**GENERAL TERMS & CONDITIONS  
REQUEST FOR QUOTATION (RFQ) AND REQUEST FOR PROPOSAL (RFP)**

1. Awards will be made in the best interest of the State of West Virginia.
2. The State may accept or reject in part, or in whole, any bid.
3. Prior to any award, the apparent successful vendor must be properly registered with the Purchasing Division and have paid the required \$125 fee.
4. All services performed or goods delivered under State Purchase Order/Contracts are to be continued for the term of the Purchase Order/Contracts, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods this Purchase Order/Contract becomes void and of no effect after June 30.
5. Payment may only be made after the delivery and acceptance of goods or services.
6. Interest may be paid for late payment in accordance with the *West Virginia Code*.
7. Vendor preference will be granted upon written request in accordance with the *West Virginia Code*.
8. The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
9. The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
10. The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern the purchasing process.
11. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
12. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, the State may deem this contract null and void, and terminate such contract without further order.
13. **HIPAA BUSINESS ASSOCIATE ADDENDUM:** The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, is available online at [www.state.wv.us/admin/purchase/vrc/hipaa.htm](http://www.state.wv.us/admin/purchase/vrc/hipaa.htm) and is hereby made part of the agreement. Provided that the Agency meets the definition of a Cover Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.
14. **CONFIDENTIALITY:** The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures, and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf>.
15. **LICENSING:** Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, and the West Virginia Insurance Commission. The vendor must provide all necessary releases to obtain information to enable the director or spending unit to verify that the vendor is licensed and in good standing with the above entities.
16. **ANTITRUST:** In submitting a bid to any agency for the State of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the State of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the State of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership, or person or entity submitting a bid for the same material, supplies, equipment or services and is in all respects fair and without collusion or Fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

**INSTRUCTIONS TO BIDDERS**

1. Use the quotation forms provided by the Purchasing Division. Complete all sections of the quotation form.
2. Items offered must be in compliance with the specifications. Any deviation from the specifications must be clearly indicated by the bidder. Alternates offered by the bidder as **EQUAL** to the specifications must be clearly defined. A bidder offering an alternate should attach complete specifications and literature to the bid. The Purchasing Division may waive minor deviations to specifications.
3. Unit prices shall prevail in case of discrepancy. All quotations are considered F.O.B. destination unless alternate shipping terms are clearly identified in the quotation.
4. All quotations must be delivered by the bidder to the office listed below prior to the date and time of the bid opening. Failure of the bidder to deliver the quotations on time will result in bid disqualifications: Department of Administration, Purchasing Division, 2019 Washington Street East, P.O. Box 50130, Charleston, WV 25305-0130
5. Communication during the solicitation, bid, evaluation or award periods, except through the Purchasing Division, is strictly prohibited (W.Va. C.S.R. §148-1-6.6).

**WHEN RESPONDING TO RFQ, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'**

## NTIRES11 – General Specifications and Conditions

All tires and tube purchases shall be FOB destination with the vendor paying all shipping charges. The vendor shall indicate the maximum number of days after receipt of order that are necessary for the delivery of tires. Failure to indicate delivery days as required may be grounds to disqualify the entire quotation.

The State of West Virginia is not subject to the federal excise tax or the transportation tax. These taxes shall not be included in the delivered price of the merchandise shipped.

Vendors shall submit a list on the attached form (making extra copies, if needed) of all participating authorized distributors who will honor all terms and conditions of the contract. This list must include the name of the distributor, contract coordinator, mailing address, telephone numbers (include toll free if available), and fax number, for each.

**The vendor shall have sufficient locations to assure prompt delivery and service in all areas of the state.**

The discount rates quoted shall remain firm for the life of the contract.

All items stating a “**must**” or “**shall**” are mandatory requirements. Failure to provide or meet any of these mandatory requirements shall be grounds to disqualify the entire quotation.

Vendors shall not release tires without a valid purchase order, or, the West Virginia state agencies may order using a (p-card) purchasing card for all orders.

A copy of the manufacturer’s warranty shall accompany all delivered tires.

Radial passenger tires and radial truck tires – shall be replaced without charge (including mounting and balancing) during the first 25% of tread wear or 12 months whichever comes first.

All other tires shall be replaced without charge (including mounting and balancing) during the first 10% of tread wear.

Tires requiring replacement not covered within the “no charge language” shall be replaced on a pro-rata basis. The replacement price shall be calculated by multiplying the contract price by the percentage of tread wear at the time of adjustment. Mounting and balancing at no cost is included in the adjustment. Contactor is to ship all replacement tires and/or tubes freight paid.

Vendor shall submit the name, address and telephone number, toll free telephone number, fax number, and e-mail address of the contract coordinator.

