DEP15558  
REQUEST FOR QUOTATIONS  
SPECIFICATIONS

The West Virginia Department of Environmental Protection (DEP) is releasing this request for quotations (RFQ) to qualified vendors to review invoices related to remediation costs at sites previously insured by the West Virginia Underground Storage Tank (UST) Insurance Fund.

Background of the Program

A state-managed self insurance fund for underground storage tank insurance was authorized by the West Virginia Legislature in 1990. An insurance policy was developed and distributed to all participants. The WVDEP closed the insurance coverage portion of the program by not renewing policies after October 1, 2000. Senate Bill No. 490 was passed by the Legislature on March 8, 2007 requiring the DEP to submit a proposal for the remediation and reimbursement of fifty-eight (58) sites previously insured under the Fund. Remediation work has continued at many of the sites, and reimbursement of these costs is important. The DEP has continued to collect invoices from those UST owners who have continued to remediate their sites. These invoices have not been reviewed to determine which costs are reimbursable or consistent with industry standards. Additionally, the DEP expects to receive invoices for future work that is carried out in accordance with plans and agreements executed between the DEP and the UST owners. The DEP has recently received appropriations from the Legislature allowing it to retain a vendor who can begin reviewing the invoices and complete the work by December 31, 2012.

Scope of Work

Currently there are approximately 25 sites with active investigation/remediation with agreements in place. Invoices are typically generated on a monthly to bi-monthly basis and are subject to being verified. In addition, there are 21 sites that are pending agreements as funds are appropriated. The scope of work under the associated regulatory program (LUST, VRP, UECA) for the remediation of these remaining 21 sites will be determined when the respective agreements are executed.

1) The vendor selected to carry out this contract will:

- Review and evaluate invoices in accordance with the Scope of Work described above;
- Evaluate invoices to ensure reimbursements do not exceed the limits of liability previously in existence;
- Coordinate activities with the DEP, including assisting the DEP in ensuring sites are conducting remediation work in accordance with agency-approved agreements;
- Ensure that owners have followed the DEP's requirement to obtain three bids for future remediation work;
- Ensure that owners have complied with applicable prevailing wage requirements; attend UST Advisory Committee meetings;
- Assemble and report data as requested;
- Travel to sites for review and evaluation of remediation work at the sites;
- Make recommendations to the Advisory Committee and DEP regarding reimbursement of invoices.

- Within 30 days of contract award the vendor shall submit written procedures for reviewing and evaluation of invoices. Within 10 days of DEP's approval of the vendor's procedures, the vendor shall begin reviewing and processing the existing submitted invoices in accordance with the Scope of Work. Review of the invoices is to be conducted in accordance with the established deductibles and limits of coverage in accordance with the original insurance policy. A representative of the vendor will be present at UST Advisory Committee meetings and will deliver reports to the DEP and the UST Advisory Committee, which will include updates on the status of invoice reimbursement.

2). Procedures and other tasks:

- Handling procedures for invoice processing: The vendor will evaluate an invoice recommending payment or denial of all invoices in accordance with the above Scope of Work. The vendor will prepare recommendations for payments and related records with due diligence and develop an effective written internal quality control review process to minimize errors and avoid duplicate recommendations.
- Provide the names and qualifications of key personnel that will be assigned to work on this project. A person who is responsible and accountable for the vendor's overall operations shall be designated as a contact for DEP.
- Data collection and development of UST information must use the same nomenclature as the DEP and include the DEP UST identification number (convert the claim number to the id number). Any database established will be owned by the state. Any computer software developed by the vendor in connection with the performance of its duties under this contract shall be the property of the contractor, except that the DEP is hereby granted a perpetual non-exclusive license to the software. The license to the DEP shall include possession by the DEP of system specifications and operating procedures.

Requirements / Qualifications

- A professional geologist must be retained on staff (*resume for the professional geologist must be submitted with the bid package which documents this requirement*).
- Individuals working for the vendor must have background work and experience in the following areas (*resumes for each of the individuals must be submitted with the bid package which document these requirements*):
  - 1) At least 10 years of geotechnical construction management and environmental service experience
  - 2) Feasibility studies of environmental sites.
  - 3) Geotechnical investigations.
  - 4) Construction management.
  - 5) Environmental site assessments.
  - 6) Petroleum contamination remediation technologies.
  - 7) Environmental Insurance Audits.

### Bidding

Provide costs as follows:

- 1.0 Invoice Handling Costs – This should include a flat rate per UST Site (UST ID#) that encompasses review, evaluation and recommendation for payment of all invoices reviewed during any given month.
- 2.0 Administrative Costs – This should include all other costs associated with the administration of this contract (travel, personnel, etc.). A cost per month must be submitted on the bid sheet.

### Invoice

All invoices with recommendation for payment will be submitted on a monthly basis to DEP and the UST Advisory Committee. Each recommended invoice for payment must identify the UST ID Number for which services are being invoiced.

### Oversight

The DEP reserves the right to oversee and review documents throughout the contract term.

### Additional Information

In the event of termination of the contract, the vendor shall promptly supply the DEP with all information necessary for reimbursement of any outstanding invoices and return any invoices and related documents in the vendor's possession.

A conflict of interest clause applies to contract/consultants who perform or oversee remediation at UST sites and to the vendor awarded this contract, and/or any of its subsidiaries or sister companies, who shall not perform remediation work at a site during the term of the contract.
