Technical Questions for HST-1101

Question 1: The vehicle specifications show overall length no more than 22'. To provide 230sqft of lab space the overall length of the truck would be more than 22'. Is this acceptable?

Answer 1: Yes, the overall truck box length cannot be more than 22 feet long; this does not include the cab of the vehicle.

Question 2: It appears that the lab box structure specifications might not be structurally strong enough to accommodate the mast without additional support. How do we include this in the bid information?

Answer 2: Proper support to mount mast should be built into respondent's body structure.

Question 3: When the mast is deployed and lights and awning are extended, the truck might prove to be unstable. Should we include outriggers in the bid?

Answer 3: Vehicle Control System: Ability to monitor, activate and control all hydraulic and electrical subsystems.

Question 4: Is there a set performance period for completion of the project once it is awarded?

Answer 4: Delivery is expected 4-6 weeks post award.