All tires and tubes are subject to inspection, examination and test by the State of West Virginia. The right is reserved to select the type and size of tires and tubes for such tests at any or all times during the term of the contract. Tires chosen for inspection and testing shall be selected from actual deliveries made to any of the delivery locations. The State of West Virginia may require performance tests by recognized tire testing facilities to determine conformance with the requirements of the specifications contained herein. The right is reserved to reject any item that does not fully comply with the minimum requirements established by these specifications.

Failure as to construction, performance, or delivery shall subject the contract to termination and will result in action to indemnify the spending agency for any damages. If the vendor can and does immediately remedy the cause of the failure, which results in full compliance with specifications for subsequent deliveries, vendor will be given that opportunity.

The vendor shall furnish, at his cost, sufficient number of price lists for distribution to all agencies. The state shall provide a mailing /distribution list to the vendor for distributing the price list. These price lists shall be mailed within 20 days after the award of the contract. In addition to the copies distributed to the agencies, ten (10) copies shall be sent to the Purchasing Division. The number of copies required is approximately 300. The actual number shall be the number of addresses on the mailing list provided (plus the 10 copies to the Purchasing Division). The price list shall contain the contract number and the effective date on the front page. The price list shall indicate the actual state price (including any discount offered) opposite each tire and/or tube stock number. If, in the opinion of the Purchasing Division, it would be in the best interest of the State to have revised price books, the vendor shall provide new price books at no charge to the State of West Virginia.

### ***Specifications***

All tires provided shall be of first line quality tires of wide-spread public acceptance, consisting of latest tread design, distributed under manufacturer's brand names and carry the standard warranty of the manufacturer which is regularly and extensively furnished as regular equipment on products of major manufacturers of domestic U.S. automobiles, trucks, graders, etc. First line, as specified, is to be substantially complete to furnish the various sizes required by the state. Second line or lower quality tires/tubes shall not be eligible for consideration. Discontinued or obsolete products are unacceptable.

Vendors may be required to furnish proof that product offered to the State of West Virginia comply with the above requirements.

All tires shall be listed in the cooperative approved tire list (CATL) current issue (copy included). Bids shall not be considered on products unless they are shown as approved in the appropriate (CATL) or the latest amendment thereto.

All inner tubes shall be in accordance with federal specification No. ZZ-1-550b, current issue, or the latest revisions thereto.

Tires and tubes shall carry the name of the manufacturer. Vendors shall be required to give satisfactory assurance of their ability to furnish from their own factories, and/or warehouse stocks, the required tires and tubes.

Contract shall cover all tires in the vendor's line, and is not limited to those listed in the pricing model on the bid schedule.

All tires and tubes delivered under this contract shall have been manufactured within the 12 month period prior to delivery.

A successful vendor who offers product under this contract and fails to make delivery, may be assessed liquidated damages as follow: The damages shall be:

The difference between the cost of the tire from the contracted vendor and the cost of the tire from any other source.

A vendor who shows a pattern of failure to deliver, or delivery of tires which do not conform to specifications or breach of the terms and conditions of this contract, may be subject to immediate cancellation of the contract and suspension of the vendor's bidding rights for up to one year.

The attached usage figures in the pricing model in the bid schedule are approximate. Actual usages may be more or less than the indicated usage figures.

The award(s) shall be made based on the lowest-cost provider for each vehicle. The evaluation of this contract shall be done by multiplying the usage figures times the bidder's discounted unit prices. The extended total shall be the basis to determine the low bidder.

Vendors shall complete the discount from list for each type of tire covered.

Prices offered for items listed on the pricing model will be verified against prices computed from vendor's price list and applicable discounts. Vendors must offer only one price list/catalog per bid. A mixture of price lists will be cause to reject the bid.

**Reporting**

The successful vendor shall be required to supply quarterly reports detailing the purchases on the contract. Report shall be due within 30 days after each 90-day period of the contract. This report shall be sent via mail or email to:

# DEFENSE LOGISTICS AGENCY (DLA) COLUMBUS

## COOPERATIVE TIRE QUALIFICATION PROGRAM (CTQP) COOPERATIVE APPROVED TIRE LIST (CATL)

# CATL-1922

**FOR US GOVERNMENT PURCHASE OF:**

**Non-Military: New & Retread Passenger Car Tires, Pursuit and Emergency High Speed Tires, Light Truck Tires, Truck/Bus Tires, & Off Road Severe Application Tires (ORSA)**

**Military: Retread Light, Medium and Heavy Tactical Truck and Trailer Tires**

This CATL-1922, revised April 2007, replaces all other previous versions.

The changes are only the Qualification Expiration Dates and the information on pages 2 and 3 following.

