## Addendum No. 2

### DEFK11024

Q. Is there any preliminary study or map of the site available?

A. A preliminary drawing map is available and will be made available through West Virginia State Purchasing Division in hard copy format.

Q. What is the length of the proposed access road?

A. The length of the proposed access road has not been established. It will be the responsibility of the selected firm to select the most appropriate road alignment. However, the length of the access road on the preliminary drawing is approximately 850 feet.

Q. What is the acreage of the proposed grading and utility design?

A. The acreage of the proposed grading and utility design has not been established. As mentioned above in question 1.2 the selection of alignment for the access road will be the responsibility of the selected firm. In turn, grading limits cannot be determined until a road alignment has been selected. However, in the preliminary drawing, the limits of construction for this project are approximately 8.6 acres.

Q. Will the future building site be pre-determined? If so, will the project include rough grading for the site so that it may be used as a borrow/waste site for the road?

A. The future building sites for this project have been pre-determined. Rough grading for these building pads will be included in this project. There is potential to borrow/waste on site pending a geotechnical study, finding the soils to be suitable.

Q. Is it possible to view the site in person?

A. Site visits are not being permitted at this time; the provided map should be sufficient for this Expression Of Interest submission.
