Answers to Technical Questions**

QUESTION:

In the case of Blackwater, cover plates were required and you do not list this as an item to be bid. If I do not quote it, you will have an existing hole which will not be covered. Should this be addressed?

ANSWER:

Vendors are referred to Detailed Specifications; Section "C" entitled Workmanship which whereby addresses holes remaining in doors, specifically:

- "Holes must be covered or filled in accordance with manufacturer's specifications."

QUESTION:

Do they already have existing Credentials (prox cards, magstripe cards, prox fobs, etc...) or do they just want pin code access.

ANSWER:

There are no existing credentials. We are buying a complete hospitality locking system which integrates with our existing Property Management System using magnetic stripe cards for opening doors. Pin code access is not acceptable. The majority of the locks are being installed on hotel room doors and doors where public access needs to be restricted to hotel guests only.

QUESTION:

Do they already have some sort of access control system?

ANSWER:

No. We are buying a complete hospitality locking system.

QUESTION:

What types of doors will they be controlling (aluminum with glass, hollow metal, wood, etc...)

ANSWER:

Door sizes, widths, construction, materials, frames and existing hardware vary throughout. We are depending on the expertise of the bidder to properly evaluate and identify the proper locking mechanism(s) needed to meet the specifications of the Requisition. We recommend that bidders make a site visit to each location to identify the doors where new locks are to be installed and the location where the card programmer will be placed. Bidders should contact the Division's Authorized Representatives at each location.