CATL-1922, April 2007

**COOPERATIVE APPROVED TIRE LIST (CATL)**  
**OF**  
**PRODUCTS QUALIFIED UNDER ASTM STANDARD F1922**  
**AND SAE J2014 (FOR MILITARY RETREADS)**  
**AND ADMINISTRATIVE MANUAL CTQP-AM-1 922**  
**FOR**  
**TIRES, PNEUMATIC, VEHICULAR (HIGHWAY AND SPECIAL APPLICATIONS)**  
**(NEW AND RETREADED)**

Per the 2005 Base Re-alignment and Closure (BRAC), responsibility for Department of Defense (DOD) ground vehicle tire contracting and management moved from the U.S. Army Tank-Automotive and Armaments Command (TACOM) to DLA. DLA has privatized the tire supply, storage, and distribution functions with a 5 year contract awarded to Michelin North America. The CTQP is no longer administered by an independent contractor and is limited in scope to tire groups that include a DOD ground vehicle tire application. The Engineering Support Agency (ESA) for DOD ground vehicle tires remains within the Tank Automotive Research Development and Engineering Center (TARDEC);

E-mail: TireEngineering@tacom.army.mil  
 Address: TARDEC Team Tactical Vehicles & Tires  
 AMSRD-TAR-E/TACT MS: 267  
 Warren, MI 48397-5000

The DLA Defense Supply Center Columbus (DSCC) has overall management responsibility.

TARDEC has technical responsibilities which include test site and test plan approval, review and approval of test results, and notification to DLA of qualifications/changes.

Michelin updates and publishes via the internet CATL 1922 and 1923 lists as directed by DLA

This approved tire list has been updated by Michelin North America as required by Defense Logistics Agency (DLA) contract SPM7L1-07-D-7002 March 2007. It is prepared for Group 1, passenger car tires, Group 2, light truck tires, Group 3, medium and heavy truck/bus tires, and Special Application tires (see Chapter II.B for explanations of each group). Tires listed in this CATL have been tested and/or approved for procurement by U.S. Federal, State and Local Government agencies. This list is based on the results of Qualification Testing as prescribed in ASTM standard F1922 and accompanying Administrative Manual CTQP-AM-1922, issue in effect at qualification test run. This list is subject to change without notice and revisions or amendments will be issued as necessary. The inclusion of tires on this list does not release the supplier from compliance with the specification requirements for tires supplied to the government.

The Cooperative Tire Qualification Program (CTQP) is a voluntary program designed to help ensure tire quality and performance for Government agencies. There is no legal requirement or national government policy mandate for government agencies to use the CTQP or this CATL list when purchasing tires.

The complete process for revising the CTQP is planned in three phases:

Phase 1 is this document, which is the current (2005) CATLs 1922 and 1923 with new Qualification Expiration Dates (i.e 2005/2006 becomes 2010, 2007/2008 becomes 2011, 2009/2010/2011 becomes 2012), and the request for comments from industry.

Phase 2 will be the revision of this document with additions that were granted under the past process and deletions for out-of-production tire lines. These should be provided by individual tire companies to TARDEC at one of the addresses above. After review and approval by TARDEC, these will be provided to DLA who will direct the changes to be made/published by Michelin. Comments from industry will be requested.

Phase 3 will be the collaboration of DLA, TARDEC, potential test organizations and the tire industry to establish procedures for future qualifications and revisions to the CATL lists. DLA and TARDEC have collaborated on the following outline which is intended to provide some idea of changes from the past system.

CATL-1922, April 2007

Proposed outline of the new process for tire approval is as follows:

1. Tire manufacturer selects a test tire which meets the requirements for a DLA managed tire National Stock Number (NSN). I.E CATL Groups, such as 1922 Group 1, Pursuit & Emergency High Speed, that do not have an NSN requirement; will no longer be included. Most CATL Groups will continue to be included. Inclusion of multiple MODEL/BRAND DESIGNATIONS within a Group will continue.
2. Tire manufacturer prepares and submits a detailed test plan conforming to ASTM F1922 to TARDEC for review and approval.
3. Tire manufacturer selects a TARDEC approved independent test facility or proposes an independent test facility for TARDEC review and approval.
4. TARDEC selects the reference tire.
5. Tire manufacturer contacts with the test facility to perform testing and notifies TARDEC of the test schedule at least 30 days in advance.
6. Test results are certified by the independent test facility and a copy of the test results/final report are sent directly to TARDEC.
7. TARDEC reviews test results/report and notifies the tire manufacturer of the approval or disapproval decision within 30 days.
8. If approved, TARDEC notifies DLA and Michelin. Within 10 days of notification, Michelin publishes the updated CATL via the internet.

NOTES:

1. Since all tires produced by a particular manufacturer were not offered for testing, the omission of any tire from this CATL does not necessarily mean that the unlisted tire is either unsafe or inferior in quality.

2. CATL updates will now be published online within 10 days of tire approval.

3. All sizes and ply ratings for the tires models/brands shown in this CATL are acceptable with the exceptions of the Group 1, Pursuit and Emergency High Speed and Military Tactical retreads, which are qualified by size, brand designation, and/or vehicle application/mission.

