WHEN RESPONDING TO RFQ, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'

PART 1 GENERAL

1.1 Request for Quotation to provide all labor, material and anything incidental to the acquisition and installation of a fully complete Kardex Kompakt or equal, mobile, lateral, high density filing system as defined herein for the Barbour County office location of the Department of Health & Human Resources. The system must be manually operated and accommodate the approximate stated amount of linear filing inches as specified for 8 ½" x 11" documents and be off-white in color. All work will be in compliance with Fire Marshall regulations and all other building codes and industry standards. The award will be made to the overall low bid that complies with the specifications.

1.2 The following is information regarding the installation location and the system size

<p>1.2.2 Barbour County DHHR Phillippi Industrial Park Phillippi, WV 26416 Phone: (304) 457 – 2780</p>	<p>16,800 linear file inches</p>
---	----------------------------------

1.2.3 The above-mentioned building is currently under construction with an anticipated completion date of September 2009. The file system will be installed during the final stages of construction. The floor plan allows for a footprint of 16' deep x 24' long and the system being bid cannot exceed those dimensions.

1.3 It is the bidder's responsibility to verify all field conditions and building weight limitations prior to bidding. It is also the bidder's responsibility to notify the West Virginia Department of Health & Human Resources in writing, of conditions detrimental to proper and timely completion of the installation. Do not proceed until nonconforming conditions have been corrected.

1.4 The intent of this Request for Quotation is to provide the using office with a high quality, mobile lateral filing system. The foregoing specifications are to be considered nominal and approximate. Minor deviations from the stated specifications are acceptable to facilitate a competitive bid atmosphere provided the intent of the Request for Quotation or the effectiveness of the system is not compromised. No deviation is permitted on the space or configuration requirements. **ALL VENDORS PLEASE NOTE: This system is to be 100% complete. All braces, dividers or any other component necessary to properly utilize the filing system will be included with the initial installation at the offered price. This is not negotiable and payment will not be made to the vendor if they should fail in any way to meet this requirement.**

PART 2 TECHNICAL SPECIFICATIONS

2.1 TRACKS: Each modular track assembly will consist of two 14 gauge (minimum) formed steel rails. The rail assembly will be welded to a minimum of 4 corresponding 14 gauge steel (minimum) support channels. Track assemblies are leveled by adjusting built-in leveling glides found in the support channel located every 12 inches on center. End stops are installed at each end of the rail assembly to provide a safe,

cushioned stop for the mobile carriage. All track assemblies will include a stainless steel decorative cap. This cap will be attached to the front of the track assembly giving it a finished profile.

2.2 CARRIAGES: Carriages consist of sections of "U" shaped formed cold roll steel 13 gauge and 14 gauge stringers and cross members, all electrically welded to form a strong and durable frame. **Each seam will be fully welded. Occasional spot welds that allow the sheet metal surface to bow between welds is unacceptable.**

2.3 WHEELS: Carriage wheels will be 5" in diameter (+/- 1" acceptable) with each wheel having heavy-duty, double sealed, permanently lubricated, ball bearings. There are a minimum of four wheel assemblies per carriage.

2.4 FINISH: All steel parts are thoroughly cleaned in a three stage iron phosphate washer. Each steel component is then coated with an epoxy powder coat finish using an electrostatic paint system. This paint system ensures a long lasting and durable finish. Finish system that exceeds these specifications and achieves the same long lasting and durable finish is acceptable.

2.5 DECKING: Decking will be installed so the tracks will be level with the floor surface. The decking will be as recommended by the filing system manufacturer and will be covered with a finish flooring material. If the filing system manufacturer does not provide a covering, the decking will be covered consistent with surrounding flooring.

2.6 WORKING HEIGHT: This shall be a file system comprised of 6 shelves with each shelf being appropriately sized to accommodate 8 1/2" x 11" documents.

2.7 REFERENCE SHELF: There shall be one retractable reference shelf located approximately 38" above the floor surface on each side of each aisle at a point towards the aisle center. The shelf should be capable of holding ten pounds of weight at a fully open position.

2.8 INSTALLATION LOCATION: The system shall be installed in the location known as the file room unless otherwise specified.

2.9 CONTROLS: The system shall be designed so that the entire file system can be closed by turning the handle on the last shelf unit. The last shelf unit will push all open shelf units to a closed position. This prevents having to close each shelf unit individually.

2.10 UNDERCARRIAGE ANTI-TIP: For safe operation of the system, an anti-tip device shall be provided and bolted to the carriage which has a lip riding in the flange on each rail, (2 per wheel). Anti-tip angles must be constructed of no less than 11 gauge steel and must have a bottom flange (interlocking with rail) of no less than 7/8" wide. Overhead mounted products are unacceptable.

2.11 AISLES: Aisle requirements are minimum distances from a fully open position. The system shall have two 36" aisles.

2.12 SHELF DIVIDERS: A minimum of two shelf dividers shall be provided with each shelf opening.

2.13 WARRANTY AND RESPONSE TIME: A response time of 48 hours is requested and shall have a minimum one year warranty.

PART 3 SPECIAL CONDITIONS

3.1 The contractor shall coordinate all site activities with a designated representative from the physical location

3.2 The contractor shall be adequately bonded and insured to fully indemnify and hold harmless the property owner and/or the Department of Health & Human Resources from and against any and all claims arising from the performance of this contract.

3.3 The contractor shall complete all work within 70 calendar days after receiving the notice to proceed.

3.4 A payment shall be made as the location is 100% complete and accepted by the Department of Health and Human Resources.

3.5 The contractor shall pay the higher of the U.S. Department of Labor minimum wage rates for all labor performed on site as established for Barbour County pursuant to West Virginia Code § 21-5-1, et. seq.
