## QUESTIONS AND ANSWERS

Q: Does the existing big rock in front of the middle seal need to be removed?

A: Any rock or other material that prohibits the installation of the seal is to be removed and disposed of off-site.

Q: Do we have to stowe the stone to construct the bulkhead?

A: No, stowing is not a requirement.

Q: Are we to clean the existing pipe that crosses the road?

A: The contract does not require cleaning of the pipe, however if construction efforts by the Contractor would cause material to clog the pipe, the Contractor will be responsible for cleaning the pipe at no additional cost to the WVDEP.

Q: Do we have to take out the tree in front of the third portal?

A: Yes. The tree will have to be removed and properly disposed of or burned off site. The cost of the tree removal will be incidental to the price of mine seal installation.

Q: What if the mine floor is lower than the elevation of the road?

A: The discharge pipe elevation within the mine seal will be adjusted to discharge to the existing road channel.