4. For more information on how to use the CATL when purchasing tires refer to Chapter III, "Using the CATL when Purchasing Tires." Manufacturers may obtain more information on how to become approved by contacting TARDEC via email at: [TireEngineering@tacom.army.mil](mailto:TireEngineering@tacom.army.mil)

5. With the exception of Pursuit and Emergency High Speed tires, tires tested in the CTQP program and listed as qualified in this CATL were tested for treadlife durability only and qualified at speeds of not more than 65 miles per hour for Passenger Car and Light Truck tires and not more than 55 miles per hour for Truck & Bus tires. CATL treadlife testing and qualification as listed does not certify or verify a specific tires ability to perform at higher rates of speed. For speed capabilities of tires refer to the manufacturers own recommendations and speed ratings as required by Federal Motor Vehicle Safety Standards.

# CHAPTER I – INTRODUCTION AND STANDARDS

## I.A. INTRODUCTION

1. *On the surface the CTQP program and CATL 1922 appear to be difficult to use. But using the CTQP program and CATL when making tire purchases can be easier if you understand what the CTQP and CATL are, how the CATL is formatted, and what the various codes in the CATL signify.*

2. *These instructions are designed to explain how to use the CTQP program and this CATL list when purchasing tires.*

3. *Because specific agency procurement guidelines dictate the methods in which government agencies procure tires the recommendations provided in this CATL are only suggestions on how you may use the CATL. When purchasing tires your specific procurement guidelines or rules always take precedence.*

## I.B. WHAT IS THE CTQP PROGRAM AND CATL LIST?

1. *Before using the CATL and CTQP to make tire purchases, the government buyer should understand what the CATL and CTQP are. The following paragraphs help explain them.*

2. *What exactly is the CTQP program? Technically the letters "CTQP" is an acronym, which stands for "Cooperative Tire Qualification Program." But in simple terms it's a program, which was developed to replace the past Federal Tire Program.*

3. *For decades the Government would test and qualify tires for government purchase and tires that passed the tests were added to a list called the Qualified Products List (QPL). This list was used by many government agencies to help them make smart tire purchases. Because of streamlining and Acquisition Reform efforts, the Federal Tire Qualification Program was discontinued in January 1997 and many Federal or Military tire standards were deemed obsolete. However, because tires are usually one of the highest maintenance cost for vehicle fleets (typically only second to fuel), the U.S. Army saw a need and benefit to continue a modified program. As a result the CTQP program was developed. This new program is similar to the past program except that it is administered via contract using commercial standards. Even though the program is administered through a contractor the U.S. Army maintains the needed oversight by monitoring the contractors performance and requiring the contractor to remain independent from tire industry.*

## CHAPTER I – INTRODUCTION AND STANDARDS (continued)

### I.B. WHAT IS THE CTQP PROGRAM AND CATL LIST? (continued)

4. *What is this CATL list? The letters "CATL" are an acronym that stands for "Cooperative Approved Tire List." Basically the CATL is nothing more than an approved list of tires and manufacturers that have passed testing and/or technical reviews to certain standards.*

5. *This CATL document is published for Highway type tires, some special application type tires and military tactical retread tires.*

6. *Including this CATL document, there are many other elements, which make up the CTQP Program such as test standards, administrative guidelines and a Cooperative Plant Quality Certification (CPQC) program for retreaders. The CTQP also has separate standards, guidelines and a different CATL available for Low Speed, Off Highway type tires.*

### I.C. STANDARDS USED

1. *To become qualified in the CTQP and listed in this CATL-1 922 for highway type tires, manufacturers products must be tested to meet or exceed the following standards:*

- (a) *Passenger Car, Light Truck, Truck/Bus and Severe Application Tires: ASTM Standard F1 922, Test Method for Tires Pneumatic, Vehicular, Highway.*
- (b) *Pursuit, Emergency & High Speed Tires: ASTM Standard F1 922, Test Method for Tires Pneumatic, Vehicular, Highway which requires tests and certification to ECE Regulation 324 & SAE J1561, Laboratory Speed Test Procedures for Passenger Car Tires.*
- (c) *Retreads: The retread process must pass on-vehicle tests using ASTM Standard F1 922 (mentioned above). In addition to testing, individual retread plants/facilities must also be inspected and certified annually, to meet the quality requirements of CTQP-441, Administrator's Approval and Requirements Manual.*

2. *In 1998, the standards used for the CTQP program were officially approved by the American Society of Testing and Materials (ASTM). A chart showing the names and standards used for the CTQP program is shown on the next page. When referencing the CTQP program in contract solicitations use the names and standards indicated.*

