GENERAL TERMS & CONDITIONS REQUEST FOR QUOTATION (RFQ) AND REQUEST FOR PROPOSAL (RFP)

1. Awards will be made in the best interest of the State of West Virginia.
2. The State may accept or reject in part, or in whole, any bid.
3. All quotations are governed by the *West Virginia Code* and the *Legislative Rules* of the Purchasing Division.
4. Prior to any award, the apparent successful vendor must be properly registered with the Purchasing Division and have paid the required \$125 fee.
5. All services performed or goods delivered under State Purchase Order/Contracts are to be continued for the term of the Purchase Order/Contracts, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods, this Purchase Order/Contract becomes void and of no effect after June 30.
6. Payment may only be made after the delivery and acceptance of goods or services.
7. Interest may be paid for late payment in accordance with the *West Virginia Code*.
8. Vendor preference will be granted upon written request in accordance with the *West Virginia Code*.
9. The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
10. The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
11. The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern all rights and duties under the Contract, including without limitation the validity of this Purchase Order/Contract.
12. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
13. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, this Contract may be deemed null and void, and terminated without further order.
14. **HIPAA BUSINESS ASSOCIATE ADDENDUM:** The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, and available online at the Purchasing Division's web site (<http://www.state.wv.us/admin/purchase/vrc/hipaa.htm>) is hereby made part of the agreement. Provided that, the Agency meets the definition of a Cover Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.
15. **WEST VIRGINIA ALCOHOL & DRUG-FREE WORKPLACE ACT:** If this Contract constitutes a public improvement construction contract as set forth in Article 1D, Chapter 21 of the West Virginia Code ("The West Virginia Alcohol and Drug-Free Workplace Act"), then the following language shall hereby become part of this Contract: "The contractor and its subcontractors shall implement and maintain a written drug-free workplace policy in compliance with the West Virginia Alcohol and Drug-Free Workplace Act, as set forth in Article 1D, Chapter 21 of the West Virginia Code. The contractor and its subcontractors shall provide a sworn statement in writing, under the penalties of perjury, that they maintain a valid drug-free work place policy in compliance with the West Virginia and Drug-Free Workplace Act. It is understood and agreed that this Contract shall be cancelled by the awarding authority if the Contractor: 1) Fails to implement its drug-free workplace policy; 2) Fails to provide information regarding implementation of the contractor's drug-free workplace policy at the request of the public authority; or 3) Provides to the public authority false information regarding the contractor's drug-free workplace policy."

INSTRUCTIONS TO BIDDERS

1. Use the quotation forms provided by the Purchasing Division.
2. **SPECIFICATIONS:** Items offered must be in compliance with the specifications. Any deviation from the specifications must be clearly indicated by the bidder. Alternates offered by the bidder as **EQUAL** to the specifications must be clearly defined. A bidder offering an alternate should attach complete specifications and literature to the bid. The Purchasing Division may waive minor deviations to specifications.
3. Complete all sections of the quotation form.
4. Unit prices shall prevail in case of discrepancy.
5. All quotations are considered F.O.B. destination unless alternate shipping terms are clearly identified in the quotation.
6. **BID SUBMISSION:** All quotations must be delivered by the bidder to the office listed below prior to the date and time of the bid opening. Failure of the bidder to deliver the quotations on time will result in bid disqualifications: Department of Administration, Purchasing Division, 2019 Washington Street East, P.O. Box 50130, Charleston, WV 25305-0130

Request for Quotations #GSD096421

Technical Questions and Answers

Question#1: If the yardage is more than the specified yardage will there be extra pay per yard? Will there be a deduct if the yardage is less?

Answer#1: If the yardage exceeds the estimated quantities in the RFQ (4000 cu yd of debris + 131 cu yd of contaminated soil = 4,131 cu yds), the Agency will consider a change order request from the vendor. No deduction will occur if the amount if found to be less than the estimate.

Question#2: How soon after the bid date do you anticipate this project beginning?

Answer#2: Upon award of an approved purchase order from the State Purchasing Division. This is contingent upon many factors, including successful bidder responses to the State Purchasing Division; however, the average turnaround time is 2-3 weeks.

