11. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
12. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, the State may deem this contract null and void, and terminate such contract without further order.

Questions and Answers

Q1. Does the transportation charges to the dealer from the manufacturer need to be broken out of base price and listed somewhere on the pricing sheet. Or is it part of our price that is listed between the standard equipment section and the option section?

A1. Transportation costs are to be included with standard equipment pricing.

Q2. Is there a standard mileage charge that dealers are charging for delivery to areas other than delivery to Dunbar, WV. Or an amount that the purchasing dept. sees as acceptable?

A2. Mileage Charge for delivery is to be listed with options pricing.

Q3. Should there be a entry on each line for options? For example if it is included as standard equipment on an equal vehicle that we are using should we list it as standard on the option price line? Or if it is unavailable, should it be listed as so?

A3. If option is standard write standard, if is an option insert price.

Q4. A state agency has requested that you add Compressed Natural Gas (CNG) powered vehicles to the contract for all classes for which such a vehicle exists.

A4. No

Q5. Classes 22, 25, and 26 require a rear step bumper. Please only require the standard rear bumper and make the step bumper an option.

A5. Cost Sheets for Classes 22, 25 and 26 will be revised to reflect step bumper as an option.

Q6. Class 23 requires 255 horsepower and 285 lb./ft of torque. Please lower the horsepower to 225 minimum. A more powerful engine would be listed as an option for those who feel the need.

A6. Class 23 Pricing page is revised to reflect this change.

Q7. Class 18 requires 231 horsepower and 293 lb./ft of torque. Please lower the torque to 275 minimum. An engine with higher torque rating would be listed as an option for those feel the need.

A7. Class 18 Pricing page is revised to reflect this change.

Q8. Class Mini-storage van – Please lower the horsepower to 136 and the torque to 128 for the gasoline engine.

A8. Class Mini-storage van Pricing page is revised to reflect this change.

Q9. Shop manuals options are requested in both CD and paper form for all classes. Chrysler, Dodge, Jeep now requires users to subscribe to a service for access to the information normally contained in the shop manuals. Ford Motor Company is allowing customers to order the manuals direct from the publisher Helm, Inc. in paper, DVD, and subscription format. My suggestion is to remove the option from the contract and allow the vehicle owners to order this information in the format that best suits their needs direct from the supplier rather than the car dealer vendor.

A9. Pricing sheets will be revised to reflect this change. Vehicle owners will have to order the format that best suits their needs based upon available options from the manufacturer.

Q10. Slush mats/all weather mats (cargo) are listed as an option on truck classes 12 through 21. This is an option that only applies to SUV's and should be removed from the truck classes.

A10. If this is not an option then use N/A in the option line

Q11. Options to delete cloth seats, carpet, and floor mats are standard and could be removed from truck classes 12 through 21.

A11. If this is not an option then use N/A in the option line