### CHART OF NAMES & STANDARDS

<b>NAMES &amp; STANDARDS</b>
<p><b>NAMES USED:</b></p> <ul style="list-style-type: none"> <li>&gt; CTQP – Cooperative Tire Qualification Program</li> <li>&gt; CATL – Cooperative Approved Tire List</li> <li>&gt; CPQC – Cooperative Plant Qualification Certification</li> </ul>
<b>STANDARDS FOR HIGHWAY TIRES</b>
<ul style="list-style-type: none"> <li>&gt; ASTM Standard F1922, Test Method – for Tires, Pneumatic, Vehicular, Highway</li> <li>&gt; CTQP-AM-1922, Administrator's Approval and Requirements Manual for Tires, Pneumatic, Vehicular, Highway</li> <li>&gt; CATL-1922, Cooperative Approved Tire List (CATL) for Tires, Pneumatic, Vehicular Highway</li> </ul>
<b>TEST STANDARDS USED FOR MILITARY</b>
<p><b>RETREADS:</b></p> <ul style="list-style-type: none"> <li>&gt; Latest Version of Society of Automotive Engineers (SAE), Surface Vehicle Recommended Practice, SAE J2014</li> </ul>
<b>QUALITY STANDARDS USED FOR ALL RETREADS (MILITARY &amp; NONMILITARY)</b>
<ul style="list-style-type: none"> <li>&gt; CTQP-441 for Tires, Pneumatic, Retread and Repaired. This standard is used to inspect and certify retread facilities.</li> <li>&gt; Retread products must also pass the applicable road test using one of the test standards mentioned above.</li> </ul>

**\*\*Notes:**

**(1) ASTM Standards may be ordered from:**

*American Society of Testing and Materials (ASTM)  
100 Bar Harbor Drive, West Conshohocken, PA 19428-2959  
PHONE: 610-832-9500*

**(2) CTQP-AM and CATL Publications are available on the web at**

**Temporary (now through 14 May 2007):**

<http://www.michelintruck.com/michelintruck/toolbox/reference-material.jsp>. **Military.**

**Permanent (after 14 May 2007):** <http://www.DoDGroundTires.com>

## CHAPTER II – CATL FORMAT, CODES & DEFINITIONS

### II.A. FORMAT

1. *The CATL is formatted and sorted by tire group first, manufacturer or brand name owner second (alphabetically), then in sequence by assigned government item numbers and specific tire brand names. Other information listed are the qualified production points, test qualification reference numbers (identifies the specific test), qualification expiration dates, tread class and tire codes. Also in Appendix A you will find a complete list of manufacturers, retreaders or brand name owners addresses, telephone numbers and assigned CATL numbers.*

2. *This section helps explain the various groups, codes and reference numbers. As you are going through the definitions that follow, please refer to page 14 which shows a sample illustration page from a section of the CATL.*

### II.B. TIRE GROUP DEFINITIONS

1. *Because there are a wide variety of tire sizes, and tire size designations, from one manufacturer to another, and tire size designations are constantly changing, most tires in this CATL list do not include the specific tire sizes. Instead, tires in this CATL are listed by group. These tire groups are based on generic vehicle applications. To properly use this CATL list to purchase replacement tires you must first determine what vehicle group your tires will be applied to.*

2. *There are three basic groups of common type tires applications and two groups of special application type tires. These groups are listed below with more detailed explanations that follow:*

#### **(a) Group 1, Passenger Car Tires and Pursuit/Emergency High Speed Tires**

*(1) These tires include common passenger car tires. You can usually (but not always) identify tires of this group by looking for the letter "P" at the beginning of the tire size that is imprinted on the sidewall of the tire. An example of a tire size designation for this type of tire would be P205/75R15. Some common applications for these tires would be sedans and mini-vans.*

*(2) This group also includes a section for Pursuit/Emergency, High Speed Tires that are listed by specific tire size, speed rating code and brand name. Pursuit/Emergency, High Speed Tires would be applied to vehicles such as police cars, ambulances and other high speed emergency vehicles. Examples of these type of tire sizes would be P225/60R15(V) {V is the speed rating} or 225/60ZR1 6 {Z is the speed rating}.*

## CHAPTER II - CATL FORMAT, CODES & DEFINITIONS (continued)

### II.B. TIRE GROUP DEFINITIONS (continued)

**(a) Group 2, Light Truck Tires**

*This group is your common Light Truck tires. You can usually (but not always) identify tires of this group by looking for the letter "LT" at the beginning of the tire size that is imprinted on the sidewall of the tire.*

*However many older tire designs of bias construction do not include an "LT" designation in the tire size. An example of a radial tire size designation for this type of tire would be LT235/85R16. An example of a bias tire size would be 7.50-16. Common applications for these tires would be Pick-Up Trucks, Sports Utility Vehicles and some Trailers.*

