## ADDENDUM NO. 3

Vendor question: Line 1 references a FG4000 Base Station Antenna, however this is a line that cannot be bid as is. Can you please provide a single part number or the required frequency and gain?

Answer: We understand the antenna model series. We purchase several different models from that series depending upon our needs. The bid request asks bidders to bid understanding that Section III – 1 indicates: "This contract shall be awarded based on a single discount from a manufacturer's entire parts price list." We assume the problem is that we need to make sure that every bidder is using the same manufacturer's price list and therefore a particular model must be used as an example even though we will evaluate bids based on percentage discount from manufacturer's ENTIRE list. Therefore, use **FG4500** as the particular antenna.

Vendor question: Line 2, the DB201 is a series of antenna and frequency required will determine the part number and pricing. Can you please provide a single part number or the required frequency?

Answer: For line 2, use DB201-L. This is a customer tuned model and we self tune for the frequency needed.

Vendor question: Line 14 seems to have a discrepancy in the part number provided, there are no listings for the TPI-C as requested, however there are listings in the manufacturer's catalog for a TTP1-C. Could you please confirm this part number and advise?

Answer: Line 14 was misread from the original request sent to purchasing and should be TTP1-C.