Question#3: Can I get a copy of the floor plan and asbestos inspection report?

Answer#3: See attached report including drawings of area.

Question#4: What is the estimated amount of debris to be removed from cass? Does this include both buildings? Does this include the five inches of soil under the buildings?

Answer#4: Per the specifications, the estimated amount of debris and contaminated soil from the entire jobsite is 4,131 cubic yards. This include the existing rubble pile and the adjacent standing wood structure.

Question#5: What is the projected start date?

Answer#5: Immediately following award of an approved purchase order by the State Purchasing Division, a pre-construction meeting will be held to determine a notice-to-proceed date. It is desired that this date be no later than mid-December, 2008.

Question#6: What is the available supply of water?

Answer#6: Water is to be provided from a fire hydrant/yard hydrant, but due to the limited supply of water for the town of Cass, water conservation is important. Usage of water should be limited to during demolition and load-out activities.

Question#7: Is it a requirement that truck drivers need to be licensed asbestos workers?

Answer#7: No. Please add “,with the exception of truck drivers.” To the end of the second bullet point on Page 12 of the RFQ. Truck drivers are to remain in the cab during loading and unloading.

Re: Executive Summary, Asbestos
Inspection, Former Cass Grade
School Complex.

Dear Mr. Caplinger:

Attached hereto and made a part thereof is the above referenced report.

The inspection was performed by the undersigned on March 18, 2008. The inspection was performed as required by US EPA 40 CFR 61, November 20, 1990, Section 61.145 prior to demolition. The inspection was carried out, to the greatest extent possible due to collapsed building sections and large debris pile, in accordance with Code of State Regulation 64 CSR 63, May 4, 1998, Section 64-63-7.

It should be understood that approximately one half of the main building has collapsed and has been "pushed up" in a large debris pile. The remaining section of the main building has partially collapsed (2nd floor collapsed onto 1st floor). Access to the 2nd floor could not be safely performed.

The gymnasium remains intact but shows signs of structural failure (large cracks in concrete block walls).

The entire complex has been "Dangered off" with signage. Anyone entering into this area is hereby warned that numerous safety hazards exist which require extreme caution and all appropriate safety measures.

According to information received from the WV DNR, Parks and Recreation, the main building was constructed with a south wing built in 1915 and a north wing built in 1916 containing approximately 14,000 square feet of floor space. The concrete block gymnasium was built in 1949 with approximately 5500 square feet of floor space.

I.

EXECUTIVE SUMMMARY

Crawlspace areas are present under the main building section still standing. Crawlspace associated with the remaining section are concealed under the debris pile.

The complex was closed as a school in 1970.

Asbestos-containing/contaminated materials identified as a result of the inspection are summarized below:

<u>Building Name/No.</u>	<u>Material Description</u>	<u>Location</u>	<u>Quantity</u>	<u>Approx. % Asbestos</u>
Main Bldg. (standing) CR1-1	Transite Panels (in place on side of building)	Possible firewall between the 1915 and 1916 Construction	50 ft ³	20 Chrysotile
	Air Cell Pipe Insulation	Crawlspace and 1 st floor Accessible from the gym	127 lf	100 Chrysotile
Main Bldg. Debris Pile	Plaster and Contaminated Debris	Throughout Debris Pile	2400 yd ³	10 Chrysotile

Note: In addition to asbestos-containing plaster, transite panels and pipe insulation may be buried in the debris pile. The ground surface under the debris pile is also considered contaminated, approximately 8000 square feet(ft²).

Gymnasium CR1-2 Asbestos was NOT DETECTED in Quantities greater than 1% (TRACE CHRYSOTILE)

Note: Roofing samples and window glazing collected from the debris pile and main building section as well as from the gym contained asbestos quantities less than 1% (TRACE CHRYSOTILE).

Because none of the second floor of the main building and most of the first floor of the main building was not safely accessible, additional asbestos inspection may be required during the demolition phase of the project. Quantities listed in this document shall be considered approximate due to site conditions.

Please review this document carefully and do not hesitate to contact me if you have any questions.

Sincerely,
Engineering & Testing 2000, Inc.

Rob Dillon
Asbestos Inspector
