Addendum No. 1

- All wiring must be replaced with new. This must follow all applicable codes and requirements.
- All four breaker boxes / panels must be replaced with new (no rebuilds of existing boxes). Contractor is responsible determining needed replacement breaker types and such.
- Currently, the open warehouse floor lighting is broken into four quarter zones. To expedite the process, the existing zones can be maintained and Attachment B can be ignored.
- To maximize productivity in our limited time window, the takedown of existing lighting may occur at the beginning of the project. This is acceptable only if the contractor also installs temporary lighting in all areas that will be affected. This temporary lighting must provide light levels comparable to existing light levels.
- The available work hours have been extended. During the weekdays, the contractor may start at Noon and must be out of the warehouse by 5 AM the following weekday morning. The warehouse will be made available to the contractor to work day or night on the weekends. Work hours must be coordinated with Warehouse Management at least 48 hours in advance.
