our agencies response is that the vendor can list all of North America, must show large successful installations in the U.S.

The third question was in regards to the potential of the size of the PSAPs. Our response is that at this time we cannot provide a number of how many client licenses we will require nor will any other agency at this time. We recommend the vendor bid both Client and Server if that is what they can offer; and Tier 1, Item 2 is in regards as to how many people we expect to be trained.

The fourth question was in regards to what type of budget the WVSP has allocated for this project. Estimated budget amounts are not provided
