To: All Attendees of the October 26, 2011 Prebid Meeting for the Installation of Two Turnouts and Associated Trackwork on the South Branch Valley Railroad.

From: John Philbrick, Superintendent

Date: November 14, 2011

RE: Addendum #3 to RFQ #RMA12010 – Two Turnouts and Associated Trackwork on SBVR

NOTE: This addendum answers the following two questions. There are no other changes to the previous addendum.

Question 1: In the materials being provided by the contractor under Item #3 “crossies,” is 1,100 crossies. Is this a typo? Should it be 110 crossies? It is our understanding that we will be required to install all new ties for the 100 foot track extension (say 50 ties) and track restoration for the turnout removal (say 66 ties).

Answer: The reference to 1,100 ties should not have been in the addendum. The number of new ties required for the 100-foot extension of the side track and for the main track where the existing turnout is removed will be determined by the tie spacing given under the “ties” section of the addendum.

Question 2: We can re-use the rail being removed for the new turnout location to restore the main track where the existing turnout is being removed? The 132# rail being furnished would be just for the 100 foot track extension and for the new turnouts?

Answer: That is correct.