**(b) Group 3, Truck & Bus Tires**

*These tires include medium and heavy truck, bus and trailer tires. Unlike Passenger Car and Light Truck tires, these tires do not have a letter designation at the beginning of the tire size. Examples of a tire size designations for these type tires would be 11R22.5 {for radial} and 10.00-20 {for bias}. Some common applications for these type tires would be Buses, Semi-Trucks/Trailers, Delivery Vans, Cargo Trucks, and non-tactical Military Supply Trucks and Troop Carriers.*

**(c) Special Application: Off-Road, Severe Application (ORSA) Tires**

*These tires are Special Application, Light Truck tires, which are used in severe off-road conditions. Some vehicle applications for these tires would be Pick-Up Trucks and Sport Utility Vehicles used by the U. S. Border Patrol and U.S. Forestry Service.*

### II.C. GOVERNMENT ITEM NUMBER DEFINITIONS

*All tires listed in this CATL have been assigned Government Item numbers. These numbers can be used to help identify a specific tire easier. More importantly, these numbers have codes that provide detailed information and an identity for each tire brand listed. An example, with explanations of each code of an assigned Government Item Number follows on the next page.*

## CHAPTER II - CATL FORMAT, CODES & DEFINITIONS (continued)

### 11.C. GOVERNMENT ITEM NUMBER DEFINITIONS (continued)

#### Example Government Item Number: X3.2.12RA/RB

- *The first position, "X" is the tire style. There are two styles; X which is a new tire or Y which is a retread tire. In this example this would be a new tire.*
- *The second position, "3" is the tire group. This example is a Group 3, Truck and Bus Tire. 1 is Passenger Car; 2 is Light Truck; 3 is Truck/Bus; "ORSA" is Off-Road, Severe Application; and "MIL" is Military Tactical application.*
- *The third position, "2" is the manufacturers assigned CATL number. All manufacturers are assigned CATL numbers and in this example the manufacturer of the tire would be Bridgestone/Firestone (U.S.A.) Incorporated. See the list in Appendix A, which shows all manufacturers assigned CATL numbers.*
- *The fourth position, "12" is a sequence number assigned to the specific tire brand name when it was listed. In this example this tire is the 12<sup>th</sup> Bridgestone/Firestone Inc. tire that was listed for Group 3.*
- *The fifth and six position, "RA/RB" identifies the construction of the tire and whether it is tube or tubeless. In this example the tire is of radial construction and is available as either tube or tubeless. The following explain what these style codes stand for:*
  - > *RA = Radial, Tubeless.*
  - > *RB = Radial, Tube Type*
  - > *BA = Bias, Tubeless.*
  - > *BB = Bias, Tube Type*
  - > *RA/RB = Radial, Tubeless or Tube Type*
  - > *BA/BB = Bias, Tubeless or Tube Type*

## CHAPTER II - CATL FORMAT, CODES & DEFINITIONS (continued)

### II.D. CODE DEFINITIONS

*The CATL shows a column of additional codes assigned to each tire listed. These codes provide more details about the tire construction, usage information and vehicle/axle applications. Explanation of these codes follow:*

#### CODES

*AP = All Position. (NOTE: Some o/o tires are designated by the manufacturer as All Position. Before placing o/o tire designated "DA" on the steer position, consult the tire manufacturer).*

*DA = Drive Axle only (NOTE: When this code is used in the Light Truck tire area, keep in mind that if you are placing these tires on a 4X4, "DA" does not mean that they can be placed on all axle positions).*

*LP = Low Profile*

*EHS = Emergency High Speed*

*PS = Polyester/Steel construction (Body Cord/Belt Cord)*

*PSA = Polyester/Steel/Arimid construction*

*PSN = Polyester/Steel/Nylon construction (Body Cord/Belt Cord/Breakers)*

*N = Nylon construction (Body Cord)*

*ND = Non Directional Tread (usually military design)*

*NRFSR = Not Recommended for Secondary Roads*

*SR = Speed Rating (see next page for speed code definitions)*

*SS = Steel/Steel construction (Body Cord/Belt Cord)*

*STC = Snow Traction Capability*

*TO = Trailers Only position*

## CHAPTER II - CATL FORMAT, CODES & DEFINITIONS (continued)

### II.E. SPEED CATEGORY CODES

*In addition to the normal tire codes, Pursuit and Emergency, High Speed Tires also have a Speed Category Code Assigned to them which tells the speed rating of the tires. Explanation of these codes follow:*

<u>SPEED SYMBOL</u>	<u>SPEED CATEGORY</u>
S	112 MPH (180 KM/H)
T	118 MPH (190 KM/H)
U	124 MPH (200 KM/H)
H	130 MPH (210 KM/H)
V	149 MPH (240 KM/H)
W	168 MPH (270 KM/H)
Y	186 MPH (300 KM/H)
Z	See note below.

