**West Virginia Division of Natural Resources  
Parks & Recreation Section  
Blackwater Falls State Park  
DNR21213**

1. Is the contractor responsible for taking the waste water samples to a laboratory for analysis?

Yes, the contractor will perform sampling and take required samples and deliver to the laboratory. The Park bids out laboratory services, and the current laboratory picks up samples in the area two times per month. The contractor coordinates the sampling and pickup time with the laboratory. In the event a laboratory wins an annual bid award, it would still be up to the contractor to get the samples to the laboratory.

2. If so, is it the contractors choice as to where to take the samples for analysis?

The Park bids out laboratory services, and the current laboratory picks up samples in the area two times per month. The contractor coordinates the sampling and pickup time with the laboratory. In the event a laboratory wins the bid award, it would still be up to the contractor to get the samples to the laboratory.

3. Is the contractor responsible for the cost of the tests or is the invoice to be submitted directly to the respective state parks for remittance?

The state park is responsible for the invoice, unless re-sampling is required. Re-sampling and delivery is the responsibility of the contractor.
