Specifications

Purpose: The purpose of this contract shall be to furnish materials required for the maintenance of Energy Absorption System Energite III Sand Barrels, Energy Absorption System Fitch Sand Barrels, Plastic Safety Systems CrashGard Sand Barrels, and Traffix Devices Sand Barrels.

1.0 DEFINITIONS

- A. The "Agency" shall be defined as the West Virginia Division of Highways
- B. The "Vendor" shall be defined as the successful bidder.
- C. The "Contract" shall be defined as the binding agreement that is entered into between the State of West Virginia and the Vendor to provide the services as herein specified.
- D. "Release Order" shall be defined as order placed against the Contract by the Agency.
- E. Mandatory Requirements: The terms "must", "will", "shall", "minimum", "maximum", or "is/are required" identify a mandatory item or factor. Decisions regarding compliance with any mandatory requirements shall be at the sole discretion of the State.

2.0 SCOPE OF WORK

2.1 Technical Requirements: The successful Vendor shall provide complete sand barrel units and replacement lids for either the Energy Absorption System Energite III Sand Barrel system, the Energy Absorption System Fitch Sand Barrel system, the Plastic Safety Systems CrashGard Sand Barrel system, or the Traffix Devices Sand Barrel system.

2.1.1 Complete descriptions of the components to be supplied are included as part of the bid schedule. The bid schedule also includes references to the appropriate manufacturer installation drawing, also included as part of this Contract for reference.

2.1.2 Approved Products Listing

2.1.2.1 The individual sand barrel systems listed within this RFQ are sand barrel systems currently listed on the WVDOH APL. A copy of the current APL may be viewed at the website <http://www.transportation.wv.gov/highways/mcst/Documents/APPROVED%20PRODUCTS%20LIST%20traffic%20safety%20devices%202011-12.pdf> (see Type V category).

2.1.2.2 The Approved Products List establishes a list of “certified” manufacturers that meet the acceptable level of quality and is not intended to reflect a preference or favor any particular brand or Vendor. Any manufacturer capable of meeting the established level of quality may become an “certified” manufacturer and be added to the APL in accordance with the procedures found in MP (Materials Procedure) MP 700.00.55 Guidelines for Establishing Approved Lists of Materials and Sources. A copy of MP 700.00.55 may be found at:

<http://www.transportation.wv.gov/highways/mcst/Pages/MaterialProcedures.aspx>

The state reserves the right to waive minor irregularities in bids or specifications in accordance with section 148-1-4(F) of the West Virginia Legislative Rules and Regulations.

2.2 Delivery

2.2.1 This Contract may be utilized by multiple recipients statewide, each having a unique delivery address.

2.2.2 Release Orders shall be delivered in full within a maximum of twenty-one (21) Calendar Days ARO. If the Vendor is unable to deliver in full within twenty-one (21) Calendar Days, the Vendor shall be subject to a daily (per Calendar Day) penalty at the purchasing organizations discretion for each Calendar Day beyond twenty-one (21) Calendar Days ARO, until the order is received in full. This penalty shall be assessed by subtracting the penalty from the original total value of the Release Order. The penalty shall not exceed the original total amount of the Release Order. The penalty shall be calculated based on the Table shown at the following address:

<http://www.transportation.wv.gov/highways/contractadmin/specifications/Pages/LiquidDatedDamages.aspx>

The original total amount of the Release Order shall be substituted for the “Original Contract Amount” when using this Table

2.2.3 All large components shall be shipped adequately secured on pallets for ease in unloading. Large components shall be easily identifiable or the packaging shall be labeled indicating the contained parts. All accessory hardware and relatively small components shall be appropriately packaged and labeled. Any material delivered not meeting the above requirements shall be subject to being returned to

the Vendor at the Vendor's expense. In this case, the Vendor shall be responsible for the shipment of the returned materials back to the purchasing organization, packaged as specified above. In addition, the provisions of 2.2.2 shall remain in effect. The order shall be considered "delivered in full" at the time of delivery of the returned materials back to the purchasing organization. Furthermore, the number of days for completion of the order shall be calculated as specified in 2.2.2. If expedited delivery was requested for the order, the provisions of Section 4.2.3 shall apply to the entire order if the returned materials are not delivered back to the purchasing organization within ten (10) Calendar Days of the original receipt of the order by the Vendor.