#### NOTES:

- > *Speed category codes are assigned to a tire and denotes the maximum speed for which the use of the tire is rated (all EHS or PEHS coded tires are speed rated).*
- > *Open ended speed category "Z": For tires having a maximum speed capability above 149 MPH, a "Z" may appear in the size designation. For tires having a maximum speed capability above 186 MPH, a "ZR" must appear in the size designation. Consult the tire manufacturer for maximum speed capability of the particular tire when there is no service description.*

### II.F. TREAD "CLASS" DEFINITIONS

*The CATL also shows a column of tread class codes assigned to each tire listed. These tread class codes provide details about the tread design and how the tire should be used based on its tread design. Explanations of these tread class codes are on the next page. For more detailed tread class descriptions please refer to ASTM Standard F1 922 and Administrator Manual CTQP-AM 1922.*

**\*CHAPTER II - CATL FORMAT,  
CODES & DEFINITIONS (continued)**

**II.F. TREAD "CLASS" DEFINITIONS (continued)**

**CLASS**

<i>R/T</i> =	<i>RIB TREAD</i>
<i>A/S</i> =	<i>ALL SEASON (applies to Passenger Car and Light Truck tires only)</i>
<i>S/T</i> =	<i>SNOW TREAD (see note below)</i>
<i>A/T</i> =	<i>ALL TERRAIN</i>
<i>O/O</i> =	<i>ON/OFF ROAD</i>
<i>D/A</i> =	<i>DRIVE AXLE HIGHWAY TRACTION TREAD</i>
<i>T/O</i> =	<i>TRAILERS ONLY</i>
<i>A/T/S</i> =	<i>ALL TERRAIN SEVERE APPLICATION</i>
<i>O/O/S</i> =	<i>ON/OFF ROAD SEVERE APPLICATION</i>
<i>M/S</i> =	<i>MUD AND SNOW (applies to Passenger Car and Light Truck tires only)</i>

*NOTE: To help describe the tire tread better, some tires may be identified further with a "(rib)" or "(lug)" designation next to the tread code.*

*NOTE: Some newer tires are designed for use in severe snow conditions and are marked on at least one sidewall with the letters "M" and "S" (e.g., MS, M/S, M&S, M+S, etc.) plus have a pictograph of a mountain with a snowflake. If you need more information on tires designed for severe snow conditions contact the CTQP Administrator (at (810) 677-5745) or refer to Rubber Manufacturers Association, Tire Information Service Bulletin, Volume 37, Number 2, February 1999 and titled "RMA Definition for Passenger and Light Truck Tires for Use in Severe Snow Conditions." An example of the mountain/snowflake is shown below.*

# "SAMPLE" CATL SECTION WITH DEFINITIONS"

NOTE: Each section is lettered and an explanation is provided for each letter.

## GOODYEAR BRANDS:

X1.6.37	"CONQUEST GA"	r/t, a/s (rib)	PS, AP, STC

## SAMPLE CATL PAGE DEFINITIONS

- A. This is the tire group. In this instance, this section list Group 1, Passenger Car Tires  
See pages 8 & 9 for detailed group definitions.
- B. This is the name of the tire manufacturer, retreader or brand owner of all the tires listed below it.
- C. The first bullet tells what facilities may produce the tires. The second bullet is a qualification test reference number that the tires were qualified with and the third bullet indicates when the qualification for tires listed below it will expire.
- D. This is the Government Item Number: This is a number assigned to each tire once they are qualified. See pages 9 & 10 for a breakdown of what this number means.
- E. These are the brand designations or names that the manufacturer has given the tires.
- F. This is the tread class code. Refer to pages 12 & 13 for definitions of these codes.
- G. This is the tire code which tells the tire construction and where and how the tire may be used. Refer to page 11 for definitions of these codes.

## CHAPTER III - USING THE CATL WHEN PURCHASING TIRES

*Your specific procurement guidelines will dictate the specific contract language you use when purchasing tires. However the following is a step-by-step example of how you may use the CATL when purchasing tires.*

**STEP 1, IDENTIFY WHAT YOU NEED:** *Identify the tire group you need to buy by looking at your vehicle applications and the tires you currently have. Provide a good description of the type and size for the tires you want to purchase in your contract solicitations. It's also recommended that you identify vehicle application info in your contracts when possible, as most manufacturers will match an appropriate tire for the application. When using the CATL to make purchases, make sure you identify the tire group, codes and tread classes. For example if you were purchasing replacement tires for a fleet of 1997 Ford Explorer Vehicles, that were originally equipped with radial, LT235/85R16 tire size, Load Range D, All Season, Rib type tread you could use the following description:*

**EXAMPLE:** Radial, LT235/85R16, Load Range D, for application on 1997, All Wheel Drive, Ford Explorer. Tires should be Group 2, Light Truck tires, All Season, Rib Tread class, and All Position as defined by the latest version of CATL 1922.

