Contract Specifications

To provide for the hauling and disposal of leachate from the Jefferson County Landfill to the Washington County Wastewater Treatment Plant at Williamsport, MD, or the nearest DEP approved wastewater treatment plant, as directed by DEP. Hauling will be at cost per 100 gallons.

A mandatory pre-bid conference will be held at the Jefferson County Landfill. All interested parties are required to attend this meeting. Failure to attend the mandatory pre-bid shall result in disqualification of the bid. No one person may represent more than one bidder.

An attendance sheet will be made available for all potential bidders to complete. This will serve as the official document verifying attendance at the mandatory pre-bid. Failure to provide your company and representative name on the attendance sheet will result in disqualification of the bid. The State will not accept any other documentation to verify attendance. The bidder is responsible for ensuring they have completed the information required on the attendance sheet. The Purchasing Division and the state agency will not assume any responsibility for a bidder's failure to complete the pre-bid attendance sheet. In addition, we request that all potential bidders include their e-mail address and fax number.

All potential bidders are requested to arrive prior to the starting time for the pre-bid. Bidders who arrive late, but prior to the dismissal of the technical portion of the pre-bid will be permitted to sign in. Bidders who arrive after conclusion of the technical portion of the pre-bid, but during any subsequent part of the pre-bid will not be permitted to sign the attendance sheet.

Treatment Charges

The WVDEP shall be responsible for payment of the treatment charges to the wastewater treatment plant. These costs will not be included in the amount bid. The vendor shall submit load receipts to the WVDEP Project Manager from the wastewater treatment plant indicating date, time and amount of leachate disposed. These receipts must have the signature of the agent of the wastewater treatment plant and will be the basis for payment. Stamped signatures are not accepted.

Vendor Responsibilities:

The vendor is responsible for the pumping, hauling and delivery of leachate from the Jefferson County Landfill.

The vendor shall comply with all common carrier requirements of the West Virginia Public Service Commission to haul leachate in the State of West Virginia. The vendor shall be solely liable for any damages or claim thereof resulting from the vendor's conduct in loading, transporting or unloading leachate, and agrees to fully indemnify the WVDEP for any such claims brought against it. The vendor will only haul and dispose of leachate at the times designated by the wastewater treatment plant. The contract shall require the vendor to haul from the tank as directed by the WVDEP.

The vendor shall lock the discharge valve while it is not in use. The Valve will remain locked to prevent unauthorized use. The WVDEP Project Manager will furnish all keys to the locks at the facility.

The vendor will have approved gauges or meters (site glasses or manometers, etc.) on the hauling equipment to be used for easy verification of the amount of each load by the attendant at the disposal site. The vendor will verify and document the actual capacity of the equipment used to haul leachate.

The vendor shall maintain the liquid level in the leachate storage tank as low as possible to comply with the 15 day storage capacity requirement, as well as the zero discharge limitations in effect for the storage tank. In case of emergency, the vendor must respond within 4 hours of being contacted by the DEP.

The vendor shall notify the WVDEP Project Manager if the liquid level in the storage tank exceeds the freeboard arrow mark on the side of the tank, based upon the gauge readings of the tank contents.

The vendor shall provide equipment suitable to the WVDEP for performing the work. The tanker(s) shall have adequate capacity to transport the volumes required. The WVDEP shall provide a graduated scale calibrated in feet and inches showing conversion ratios in gallons per vertical inch, based upon the tank gauge reading of the tank contents.

The vendor shall be responsible for the payment of all costs associated with snow removal necessary during periods of inclement weather to assure compliance with this contract.

The WVDEP will otherwise maintain the access road to the landfill site, which shall include repair of potholes, soft areas, maintenance of drainage control devices and all other incidentals required.

For any future meters or totalizer instruments installed, the vendor shall maintain and submit all records reflecting any volumes of liquids removed from the tank.

DEP Responsibilities:

If required by the wastewater treatment plant, the WVDEP shall be responsible for payment of the sampling, testing, and reporting of the leachate constituents. Currently, each load is sampled at the wastewater treatment plant, composite samples are created and the samples analyzed.

The WVDEP shall provide a form and the vendor shall complete the form in accordance with the graduated scale, indicating the beginning feet to the inch and corresponding number of gallons and the ending feet to the inch and corresponding number of gallons for every truck load and attach the form (s) to invoices submitted to the WVDEP for payment (**See Attachments "A" and "B"**).