2.2.4 Delivery is an integral part of this contract and failure to comply will be cause to initiate a WV-82, Vendor Performance Form. This form will officially notify the West Virginia Division of Purchasing and the Vendor of unsatisfactory performance in the execution of this contract and the requirements herein.

3.0 FREIGHT

3.1 All shipments are to be FOB Destination.

3.2 The Vendor shall be responsible for all freight charges incurred as a result of the purchases under this Contract. For orders where expedited delivery is requested and authorized by the Agency, the Vendor may invoice for these charges provided that it will be given as a "pass through" cost to the Agency. No markup shall be permitted for expedited delivery. See Section 4.2.3 for more information.

4.0 ORDERING AND INVOICING

4.1 Release Orders

4.1.1 For all orders, the Agency will issue to the Vendor a WV-39 Release Order. Issuance of the Release Order shall contain the type of merchandise to be purchased and shall serve as the authorization to process the order.

4.2 Payment

4.2.1 The State of West Virginia currently utilizes a VISA purchasing card program which is issued through a local bank. The Vendor must accept the State of West Virginia purchasing card for payment of all orders placed against this Contract.

4.2.2 The Vendor must supply a credit card receipt, sales receipt, or cash register receipt. In addition, all orders shall be shipped with an itemized packing list(s). The packing list(s) shall show all items included in the shipment as well as items on backorder. Charges must not be applied until all merchandise on the WV-39 Release Order is received in full by the Agency.

4.2.3 For orders where expedited delivery has been requested by the Agency per Section 3.2, the Vendor may add actual shipping costs (prepaid) to the invoice as a separate item. In this case, the Vendor shall attach a copy of the freight bill to the invoice sent to the Agency. All such orders shall be delivered in full within ten (10) Calendar Days ARO. If any such order is not received in full within ten (10) Calendar Days ARO, the Vendor may not add shipping costs as described above to the invoice and the order will be treated as a normal non-expedited order with the provisions of Section 2.2.2 to apply.

5.0 CONTRACT STRUCTURE & CONTRACT BID EVALUATION

5.1 Contract Sections

5.1.1 This Contract shall be considered to consist of four (4) Sections. Section I consists of Items 1 through 3. Section II consists of Items 4 through 5. Section III consists of Items 6 through 9. Section IV consists of Items 10 and 11.

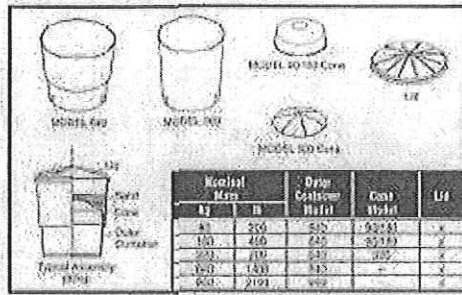

5.2 Bidding & Award

5.2.1 The Vendor should choose and provide pricing for only one (1) of the Sections described above. If the Vendor provides pricing for more than one (1) Section, the "total cost" for each Section shall be calculated separately. The total cost for each Section shall be the total of the values in the "TOTAL AMOUNT" column in each Section. The Section with the lowest total cost will be the Section considered to be the one (1) Section that the Vendor is bidding on the Contract, and will be considered the "total cost" of the Vendor's bid.

5.2.2 The Vendor with the lowest "total cost" associated with their bid will be awarded the Contract. Only one Section shall be awarded, and only one Vendor shall be awarded the Contract. The Vendor must provide a price for all items in one (1) Section of the Contract or their bid will be disqualified.

Energit III System Components

Crash Performance

The Energit® III/Fitch® Universal Module Systems have been successfully tested to NCHRP Report 350, Test Level 3 for non-redirective, gating crash cushions. NCHRP 350 differs from NCHRP 230 in that the heavy vehicle is now a pickup truck with a higher center-of-gravity plus the impact severity has increased by 6.7% due to the impact speed of 100 km/h (62 mph).

The inertial barrel systems break up during impact. As the impacting vehicle passes through the array, its speed is slowed by transfer of its momentum to the sand, allowing for safe, steady deceleration.

Caution: Inertial barrels are not recommended for sites where redirective capabilities are warranted.