**STEP 2, REQUIRE CATL QUALIFICATION:** *Require in your contract solicitation that the prospective tire manufacturer or supplier be CATL qualified and that the tire brand be listed in the CATL or that the manufacturer/supplier provide proof of CATL qualification with a Qualification Certification Form (these forms are issued to all manufacturers upon successful completion of qualification testing). Example language you could use is as follows:*

**EXAMPLE:** Prospective contractors and their tire brands submitted under this solicitation must be qualified and listed in CATL 1922, or provide a Qualification Certification Form signed by the CATL program Administrator.

**STEP 3, PUT IT ALL TOGETHER:** *A complete example of contract language for purchasing new tires could be as follows:*

**EXAMPLE:** Tires are to be radial, LT235/85R16, Load Range D, for application on 1997 All Wheel Drive Ford Explorer. Tires should be Group 2, Light Truck tires, All Season, Rib Tread class, and All Position as defined by CATL 1922. The prospective contractor(s) and their tire brand(s) submitted under this solicitation must be qualified and listed in CATL 1922, or provide a Qualification Certification Form signed by the CATL program Administrator.

## CHAPTER III - USING THE CATL WHEN PURCHASING TIRES (continued)

**STEP 4, FOR RETREADS:** *For the obvious environmental and cost advantages, it's suggested that retreads be used to the maximum extent possible. Retread processes are also tested and listed in the CATL. However because quality may vary from one retread facility or franchise to another, each retread facility is also required to be inspected and certified annually to certain quality control standards (CTQP-441). Therefore the retreaders' process should not only be listed in the CATL but also the specific retread plant/facility should be able to provide a Cooperative Plant Quality Certification (CPQC).*

*A complete example of contract language for purchasing retread services could be as follows:*

**EXAMPLE:** Retread services for radial, LT235/85R16, Load Range D, for application on 1997 All Wheel Drive Ford Explorer. Tires will be retreaded for Group 2, Light Truck tires, All Season, Rib Tread class, and All Position as defined by the latest version of CATL 1922. The prospective retread contractor process brand name(s) must be qualified and listed in CATL 1922, or the retreader may supply a Qualification Certification Form signed by the CATL program Administrator. Prospective retread contractors must also provide a current copy of a Cooperative Plant Quality Certification (CPQC) which certifies compliance with CTQP-441 for any and all retread facilities or plants, which will provide retread services under this contract.

**STEP 5, VERIFY QUALIFICATIONS AND AWARD THE CONTRACT:** *Verify the contractor(s) and tire(s) qualifications by checking what is proposed to the CATL list. For retreaders make sure they also supply a copy of CPQC facility certification. If everything is in order award the contract.*

# **CHAPTER IV CATL-1 922 LISTING OF APPROVED TIRE BRANDS**

**Refer to Appendix A for a complete list of manufacturers, retreaders and brand name owners addresses, telephone numbers and manufacturers assigned CATL numbers.**

CATL-1922, April 2007

\*Note: All the Yokohama tires listed above have recently passed CATL qualification. However, Yokohama did issue a voluntary limited tire recall for the 4 tire brands highlighted. This recall only applied to tires in a few sizes and that were produced/manufactured the week of 12-18 December 2004. If you have purchased any of the 4 tire brands highlighted above that were manufactured during this timeframe refer to recall notice issued by Yokohama to see if your tires are affected. You can obtain the recall notice at [www.yokohama.com](http://www.yokohama.com) or by calling Yokohama's Consumer Affairs Hotline at 1-800-722-9888.

VENDOR PREFERENCE CERTIFICATE

Certification and application\* is hereby made for Preference in accordance with West Virginia Code, §5A-3-37. (Does not apply to construction contracts). West Virginia Code, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the West Virginia Code. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Resident Vendor Preference, if applicable.

- 1. Application is made for 2.5% resident vendor preference for the reason checked: Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; or, Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or 80% of the ownership interest of Bidder is held by another individual, partnership, association or corporation resident vendor who has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or, Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; or,
2. Application is made for 2.5% resident vendor preference for the reason checked: Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,
3. Application is made for 2.5% resident vendor preference for the reason checked: Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,
4. Application is made for 5% resident vendor preference for the reason checked: Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; or,
5. Application is made for 3.5% resident vendor preference who is a veteran for the reason checked: Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; or,
6. Application is made for 3.5% resident vendor preference who is a veteran for the reason checked: Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

Under penalty of law for false swearing (West Virginia Code, §61-5-3), Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.

STATE OF WEST VIRGINIA  
Purchasing Division**PURCHASING AFFIDAVIT**

**West Virginia Code §5A-3-10a states:** No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

**DEFINITIONS:**

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

**EXCEPTION:** The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

Under penalty of law for false swearing (*West Virginia Code §61-5-3*), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.
