**DNR210015 Question and Answers
Geotextile Fabric and Engineered Wood Fiber Bid**

Q: The problem is that there is no depth specified. To figure the materials needed we need to be able to convert the sq. footage X depth over to Cubic Yards? The materials delivered will be sent in Cubic Yards based on that depth. We would also need to know if you are requesting a "compacted depth" or "uncompacted depth" as we normally figure extra material since it will compact down over a short time.

A: The depth should be 8" compacted.

Q: On most bids we work on, the bid states price per Cubic Yard. Since each job may require different depths depending on how much is needed to replenish the site or, on new sites, the depth is determined by the height of the equipment.

A: The bid is to be based on square feet, not cubic yard.

Q: Most bids also state that there will be a certain minimum that will be ordered. Freight is a large part of this. IF you order 20 cubic yards, then the freight is as much as the material. If you order 100 cubic yards then the freight is much less. Each truck can haul up to 100 cubic yards.

A: The minimum is 1,000 square feet per location.
